EASY DIVORCE

The Marriage Tie Not Very Tight in Detroit.

It Doesn't Take Much to Break Up a Home.

Detroit, Nov. 4.-Listening to the tales of woe of fourteen marital mismates was the lot of Judge Mandell, bachelor, at yesterday afternoon's di-Most of the wailers got rees. One or two were refused, and e or two more held over. It was one of the longest divorce dockets ever eard by one judge, in a two-hour ses-

Bessie Stewart changed her name Bessie Stewart changed her name to Mrs. Walter M. Stewart, at Jackson, November 30th, 1904. Her husband is a florist at Marshall, Mich. She said he told her there was a dark, mysterious event in his past life, and that, if she had known, she never would have married him. He also abused and insulted her and asked her when she was going to get that divorce.

"PLEASE GO 'WAY; LET ME SLEEP." Once when the Ladies' Aid Society was meeting at her house, he came in the room, yawned, and said that if they only would go home, he would be able to go to sleep. They went. Stuart never saw his child went. Stuart never saw his child but once. He glanced at it, turned his back, and has not been home since, his wife said. Mrs. Stuart was given a

decree.
"I had to have the police guard the house for three days to keep him from killing me," said Mae M. Davis, of Wil-lian Davis, to whom sh was married by Justice Ott in 1906. "He drank and then beat choked and kicked and reviled me His contributions to my support conspicuous by their absence." Sh given a decree.

n he left me, he wanted me to "When he left me, he wanted me to give-back my, wedding ring," said Annie of Gordon Barnett. Their honeymood lasted just three months, from June to September, 1906. Decree granted.

WINDSOR KNOT SLASHD.

WINDSOR KNOT SLASHD.

Nettie Bovee was given a decree from Howard Bovee, whom she married in Windsor in 1897, and was obliged to leave in 1906 because of drunkenness. The wedding took place in 1905, and the couple lived together 20 days, when Rehahn left. Judge Mandell will take time to consider the case.

"Are you satisfied now that you've caught me," is what Clifton Jewell said Clara, his wife, asked him when he caught her dancing at a beer garden. That night she called him up on the telephone and reprimanded him for causing a row between herself and

for causing a row between herself and her "steady." They were married by her "steady." They were married by Key, D. H. Hind in Windsor in 1907, and Rev. D. H. Hind in Windsor in 1907, and in the few months they lived together she deserted him three times. After his untactful entry upon the dancing scene, he was unable to make peace with her. A woman neighbor told of taking away a revolver and a bottle of carbolic acid with which Mrs. Jewell sought to end her life.

WORK TOO MUCH FOR FATHER.

WORK TOO MUCH FOR FATHER.

"Of course we threw him out; father had all he could do to support his own family," was Margaret Cadotte's explanation of why she got rid of Frank Cadotte when the couple were living at her father's house.

"He was proud of his reputation among the dock bums as a boozer," said the father-in-law. "He would lie abed all the morning while the rest of us had to get up and work." Decree granted.

Joseph C. Kunz said he married Clara Kunz in August, 1905, and that she de-Joseph C. Kunz said he married Clara Kunz in August, 1905, and that she de-serted him in May, 1906. A child was born afterward. Decree granted. "He wouldn't work, and abused me," said Josephine of Theodore Hilder-brandt. It was a St. Joseph wedding. The couple have four children. Decree

was granted.

Henry Ramlow said Nellie Ramlov

deserted him. They married in 1897 and separated in 1900. Decree.

NOCTURNAL CONCERT JARRED Mary Sliwanski said that Stanislaus, her husband, would come home late at night and play the violin, causing her great anguish. He also made her support the family and wouldn't even pay the taxes. Judge Mandell did not inquire into the quality of Stanislaus' consider any different paying the same of the control of the c aire into the quality of standard and decree.

Nellie Fitzpatrick was divorced from the standard at the standa

Nellie Fitzpatrick was divorced from from Edward, whom she married at Walpeton, N. D., in 1896, and who, she said, left her in 1902.

Dosie Feitel, a little Bohemian woman, said Otto Feitel deserted her just eleven days after their marriage by Justice Ott, last February. She went to work on a farm in Greenfield township for \$3\$ a week, and he wrote that he would not support her. As she has based her suit on desertion, to establish which requires an absence of two years from the date of Jeaving, Judge Man-

from the date of Jeaving, Judge Mandell was obliged to dismiss the bill.
Toe many men boarders was the complaint of Sidney A. against Hannal Cook. The couple were married in Exeter, Ont. December 6, 1884, and separated in 1900. Decree was granted.

WATCH IN COW.

Ran Nine Years and Only Two Hours Behind Proper Time.

