IF YOUR HAIR IS COMING OUT, READ THIS

Thousands of people suffer from baldness and falling hair, who, having tried nearly every advertised tonic and hair-grower without results, have resigned themselves to baldness and its attendant discomfort. And this is not hopeless; the following simple home prescription has made hair grow after years of baldness.

It will not make the hair greasy, and can be put up by any druggist. Buy: 6 ounces; Lavender de Compose, 2 ounces; Menthol Crystals, one-half drachm. If you wish it perfumed, add 1 drachm of your favorite perfume. This preparation is highly recommended by physicians and specialists and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in cheap hair tonics. Ladies should be careful not to apply too much, as hair is not destroyed.—Advt. O. 18.

ASK GOVERNMENT TO PROVIDE SHIPS FOR OCEAN TRADE

Dominion Millers Want Public-Owned Line.

TORONTO, Oct. 17.—Problems of immigration, trade, transportation, mining, milling and imperial reorganization were touched upon in the investigations of the Dominion royal commission today. The witnesses examined were Alfred D. Owens, Canadian Hamilton Wicks, British trade commissioner in Canada and Newfoundland; Prof. James Mavor, Thomas Southworth, J. B. Tyrrell, W. K. McNaught, Thomas Marshall and C. B. Watts.

The Dominion Millers' Association was represented by C. B. Watts, who favored Government-owned line of ocean-going ships, which should be used for carrying flour and other natural Canadian products from the Dominion to Great Britain. Thomas Marshall, traffic manager of the Toronto Board of Trade, also dealt with the transportation problem. He stated that the rates between Canadian ports and the motherland were the same as those applying between United States ports and Great Britain. Ocean rates even before the war were too high and he advised a thorough investigation by a Government tribunal.

Canada Buys From States.

The principal witnesses during the morning session was C. Hamilton Wicks. He dealt particularly with the United States. Ninety-four per cent of the \$250,000,000 worth of manufactures imported annually into Canada, he said, came from the United States. The British did not do the same in introducing his products as did the man from the States, who depended much on the power of salesmanship and personal touch. He advised that the Canadian Government should be divided into two divisions: First, all articles handled by retail trade; and second, machinery and similar articles used in the various processes of manufacturing.

The prosecution is also withdrawn against the hotel which drew the beer.

The board, while arriving at this view, in no way reflect on the inspector at Brantford, Richard Garrett, in fact they think he took the correct attitude in lodging the complaint.

A representative of the Ladatt firm appeared before the board and stated that he was confident that when the beer left his brewery it was under 2 1/2 per cent. He stated that the firm had manufactured this local option beer, and an endeavor will be made to get full information as to how it could be made without increasing the fermentation. The firm would abstain from selling any draught beer until it was in a position to advise the board that the beer was under 2 1/2 per cent. The representative said he would telephone home right away to stop the sale until he was prepared to fulfill what he had stated.

WOMAN KILLS SELF AND LITTLE SON; MAY BE OF ESSEX

Found Dead in Detroit Hotel—Railway Ticket May Be Clue.

DETROIT, Oct. 17.—Mrs. Bessie Adams, aged 30, shot herself and her son Harold, 5 years old, in a room at the Lafayette, 84 Lafayette boulevard west, late this afternoon. The only light on the mystery of the woman's motive is contained in a note she left for "Beile," whose identity has not yet been discovered by the police.

An interurban ticket on the Windsor, Essex and Lake Shore Railroad from Windsor to Detroit was the only clue as to her probable residence. The woman and her son came to the hotel at 7 p.m. Monday.

A transfer ticket indicates she made the trip over the Canadian line yesterday from Essex. Coroner Rothacker believes the tragedy was perpetrated at least an hour before the bodies were found. The note left by the woman speaks of a "Dr. Bennett," but none of the Detroit physicians of that name say they never heard of Mrs. Adams before.
