SIZE, STRENGTH, LIBERALITY

The Sun Life Assurance Company of Canada, with over \$340,000,000 of business in force, has all the advantages that size can bring to a life company.

With assets of over \$97,000,000 and surplus of over \$8,000,000 it has decided strength and safety.

Its policy, conditions and dividend record have earned for it an enviable reputation for liberality, while its record for fair dealing is unexcelled.

Opportunities in Long-Term Bonds

Bonds maturing in 1919 or 1920 may now be sold advantageously, and the funds reinvested in longer term securities. The benefits of present high interest yield rates may thereby be secured for a period of ten years and longer.

We shall be glad to offer suggestions.

Thanks Car Owners.

Editor Evening Telegram
Dear Sir,—Will you allow me through the medium of your paper to thank all those who throughout the summer have lent their motors each week for the pleasure of our invalid soldiers. It is not necessary to mention how much the drives were appreciated, for the soldiers themselves always showed their great appreciation and expressed their thanks. As winter is approaching the lists of drives will no longer be arranged, but we hope that on fine days all motor car owners will think of the soldiers shut in the Hospitals, and in their kindness again send their cars to take them out, and so brighten whenever possible, the monotony of their hospital life.

Yours faithfully,
ADELINE E. BROWNING.
Vigorina, October 17, 1919.

Thoughtful and Generous Act.

The management of the Royal Stores, Limited, have treated their employees with substantial increase in their salaries, which was very acceptable, owing to the tremendously high cost of living at the present time, and very highly appreciated by each and every employee. The management have ever been thoughtful of the employees, and this is only another example of their thoughtfulness and kindly generosity.

Every-One—Present-Sunday.

The George Street Church Campaign for "Everyone Present Sunday" terminated last night and reports show the Campaign is well "Over the Top," with upwards of 1000 pledged for attendance. To-morrow promises to be a great day in this church, and the attainment of this object opens the way for further church progressive measures. The Campaign Echoes given by workers last night show most interesting results from personal contact and intercourse between campaign workers and the people. Votes of thanks were passed appreciative of the catering ladies under Mesdames Nicholls and Dove, and of the Press in furthering the campaign by press notices, etc. The Pastor indicated that he would have something to say on Sunday in further reference to the result of the Campaign.

Supreme Court.

In the Supreme Court before Mr. Justice Johnston an important suit is being heard.

W. A. Munn, vs. George Mawes, an agent, for damages through non-acceptance of 5,200 qts. of fish alleged to have been sold to him. Mr. Harry Winter, plaintiff's counsel and Mr. L. Emerson, is for the defendant.

The decision will be watched by the trade with interest.

New Wholesale Engineering Co.

It will be of interest to the Industrial Community, and the trade generally that the firm of William Heap & Co. of Liverpool, England has opened a Branch office here. Messrs. Heap & Co. are an old established firm of Engineers and Metal Merchants with connections in Europe and America, and in close touch with the producers of Iron, Steel and Engineering materials throughout the world. Capt. H. H. A. Ross late of the Royal Newfoundland Regiment with offices in Renouf Building has been appointed local Manager. The local Branch together with another Branch in Halifax, Nova Scotia, will be under the supervision of Mr. F. W. Angel as Consulting Engineer.

Sour Milk.

During the hot weather we think anxiously of the milk. People are always giving you ways and means of keeping milk sweet, but they seldom give you a use for milk when it has gone sour.

Yet there are uses even for sour milk. In France milk is actually set aside to go sour for lots of culinary uses, such as rolls, milk soups, and junkets; and for people who are dyspeptic sour milk is actually better than fresh! Of course, it should be made palatable by salt or sugar, according to preference. It is quite good sprinkled with castor-sugar and cinnamon.

For anyone with poultry sour milk is a good thing. Hens just love it mixed with their food, and it has a splendid effect both on their health and their eggs. Then, as a polish for leather goods, sour milk cannot be beaten, and especially for patent leather boots. Get a chamois leather to rub with, and the result will be a joyful surprise.