Winsted, Conn., Nov. 3 .- Mr. Orrin Woodin, a Harwinton farmer, who lost a cheap watch nine years ago while haying, has just recovered the timepiece in a novel manner. He butchered one of his cows and when engaged in dressing the bovine heard a ticking noise. An investigation disclosed the lost watch, still keeping time, but two hours

Woodin thinks the cow must have swallowed the watch when eating hay. The watch was a stemwinding affair and every time the bovine breathed, Woodin thinks, it pressed against the stomach, thus keeping it wound up. Prof. Blob, of the Forty-second Street Agricultural and Irrigation Commission, said: "Until this bulletin from Winsted the world never knew that a cow could wind a watch by chewing its cud. I await with impatience further information to the effect that the cow's death was caused by grief when she death was caused by grief when she found that, although the watch which she had wound with care after each meal for nine years was two hours slow, she could not open the case to adjust the works."

A Canadian railway loan of £1,500,000 in 5 per cent. debentures at 103 guaranteed by one of the Provinces is anticipated shortly in London.

New Haven, Conn.—George Drew, a nember of a party of aeronauts, has been giving exhibitions of balloon ascensions at Savin Rocks. At the ascension to-day Drew had risen fully five hundred feet when he leaped out of the balloon, parachute in hand. The parachute failed to open and hundreds gazed in horror as Drew Dashed downward. Fortunately the strong wind carried him into Long Island Sound, where he was picked up unhurt.

Equally marvellous have been many if the cases of those who have been saved by taking "Fruit-a-tives" the famous fruit juice tablets. For Rheumatism, Neuralgia, serious Kidney Trouble, Chronic Constipation and Billousness, Indigestion and Dyspepsia, these fruit liver tablets never fail to give the most gratifying results.

If you suffer with any of these troubles, take "Fruit-a-tives" and be well. 50c. a box, 6 for \$2,50 or trial size 25c.—at all dealers or from Fruit-a-tives Limited, Ottawa.

AIRSHIP SQUADRON.

Germany's Dirigibles Make an Attack on Fortress.

Cologne, Rhemish Prussia, Nov. 3.-The derman airship squadron, consisting of the dirigibles Parsefal II. Zeppelin II. and the military airship No. 11 continu and the military airshap No. Il continuing their manoeuvres in the valley of the Rhine, executed a sham attack upon the fortress Ehrenbreitstein early to day. Leaving here soon after midnight the squadron flew up the Rhine to Cobuens, surprised the garrison there, and then swooped down upon the fortress of the river. The airships return early in the forenoon.

FOUND IN BIRDS.

Geological Specimens From North ern Ontario For Museum.

(Special Wire to the Times.)

A valuable gift has | fille een made to the Geological Museum of Canada by Mr. Wilson Foster, who has just arrived from the Yukon, where he resided for many years. The gift consists of a collection of ten thousand georesided for many years. The gift con-sists of a collection of ten thousand geo-logical specimens gathered in northern Canada. Not the least interesting por-tion of this collection are a great num-ber of specimens of gold quartz, topaz and opals, which were found in the giz-zards of bids chief production. and opais, which were found in the gizzards of birds, chiefly partridge and grouse. Mr. Wilson noticed that the crops of these birds frequently contained interesting geological specimens, and he deliberately trapped and shot the birds for the stones they had picked up to grind their food. grind their food.

MAKING \$5,000 A YEAR FROM POETRY.

POETRY.

It is a common belief that poetry doesn't pay. Verse-making is nowadays considered by most people as a waste of time. Magazine editors will accept a few choice poems from well-known poets, but any other aspiring singers must perforce pay to have their work put into type. The spectacle of a poet living on the proceeds from the sale of his verse is as rare as it is remarkable. Yet there is actually in Canada a young poet who is making enough money annually from the sale of a few poems to yield him an extremely nice income. It was only the other day that a cheque for \$5,000 was mailed to Robert W. Service, the poet of the Yukon, to cover royalties on his two books of verse, "Songs of a Sourdough," and "Ballads of a Cheechako," for the past twelve months. Our other Canadian poets may well look upon this achievement with envy and despair. Some interesting particulars about this young genius appear in the November Busy Man's Magazine.

FELL 500 FEET AND LIVED TRADE SCHOOLS

The Report Brought Back From Europe by Dr. Seath.

The Doctor Tells What He Learned About Technical Education.

ucation for Ontario, has returned to To conto from his European tour to ac quire information first hand on the question of technical education. He will

question of technical education. He will prepare a report and submit his recommendations to Hon. Dr. Pyne, Minister of Education, in the near future.

