On 'Change. [Special to C. E. Turner, broker, Masonic Temple, from Kennett, Hopkins

Company.
Chicago, May 4—The market has been a puzzle for the past fortnight to everybody except to such as are convinced that it never would have sold under a dollar but for the

sistent bulls when other houses were bearish around 55c, and predicting 50c.

Market letters were so uniformly bullish as to attract considerable ridicule. Now that the market has advanced 10c the aforesaid houses are pumping their customers full of 75-cent predictions, and customers of K., H. Co. are inclined to complain that we hestitate to climb into the band wagon and follow the crowd. We can't help feeling that these eleventh hour prophets may possibly be as unsafe guides as they were around 55c. While aiming to give our customers the promptness and fullest information of any house in the trade, we want formation of any house in the trade, we want them all to exercise the great American privilege of doing as they please in regard to

their trades.

Corn and oats have been sustained by the continued heavy shipments of corn and pre-dictions of lighter receipts. The immediate situation had more weight with the trade than situation had more weight with the trade than far off crop conditions. There is a growing belief that stocks of corn are light in the country, and that much higher prices will be seen in consequence of the expected scarcity, but the idea is new and the alleged scarcity is yet to be established. The market would doubtless buil if receipts should fall off materially, and the shipping demand continues as good as at present. It should be sold only on sharp bulges and on the breaks. It may be a purchase for the present.

Provisions—The market has been weak, as indicated in our letters recently. There is too much stuff in sight. The demand for consumption is not as good as wished, and hogs are

—Several exciting runaways occurred on the market late on Saturday afternoon within a few minutes of one another. The horse attached to Sloan's delivery wagon ran off with Mr. Robert Sloan. In crossing the square the horse became detached and the wagon disabled, but in the excitement Mr. Sloan, although an elderly man, managed to alight on his feet and was uninjured. Shortly afterwards a horse entangled in the shade trees exposed for sale on the west side, where it was caught. The third runaway came near causing a serious accident. It knocked a lady down and the wheels passed over her body. The rig was light, otherwise the affair might have had a fatal termination. The injured woman was assisted to a near-by hotel and

WITHOUT A PASTOR. At Adelaide Street Baptist Church vesterday the pulpit was filled by Mr. McFarlan, a promising young student from Woodstock College, who preached acceptably. At the close of the morning service the members of the church were asked to remain, when a very brief note from Rev. D. M. Mihell was read, stating that he had definitely decided to sever his connection with Adelaide Street Church. Two weeks ago yesterday the reverend gentleman quite unexpectedly (to most of the congregation) tendered his resignation of the pastorate, to take effect at once. A business meeting was held the next Wednesday, when, by a considerable majority, Mr. Mihell was asked to withdraw his resignation. The pastor was not prepared to give a definite answer at once, but asked for a week's time to consider. This proposition was readily agreed When the week had expired, Mr. Mihell was not ready to reply, and the church requested that he give a definite answer by next Wednesday. The answer came on Sunday morning as stated. Rev. Mr. Mihell's reasons for resigning have not

been made public.

A BICYCLE STOLEN. A valuable Whitworth bicycle played a very prominent part in the preliminary hearing of Fred J. Grant at the court house on Saturday afternoon. Grant is a young man, living in Delaware township, and he is alleged to have stolen the bicycle from Johnston & Bodkin's store in Delaware village on Saturday night, Jan. 2. When Norman Bodkin locked the store on that evening the wheel was there, but the following day the door was found unlocked and the wheel gone. No trace of it was found until April 20, when Grant rode up to Bodkin's on the wheel. Grant claimed to have bought the bicycle from a man in London, and produced a receipt for \$61, signed "Nelson Beaugner." Bodkin recognized the wheel at once, but an examination showed that the original number, 4,935, had been destroyed and another numpublishing his wife's novels. — New ber, 7,121, stamped on instead. Grant York World, April 14. The late Mr. at a later date brought the wheel to Maxwell was a cousin of London's Bodkin's shop and left it, and further inquiries showed that no wheel numbered 7.121 had been issued by the Whitworth company. A few days ago the accused showed the receipt to High Constable Schram, and Grant unsuspectingly wrote a copy of it. The writing was very similar. It was also shown at the hearing that Grant admitted writing the first receipt, and also blamed the theft on George and Alex. Graham, of Caradoc. Grant was committed for trial. Mr. Magee acted there on Friday night, and writes a for the Crown. Mr. J. M. McEvoy look-stinging denunciation of it for the ed after the prisoner's interests, and Squire Lacey presided.

HEART-BEATS.

The Reason Why the Heart Flutters, Palpitates and is Oppressed,

and How to Relieve It.

The heart has a hard old time of it. and within itself does not excite much disease, but is very often called upon to display the troubling symptoms of palpitation, fluttering, labored breathing, oppression, etc., on account of diseased Kidneys offering increased resistance to the passage of the blood through their defective secretive structures, causing a morbid change in the blood unsuited to nourish the tissues and noxious to them. The minute arteres resist the passage of this foul blood. resulting in the muscular walls of the arteries and the ventricles of the heart becoming partially paralyzed, and from this cause results much of the so-called heart disease, which is owing to wasting Kidneys not being able to perform their functions. In order to relieve heart trouble remove the cause in the Kidneys with Chase's Kidney-Liver Pills. They relieve the blood of poisonous deposits, it goes on its way a stream of health, relieving the heart and imparting strength to every tissue of the body. When your heart is in trouble Chase's Pills quickly remove the causing condition, no matter whether it exists on account of disorder of the kidneys, liver, stomach, or of nervous affection.
