

Had Chronic Indigestion Thought She Would Die.

After Years of Suffering Attributes Cure to Dr. Chase's Kidney-Liver Pills.

Eating too much or using foods that do not agree are the usual causes of indigestion. The trouble usually begins not in the stomach, but in the liver, since it devolves on this organ to filter the excess waste matter from the system. Now, since Dr. Chase's Kidney-Liver Pills are the greatest of liver regulators, it naturally follows that they are unexcelled as a cure for chronic indigestion. With the liver, kidneys and bowels active the poisonous waste matter is quickly removed from the system and there is nothing to interfere with the natural and healthful working of the organs of digestion. In this way only can lasting cure be effected. Mrs. Rebecca Elliott, Magnetawan, Ont., writes:—"I feel it my duty to write you in regard to Dr. Chase's Kidney-Liver Pills. I had gastritis of the stomach for three years, and could get nothing to stop it until I

tried Dr. Chase's Kidney-Liver Pills. I would have an attack of this trouble with my stomach every three or four weeks, and was so bad at times that my friends thought I would surely die. Thanks to these pills, I have not had an attack for six months, and believe that the cure is thorough. My husband has had very satisfactory experience with Dr. Chase's Nerve Food. He was much run down, and very pale and weak. I persuaded him to use the Nerve Food, and after having taken five boxes he looks and feels real well. It is such experiences as these that have made a place for Dr. Chase's medicines in the great majority of homes. They do not fail, even in the most complicated cases. Dr. Chase's Kidney-Liver Pills, one pill a dose, 35 cents a box. Dr. Chase's Nerve Food, 50 cents a box, \$ for \$2.50. All dealers, or Edmansson, Bates & Co., Limited, Toronto.

ITALIANS WITHIN TWELVE MILES OF TRIESTE.

ROME, Nov. 4. Additional points of vantage were gained by the Italian armies on the Carso plateau, south of Gorizia to-day and to-night. General Cadorna's army is within 12 miles of Trieste. The total number of prisoners has been increased to over 8,500, 3,500 having been added to the 5,000 taken on Thursday. More guns and great quantities of arms and ammunition also fell into the hands of the Italians. Yesterday's operations alone, according to Italian estimates, cost the Austrians 15,000 in killed and captured. The 21st Austrian Regiment and several battalions are said to have been wiped out.

Continuing their offensive against the Austro-Hungarian forces in the Carso region, the Italians yesterday advanced in the direction of Vipacco River for a distance of more than one kilometre. During the day the Italians took 553 prisoners. New batteries placed by the Austrians maintained an intense barrage of fire in Gorizia throughout yesterday, says the official. The Italian official says: In the Travigno Avizle Valley our infantry carried a strong position by assault. Artillery activity has increased.

During the day we took 553 prisoners, including 11 officers, a whole battery of four-inch howitzers with more than 1,000 rounds for each gun, also machine guns, arms and ammunition, and a whole transport column complete with large quantities of material of all kinds. Paris—Castagnaviezzo, on the Carso, is virtually invested by the Italian army, says a despatch from Rome.

French forces advancing in the region of Verdun last night, occupied

A number of Germans were made prisoners. In the Somme region last night there was only intermittent artillery duels.

GERMANS FORCED TO WITHDRAW FROM FORT VAUX.

With the French Army at Verdun, Nov. 5. (From Staff Correspondent of the Associated Press.)—French patrols have penetrated far beyond Fort Vaux into lines hitherto held by the Germans, but were not able to get in touch with the former defenders. It appears probable the Germans retired their lines considerably to the rear of their artillery, their positions being untenable since the French drove them from Douaumont after silencing 50 of their batteries. Military observers point out that the Germans were forced to withdraw from Fort Vaux within eight days after Douaumont fell, whereas the French held Fort Vaux four months after the Germans had captured Douaumont. The same observers regard the German claim that they were preparing to withdraw to stronger lines before the battle of Douaumont, as untenable, unless the Germans are ready to admit their withdrawal was one of the most unsuccessful operations of the campaign, as it cost them more than 6,000 prisoners and the annihilation of twenty-two battalions. Signs that the Germans are preparing for a counter-stroke are entirely lacking.