Dr. Seath went direct to London, where he met Sir Bobert Morant, the permanent head of the Board of Education. From Sir Robert and his officials he learned the names of the typical schools in the different countries and their heads.

The trade schools of London Manches. neir heads. The trade schools of London, Manche

The trade schools of London, Manchester, Liverpool, Edinburgh and Glasgow were visited first. From there Dr. Seath went to Paris, where he spent a week. "They have about thirteen or fourteen schools in the city," said the doctor. "About half a dozen are for girls. "These are day trade schools. The characteristic of French schools in particular was the artistic side of them. Girls are taught garment making, corset making and the making of artificial flowers. The wall-paper designed there by the boys was about the best I saw.

cial flowers. The wall-paper designed there by the boys was about the best I saw.

"From France I went to Switzerland and visited the day-trade schools at Berne and Zurich. Also in Switzerland I visited the technical school at Bienne. That school is intermediate between the elementary trade school and the university technical department corresponds with our department of practical science.

"At Bienne they train men as foremen of factories. Students are also trained as railway men for work on the railways which are state-owned. At the softool is a complete railway equipment in miniature. Also there they have a school for training post office officials. Horological schools are numerous for the training of watchmakers.

"Wintertchur, an iron-working centre, has a school for training men for iron manufacturing."

Bavaria and Prussia were the German states visited. The famous trade school at Munich was a revelation. Dr. Kirchensteiner, the director, revolutionized the system of training mechanics in Munich, and was Dr. Seath's chief informant.

"As I understand it, the system ad-

chief informant.

'As I understand it, the system adopted in Munich is different from the rest of Bavaria," continued Dr. Seath. "In Munich the theoretical work and practical work go together, as they do in France and Switzerland, but in many places in Germany theory is chiefly taught and machinery is used for de monstrating. Drawing and designing, the fundamentals of technical training, are made a great deal of at Munich. "In Germany they have trade schools for every trade," said the doctor, as he cited schools for tailors and chimneysweeps. 'As I understand it, the system ad

cated schools for tailors and chim-neysweeps.

"In most of the states of Germany they have a law by which the local board in charge of trade schools can compel manufacturers to send their apprentices to attend the trade schools from 6 to 10 hours per week. In Munich that law is enforced. Everyone must attend after the compulsory period, a continuation school, in order to gradu-ate.

end these classes, sessions of which tre held on Sundays. This work began in the Sunday schools, but attendance at rade schools on Sunday is voluntary. Schools were also provided for jour-seymen and master workmen. Only master workmen could be employ Schools to be attended by men out

Schools to be attended by men out of employment were also provided.

"Under their system there is no such thing as unskilled labor as we know it." declared the Superintendent. "Germany is a most highly organized country. There is compulsory military training, and each man is indexed."

Dr. Seath found no feeling against England. A large manufacturer told him it was being worked up by military men who wanted something to do.

"In Germany the son follows his father's trade. They haven't the same means of rising as we have in Canada or in the United States," continued Dr. Seath.

"Munich is exceptional in that it is a city of small industries, and that is how trade schools are so, well, developed, developed, and so, well developed.

"Munich is exceptional in that it is a city of small industries, and that is how trade schools are so well developed. Pretty generally in Germany, France, Switzerland and England manual training is featured. This trains a pupil for

adaptation to some employment."

Berne's trade school was not popular as the pupils competed with tradesmen and took contracts.

At Aix-la-Chapelle manufacturers over-

loaded with orders turned some of them over to the textile trade schools to be

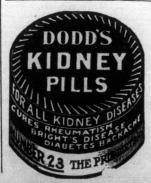

Night trade schools were more popular

MORKERSHANDSAVED Mr. Wm. Burdett, of 198 Simcoe St., East, Hamilton, Ont., is employed at the works of the Canadian Westinghouse Co. He says :- "A heavy mould was being rolled over when it caught my hand. The result was a terrible crush, and by next morning my hand was black, and so stiffened, swollen and painful I could not use it. We applied liniment, and bandaged it, thinking it would soon be all right again-but it wasn't! For some time it showed no sign of getting better but on the contrary looked like turning to a very ugly injury. "My wife persuaded me that Zam-Buk would do me more

good than anything else, and I began to try it. Zam.Buk seemed to penetrate to the very core of the injured muscles and ligaments, taking healing and ease with it. It soothed the pain, reduced the swelling, and removed the dis-coloration. In a week's time it had so acted on the injury that the hand was nearly normal again and I could go to work once more. It is now quite cured."

HIS WIFE CURED OF DISFIGURING ECZEMA!

