MR. CLEMENTS' SPEECH.

The London Free Press, in commenting on the recent speech made in the Dominion Parliament by Her-

opment, while care should be taken that the American capitalists who come into this field of speculation, being driven out of Ohio by the oil combination there, should not get an invidious control,

"Mr. Clements followed up his efforts of last year by a strong appeal for Government attention to the mouth of the River Thames. He had asked the Government to send an engineer into that bection of the country to ascertain how the annual damage could be obviated, Both in Chatham and the townships below thousands of dollars' worth of damage had been done by reason of the annual floods. This is a matter which, Mr. Clements said, demanded attention from the Government. He suggested that a large sluice should be constructed, from Chatham to Lake Erie, a distance of

ham to Lake Erie, a distance of fourteen miles, to overcome the difficulty.

"The protection of the farming interest and especially the tobacco culture in which the county of Kent was deeply concerned, received able treatment at the hands of the wide-awake member for West Kent. There was no reason, he contended, why under an adequate protective system, the 15,000,000 pounds of leaf now annually imported from the other side could not be grown in this country."

"I am in hell. Every day, every hour, every minute of my life I am in hell. Every day every hour, every minute of my life I am in hell. Every day every hour, every minute of my life I am in hell. What right have these men to be throwing their firebrands into a home of Canadian ridustry and filling with lawlessness and outrage a Canadian city? They we members of the Labor party in the United States, which upholds the Alien Labor law and excludes the Canadian workmen from the great markets of this continent. Our unhappy labor disputes have given birth to a set of agitators who subsist by industrial war, with the leadership of which, if they can combine political influence and votes, they may look to political advancement. About the trouble and loss they may bring on Canada such men care not a straw,—Bystander (Prof. Goldwin Smith) in Toronto Sun.

menting on the receives much in the Dominion Parliament by Herbert S. Clements, the capable young member for West Kent, has the following to say. The speech is one worthy of consideration by every elector of this county, and in it he strikes the keynote to the great needs of the agriculturists of this section of the country:

"Mr. Clements, the member for West Kent, made a rattling good speech in the House of Commons on Monday on the needs of that part of Western Ontario. The promising oil territory should, he said, receivesome consideration from the Government. Assistance was required for its development, while care should be taken

We have not yet heard from the depositors ruined by Stensland's thefts. Many of them are, no doubt, experiencing a sort of hell on earth since they were reduced to poverty by this whining convict.—St. Thomas Times.

they don't waste time on symptoms, but get back to the real root causes! Nature has provided that the liver shall secrete a substance which, operating on the intestines, shall prevent the congestion which causes piles. Bileans do not merely soothe the congested veins. They act on the liver cells, enable them to start their work and then the agony of piles disappears as does a river flood when the ice jam is removed.

Mr. Thos. Plunkett, of 472 Manning avenue, Toronto, apps: "For three or four years I suffered from constipation and piles. I also had severe headaches. All sorts of remedies were recommended to me but I tried them in vain. Bileans were very different, however. From first trying them I found benefit, and now if anybody wishes to know anything about Bileans I will be glad to tell them how superior they are."

Why superior? Because most remedies merely get at the external symptoms. Bileans go back to the cause. Same reasoning applies to their certain cure of all liver ailments, indigestion, headache, constipation, female ailments, anaemia, debility, etc. Druggists and stores sell at 150 a box, or from the Bilean Co., Toronto, upon receipt of price, six boxes for \$2.50.

A WOMAN'S BACK WAS NOT MADE TO ACHE.

Thousands of Women suffer Untold Misery Every Day with Aching Backs That Really have no Business to Ache.

Under ordinary conditions it ought to be strong and ready to bear the burdens of life.

It is hard to do housework with an aching back. Backache comes from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Backache is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible sufferering from Kidney trouble.
