### A Quick Relief for Headache

A headache is frequently caused by badly digested food; the gases and acids resulting therefrom are absorbed by the blood which in turn irritates the nerves and causes painful symptoms called headache, neuralgia, rheumatism, etc. 15 to 30 drops of Mother Selig's Syrup will correct faulty digestion and afford relief.

### A MARRIAGE SLUMP.

One of the Effects of the Return of Peace.

A certain recklessness was, generally speaking, the characteristic of those undertaking matrimony in war time; a tendency to look two or three times before leaping has taken its place since the fighting ended. A variety of causes combine to account for such a change.

In the first place, life in the army being free from those expenses which weigh most heavily on the civilian, the soldier had little chance to realize the alarming cost of living. De-personal experience of the real difficulty of making both ends meet. The absence of any prospects of an early drop in prices, combined with the problem of house accommodation, is quite enough to account for the shyness which he feels with regard to marriage.

Though practical difficulties are doubtless largely responsible for reducing the number of happy marriages, the elimination of certain purely war-time incentives to marry has also much to do with it.

Though life is, at best, an uncertain thing, a man's chances of being alive in six months' time are distinctly brighter now than in recent years. As a natural consequence couples are more willing to wait for better days. Again, the man's argument that if he has to be killed the girl he loves may as well get a pension no longer enters into the weighing of pros and cons.

A man home on leave, after months of misery in the fighting line, had some excuse for acting against his better judgment. Especially was this the case when the expressed wishes of the girl he had not seen for so long allied themselves with his natural inclinations.

If the soldier did not always give sufficient thought to his after-the-war prospects—well, those prospects were so vague that adding a little to their uncertainty did not seem to make so much difference. Accustomed as he was to the taking of chances, he was somewhat apt to incur the risks of a reckless marriage in the gamble of life.

Now that the crowded experiences and feverish excitement of war are over, an inevitable reaction has set in. Many a man whose nerves stood in the strain, finds himself incapable of undertaking new anxieties and responsibilities now that the tension is relaxed. What he seeks is a repose, during which he may recuperate his nervous system and take a few bearings in his new environment.

### COPENHAGEN CHEWING TOBACCO

Copenhagen is used differently from ordinary chewing tobacco.

Take a small pinch, for a start, and put it between the lower lip and gum, in the centre.

Afterwards you can increase the size of the pinch to suit the strength of the chew you desire.

Copenhagen is strong, because the tobacco of which it is made is cut into fine grains, which makes it impart its strength thoroughly and quickly.

Hence, a little "pinch" goes a long way, showing that Copenhagen is not only an unusually economical chew, but also one of the finest quality, being made of the best, old, rich, high-flavored tobacco.