The above case is only one instance of the benefit which the Burdett family has reaped from Zam-Buk. Mr. Burdett's wife owes her cure of exzema to the same healing balm. She says: "The disease broke out on my face in the form of red pimples and blotches which itched terribly, and when rubbed, burned and smarted very much. The pustules then spread and formed sores. These were at times very painful, they itched until I could hardly bear, and when touched turned sore. I tried various things, one after another, as they were recommended to me, but seemed unable to get any relief. Ordinary ointments and salves were quite unequal to my case.

Then I tried Zam-Buk although at the time I hardly thought it could cure me. I thought it was just an ordinary balm. To my delight I was soon convinced otherwise. A few applications gave me considerable case, and the burning, smarting pains grew less acute. As I persevered with the treatment the patches grew less in extent and the sores ceased to be so painful. In a week's time the eczema was well under control and healing splendidly, and to-day I am free from it entirely. Zam-Buk has effected a permanent cure, I feel sure, and I am very grateful for it." TRIAL BOX coupon and lc. stamp to Zam-Buk Co., Toronto, and we will send you

ZAM-BUK FOR CHILDREN'S HURTS.

Mrs. Burdett has a word to say on the value of Zam-Buk as a balm for the delicate and tender skin of children. Every mother should note this. She say "Zam-Buk is especially useful where there are children. It seems to heal the cuts and wounds and scratches in wonderful form. Almost as soon as applied, it ends the pain and smarting and gives the little ones ease. I would not like to be without it in the house."

WHAT ZAM-BUK IS AND WHAT IT CURES.

Zam-Buk is a balm composed entirely of healing herbal essences. It is free from the rancid animal fats and poisonous mineral substances found in ordinary salves and ointments. Unlike these it nover goes rancid, never stains, but is always sweet, pure and fresh. It cures cuts, burns and scalds; heals ulcers, abscesses, poisoned wounds, chapped hands, frost bite, cold sores, etc. Rubbed on to the chest in cases of cold it ends the feeling of tightness and aching. It is also a cure for piles. All stores and druggists sell at 50e a box or from Zam-Buk Co., Toronto, for price,

BEVERLY S. S. CONVENTION.

Successful Meetings Held at Copetown Last Night.

The nineteenth annual convention of the Beverly Sunday School Association was held in the Methodist Church, Copetown, on Thursday, Oct. 28, afternoon and evening. In the afternoon Martin C. Nichol, Vice-President, presided, and in the evening Wm. Head, President, Rev. A. Bowers conducted devotional exercises. Geo. Brown gave an address of welcome, which was replied to by David Bell. Thos. S. Henderson gave an address on "What Should Be the Distinctive Aim of the Sunday School Teacher." Discussion followed by M. Nichol, Wm. Head, R. McQueen, Rev. J. M. Moyer, Rev. J. W. Newberry.

C. S. Moyer gave a paper on "The Influence of the Teacher Upon the Pupil," followed by a discussion by Rev. I. M. Moyer, R. McQueen, Rev. J. W. Newberry. and evening. In the afternoon Martin

erry. Rev. Wm. Daniels addressed a mass Rev. Wm. Daniels addressed a mase meeting of children, on "What Should a Boy or a Girl Do With the Greatest Book in the World?" The President and Vice-President gave addresses on the condition of the Sunday schools in the

proved.

The evening session was opened by Rev. Mr. Newberry, after which the following officers were elected for the en-

suing year:
President, George B. Robb.
Vice-President, Ross Shaver Secretary Treasurer, David Beil.
Rev. I. H. Moyer spoke on "How to
Train Children in the Correct Principles
of Christian Giving."

Rev. A. J. Johnson, of Galt, ddress on "The Value of the Address on "The Value of the Sunary, School in Character Building."

address on "The Value of the Sunday School in Character Building."

The speeches delivered and papers read were excellent in character and very helpful to the workers and their friends. A spirit of unity was manifested, and a deep feeling for good pervaded the meeting.

It was moved, seconded and unanimously carried that the Beverly Sunday School Association contribute annually at least \$8\$ to the funds of the Ontario Sunday School Association, and also that each Sunday school in the township be requested to take up a collection once a year in behalf of the same fund. The solo by Miss McCormack was much appreciated.

Geo. B. Robb, President-elect, was introduced, and made a short speech. A hearty vote of thanks was given to all who took part, especially to Rev. Mr. Johnston, who so ably assisted, and the Copetown friends, for their hospitality, and the choir, for furnishing excellent music.

De Vilbiss Atomizers.

The most satisfactory used in the treatment of sore throat and catarrh. We carry a complete stock, guarantee every atomizer, and will repair or replace all defective bulbs or instruments. They will spray oil or water, and cost no more than the ordinary atomizers, Gerrie's drug store, 32 James street north.
