MEN'S MISSION. A week's mission to men was begun last night at St. Peter's Cathedral by Rev. Father O'Bryan, president of Loyola College, Montreal, a divine of distinguished abilities as a scholar and preacher. In his sermon he considered what most interferes with man's hap piness, and his treatment of the question was convincing and helpful. The reverend father held the close atten tion of his audience, composed entirely of men, who completely filled the cathedral. He will undoubtedly accomplish much good during his mission here.

A TERRIFIC RAINSTORM. During the progress of a heavy electrical storm, which started shortly after 9 o'clock last night, rain fell in such quantities as to make probable a supposition that a cloudburst had occurred. A portion of the down-town section suffered most severely from the downpour. The gulley-holes on Dundas street from Richmond to Clarence street became choked from the mass of water and debris pouring into them, and the water, finding no outlet, backed up on the sidewalk on the north side of the street. Most of the store cellars from Richmond street to the center of the block were flooded. Firemen from the central hall rendered splendid service in locating gulley-holes and removing the choking debris, but not before the water had done a great amount of damage in the cellars, mounting to several hundred dollars' worth. A belt line car was derailed on Central avenue at Colborne street. The storm washed sand in great quan-
