THE FIGHT WITH GEN. DELAREY'S FORCE.

Graphic Details of One of the Greatest Battles of the South African Campaign.

Pretoria, Oct. 10.—Details of the fight between the British troops under Col. Kekewich and 1,500 Boers under Commandants Delarey and Kemp, near Selous River, have just arrived. The British camp had evidently been carefully chosen. It lay in a triangle formed by the river on the west, a donga on the east, and the Zeerust-Rustenburg road on the south. The donga joins the river and forms the northern apex of the triangle. The banks of the river are deep and precipitous, and the country road is bushy.

During the night the Boers crept noiselessly up the river bed, and by making a débouché of the donga, obtained a partial command of the apex of the triangle and the western side.

A patrol of Yeomanry, which was sent to reconnoiter to the west, crossed the drift, but were driven back by the Boers, who were between them and the British camp. After going through the Yeomanry, the Boers attacked the pickets who were holding the river. The British officers of the name of the Chase was the first man killed. The men made a heroic and costly resistance.

The next picket to the south was defended by some of the Derbyshires, who held out until all were killed or wounded. The Scottish Horse picket, under Col. Dick-Cunningham, which was within the apex of the river and donga, fought magnificently and held their own.

All the men, the Scottish Horse and Derbyshires, Yeomanry and artillery unhesitatingly sprang into action, formed a firing line facing west, and checked the Boers, who were nearly into the British lines.

TURNED THE BOER FLANK. A portion of the Derbyshires was then sent from the south to repel an attack anticipated from the east. They wheeled right around the camp, and arrived without much opposition northeast of the point where the Boers were dug in. Here they formed in line with the Scottish Horse and thus outflanked the Boers' left. The Boers charged the river and donga with fixed bayonets, and with an irresistible rush cleared the Boers out.

Meanwhile the remaining Derbyshires on the British left and the Yeomanry made a similar rush on the river by the drift, and sent the Boers fleeing to the left of the river. At the beginning of the fight the firing was hot but it was impossible to use the British artillery, but when the Boers began to retreat the guns rendered effective work. A Maxim gun was sent forward by nine of the Derbyshires, all of whom were killed or wounded. All the men fought as they had been drilled. There were numerous instances of heroism on the part of the British officers and men. After Col. Kekewich had been hit he stood up and stood by the guns, refusing to take cover, and encouraged and directed all his men. The flank movement of the Derbyshires showed the remarkably cool direction of the fight.

SNALLPOX IN OTTAWA

It May Be Found Necessary to Close All the Schools.

Ottawa, Oct. 11.—The Ottawa schools may be closed until the snallpox is stamped out. Dr. Shaw, acting medical health officer, stated yesterday that the schools should be closed for two or three weeks, until all the children are vaccinated.

Inspector Glasham, of the public school board, says it would be a great mistake to do this, as it would increase the danger of a contagion. Six James Grant, the dean of the medical faculty in Ottawa, says there is no cause for fear, and that the disease is so mild it is no worse than chickenpox.

Toronto, Oct. 11.—Dr. Bryce states that in the first nine months of the year 1,064 cases of snallpox have been reported in Ontario. Of these 40 are not yet convalescent, chiefly in Northern Ontario and Oxford county. Dr. Bryce urged that the Dominion Government establish an institute for snallpox research that would assist in discovering means of combating the disease. The doctor pointed out that snallpox in the states is increasing in virulence, and that Ontario has to watch carefully, and to go in largely for compulsory vaccination.

MORMON LEADER DEAD. Salt Lake, Utah, Oct. 11.—Lorenzo Snow, fifth president of the Saints, better known as the Mormon Church, died unexpectedly at his private residence, the historic Bee Hive House, yesterday afternoon, after an illness that had been serious only since Wednesday. The immediate cause of his death was hypostatic congestion, superinduced by aggravated bronchitis.

President Snow's death dissolves the first presidency, of which he was the head, his two counselors being Joseph Smith and Rudger Clawson. Until his successor shall be chosen, which may not be until the annual conference next April, the leadership of the church will devolve upon the council of twelve apostles, of which body Mr. Smith is the recognized head. Unless death should come to him in the meantime, Mr. Smith will be the next president of the church. Lorenzo Snow was 77 years of age.

To make a dessert that will be easily digested, Dr. Thomas' Electric Oil will break up a cold and cure a cough, and should be resorted to at once when the first symptoms appear. It can be digested so that any unpleasant taste it may have will be imperceptible.

DO NOT DELAY.—Do not let a cold or a cough fasten upon you, as it will if neglected. Dr. Thomas' Electric Oil will break up a cold and cure a cough, and should be resorted to at once when the first symptoms appear. It can be digested so that any unpleasant taste it may have will be imperceptible.
