Schoolgirl's Nerves

"Oh, to be free from selool life and school worries during the sunshiny spring days," is the wish of thousands of schoolgirls, to whom nothing could be of more benefit than outdoor exercise and an oppositunity to drink in the fresh air and sunshine.

Just at the springtime, when the human sy tem is sure to be more or less debilitated. often at the most critical time in a girl's F there come also the anxiety, eye-strain i mental over-exertion consequent on the

proach of examinations. To many this extra demand on the proves the last straw, and the results made known by headaches, sleeplessness, i et loss of appetite, tired, worn-out fe will gs and inability to concentrate the mind c he work at hand, whether it be mental or

ph sical. To some there will come St. nervous prostration, or some de rang ement of the vital organs, which may linzer to make a life of suffering and unhappine

The only means of averting the use of external assistance

crease the supply of pure, rich blood, and for this purpose there is no treatment comparable

to Dr. Chase's Nerve Food. Because of its mild and gentle action and powerful restorative influences in building up the system, Dr. Chase's Nerve Food is partienlarly suited as a treatment for girls and women. Especially during the critical periods of woman's life, such as between the ages of twelve and sixteen, this great food cure, by supplying an abundance of rich, red blood, keeps up health and strength and fills the body with

vigor and vitality. Miss Cynthia Hutchinson, Hanceville, B.C. writes:—"I feel it my duty to tell what a great friend.
Dr. Chase's Nerve Food has been to me. I would have written scener, but wanted to be sure I was theroughly cured. Before using this medicine my nervous system was so completely run down that my friends, as well as myself, thought I could never get

better. All medicines failed to help me.

"A trial of Dr. Chase's Nerve Food benefited me,
and I used altogether seven boxes. At the end of a
month people scarcely knew me, I had improved so
much. The blood was abriebed, color improved. flesh added, and I get strong and well. Several of
