The Intercity league soccer game played at Springbank park between the C. N. With on hand when the teams started, and the Railroaders were the first to attack, but the Medico' defence were quite safe. The game had been in progress about twenty minutes when Hutchings, playing at inside left, opened the Railroaders account with a good goal. With a goal deficit the Medicos played better, and ten minutes later Currie, their inside right, equalized. The game now to the interval was very even, but Taylor of the C. N. Upon resuming the Railroaders attacked, and Astles increased their lead, while ten minutes later Cuthbert, who was deputizing for Thompson, added another goal for his side.

The Railroaders were more dangerous near goal, but Mair in the Medicos' goal was playing a good game. The Medicos now attacked, and Perryman running in from the right scored a great goal for his side, while at the other end Mair was repelling shots from all angles, but he was beaten again by Cuthbert, who brought the Railroaders' total up to four goals. From now to the end the game was evenly contested, but as there was no further scoring a well-contested game ended C. N. R. 4, W. Hospital 2.

should one use one putter for long putts and another for short ones! ' By BOB CRUICKSHANK.
One of America's Greatest Players.

No. I would certainly never place my belief in such an idea. Since good putting is merely the proper adjustiment of the length of the back-swing. Bus a sense of touch and distance, the more accustomed one becomes to the club he uses the better he will be in this department of the game. Swinging the same putter with the same grip, feel, length, head, lie and weight gives the player every chance in the world of becoming proficient on the greens. Good solid practice with on putter is all that is needed.
