Good taste is a true economist. It may be practial on small means, and sweeten the lot of labor as well as of ease. It is all the more enjoyed indeed when associated with industry and the preformance of dute. Even the lot of of poverty is elevated by taste. It exhibits itself in the economies of the household; it gives brightness and grace to the humblest dwelling; it produces refinement, it engenders good will, and creates an atmosphere of cheerfulness. Thus good taste, associated with kindiness, sympathy, and intelligence, may elevate and even the lowest let.

One night in the winter of 1884-5, whether the latter part of December or the first snowfall, Smith called at the house. He subsequently went to the village of Langton, and returned with a bottle, which he said contained medicine. He asked Missing herself on the stairs commenced crying. MARY JAME COLVILLE. The postestablished the fact that was all that remained of a once beautiful girl, as gay as the gayest in life, but murdered as foully as any victim of man's ruthless villainy in this world. Lying alongside the unturfed and unmonumented lifeless clay were a cap and a shawl, which had been worn by the victim, and she was well, not to say richly, dressed. By the clothing the remains were recognized as those of Mary Jane Colville, daughter of a

respectable resident of Caledonia.

The post-mortem revealed further that the woman had been dead some months, and that in three months would have become a mother. Suspicions of all kinds were rife at the time, but no evidence inculpating any person was procurable, and the jury returned an open verdict thath te deceased came to her death at the bands of some person or persons unknown. So the matter rested and was apparently forgotten. But fate, the fate that stalks after the taker o human life by day stalks after the taker o human life by day and by night with the motto: "Murder will

About six months after the discovery of the body the magistrates of the county of Norfolk induced the Ontario the county of Norfolk induced the Ontario Government to offer a reward of \$250 for the discovery of the murderer, but they did not send up an officer to investigate. Farmer Kitchen, however, never for a moment re linquished his search, and after five weary years has, it is claimed, unravelled the whole facts of the case, and a man is now awaiting his trial in Simcoe jail charged with the commission of an atrocious double crime. It is a story beginning with the old, old chapter of a beautiful girl's folly and fall; of betrayal by a conscience less secundrel; of his unfeeling attempt to cover up the consequences of his selfishmess. Commonplace, so far, you say. But where can you find the man who, after administering the drug and finding the dead body of his victim the fatal evidence of failure, will, even under the blackest midnight, drive back to the house where his inhuman work was done, load the corpse upon his shoulder, carry it downstairs into the road and, dumping it into his buggy, drive 18 miles with his ghastly burden and deposit it in an unfrequented spot, where through only a remnant of mangled humanity, six months later? We hear of no case the paralel of this, yet such in part is alleged to be the story of the beautiful girl whose poor, frail body was found by William Culver that shis, part such in part is alleged to be the story of the beautiful girl whose poor, frail body was found by William Culver that the first place to Mr. Hellmuth, of Mesers. at Hagersville of late and it was there he he is reported to have remarked that he "did not know anything about the case." Several hypotheses have been advanced as to the manner in which the girl met her death. One is that the drug administered was too strong and she died from the effects, and in order to hide his crime Smith carried her to the swamp; another waf that the "drug" was poison. Smith may be able to disprove all these statements at the trial and may be perfectly innocent of crime, but the facts tend to show that leading up to that mangled corpse, 'hiden away among the Norfolk cedars, is the evidence of a tragedy as boldly carried out as the most fantastic scheme of murder in a French tale.

The murdered girl was 20 years of age.

BLOOMSBURG'S MYSTERY.

TRACKING THE MURDERER OF MARY COLVILLE.

Corydon Smith Accused of the Crime—
The Prisoner Committed for Trial—
Farmer Kitchen's Persistent Search and Its Outcome.

Simcor, Aug. 20.—Three miles north of this staid town, which is the capital of the flourishing county of Norfolk, in the township of Townsend, is a cedar swamp. Few persons ever enter it, so dense are the troos, while rank grasses and tangled bramules grow all about. The thicket is known as "Culver's Swamp." On June 5, 1885, a son of the owner, William Culver, and a companion entered the swamp to cut some saplings and in an out-of-the-way corner stumbled upon the dead and terribly decompose debody of a young giri. When they essayed to raise the body the head dropped from the the acd dropped from the two parts and the clothing and jewelry found on the ayoung giri. When they essayed to raise the body the head dropped from the twindow, and saw Shuit. drive in towards the house, The horse looked as if it had been driven a long way and it was very tree. She went to Mary's room to hard. He way may the part to girl was missing.

The vicine of Smithh Nemes's served to corroborate the story of the girl, saw a man and the direction of the swamp in order to drive 18 miles. Kitchen took the man for the accused at the time, hence the fault to see the condition that he was the guilty party.

At the trial, before Marytante Kitchen, the evidence as outlined above was given. The warrant charges Cardinal Smith with laving, on or before Jan. 4. 1885, feloniously murdered Mary Jane Colville. The prisoner substitute of the swamp to cut some saplings and in an out-of-the-way corner stumbled upon the dead and terribly decompose to the swamp to cut some saplings and in an out-of-the-way corner stumbled to shake her evidence in the alightest degree. Some years ago he was a candy butcher on the Grand Trunk loop line and butcher on the Grand Trunk loop line and resided at St. Thomas, where he was accused of conducting a disreputable house and was run out of the city. Subsequently he conducted a similar establishment near Ti'sonburg and was fined several times. Afterwards he came to Norfolk and conducted houses of ill-fame in various places, including the one in which Mary Colville is supposed to have met her death. One house became such a nuisance that it was set on fire by indignant neighbors and burned to the ground. Smith was afterwards arrested for criminally assaulting his own daughter and was sentenced to the lash, receiving the pursial-ment in Cayuga jail.

THE BURCHELL CASE.

Array of Legal Talent-The Defence Con WOODSTOCK, Aug. 20.—As the time approaches for the trial of J. Rex Burchell for the murder of Frederick C. Benwell the interest in the case grows keener. There can be no doubt that, great as was the place in the public attention gained by this affair on the first publication of the circumstances and the preliminary trial, it was nothing com-pared with what it will be before the trial is
