DYNAMITE AT ROME.

Alleged Plot to Blow Up the Quirinal and Vatican.

PRINCE BISMARCK'S DIPLOMACY.

Endeavoring to Arrange a Meeting Between the Emperors of Germany, Austria and Russia.

TO DISSIPATE ALL MISUNDERSTANDINGS

And Balk French Negotiations for an Alliance with Russia—Boulangier Successful in Only Twelve Cantons—The General, Rochefort and Dillon Given Ten Days in Which to Appear Before a French Court—The Bogue Jack Ripper Released from Custody—True Bill Against Mrs. Maybrick, Charged with Poisoning Her Husband—Miscellaneous Midnight Cable Despatches.

London, July 28.

A true bill has been returned at Liverpool against Mrs. Florence Elizabeth Maybrick, the American, on the charge of having poisoned her husband, James Maybrick, who was a wealthy cotton broker of Liverpool.

Appreciated.
Mr. and Mrs. Gladstone have requested the newspapers to express their appreciation of the many gifts and congratulatory messages received by them on the occasion of their golden wedding. It would be impossible, they say, to reply to each well-wisher separately.

The Crops in Austria.
The official report of the crops in Galicia, Silesia, Bohemia and Moravia is unfavorable. In the Tyrol the crops are unusually good, while favorable reports are made of the remainder of the Alp and Karst country. Beet root is promising, but grape is in poor condition.

Alleged Dynamite Plot.
A Rome despatch says:—The Vatican and the Quirinal are doubly guarded owing to the receipt of information of a plot to blow up both with dynamite. It is rumored that the departure of the Pope will be forcibly resisted, and that Government secret police watch the exits of the Vatican.

Ten Days' Grace.
A Paris despatch says:—The time granted to Gen. Boulanger, Count Dillon and M. Rochefort to answer the summons of the Senate Court having expired, an official today publicly read before the residence a decree giving the accused 10 days in which to appear before the court. Failing in this their property will be sequestered and they will be deprived of all civic rights.

The Bogue Jack the Ripper.
William Brodie, the man who, while in a state bordering on delirium tremens stated that he had committed the murders and mutilations of women in and about the Whitechapel district, was yesterday discharged from custody, there being no evidence on which to hold him and physicians pronouncing him sane. He was immediately re-arrested, however, on a charge of fraud.

French Elections.
Elections for members of the Councils General were held throughout France today. General Boulanger contests 451 cantons. He has been successful in Bordeaux, where he polled 3,316 votes, against 2,691 for his opponent. He was defeated in Montpellier and Rouen. Returns from 350 cantons show that General Boulanger has been successful in only 12. Returns are still awaited from 903 cantons. The hopes of the Boulangists have fallen to zero.

Mitchell at Queenstown.
Mitchell, the pugilist, was interviewed at Queenstown today on arrival of the steamer on which he is passenger. He said Kilrain's defeat was due to shirking of training and to over-much confidence in his ability to beat Sullivan. Donovan said Mitchell had been right to throw up the sponge. Though Kilrain's second he was Sullivan's man. The report that Kilrain was severely punished was rubbish, as he was in better form the day after the fight than on entering the ring. Sullivan was worse disfigured than Kilrain. Mitchell denied the truth of the reports that he had had a quarrel with Kilrain, and said that he and Kilrain were good friends. He eluded the detectives by changing his routes and by disguising himself as a clergyman, a farmer and a tramp. Mitchell said he was ready to fight Sullivan anywhere.

Bismarck's Diplomacy.
A Berlin despatch says:—The greatest diplomatic triumph of Bismarck's life will be achieved if he succeeds in his latest project, which is to arrange a meeting between the Czar, Emperor Francis Joseph and Emperor William, in Berlin. News of the Czar's assent to the proposal that he should visit the German Court on August 23rd was received at the Foreign Office on Monday, causing the greatest satisfaction. Prince Bismarck immediately communicated with Count Kalnoky, calling his attention to the opportunity presented by the nearly coincident visits of the Czar and Emperor Francis Joseph, and proposing that an interview be held between the three monarchs, as well as conferences between himself, Count Kalnoky and M. De Giers, the object being to dissipate all misunderstandings. Count Kalnoky, it is stated, has placed himself in Bismarck's hands, and refuses to make any overtures to the Czar regarding a meeting with Emperor Francis Joseph. If Bismarck persuades the Czar to consent to the interview the Austrian Emperor will postpone his coming until the 18th. He will not be present when Emperor William receives the Czar, but will go to Kiel for the naval review, returning afterwards to Potsdam, where it is intended the Emperors shall meet. The Chancellor is supposed to be aiming not at a definite treaty of alliance involving Russia in the central European league, but only to re-

establish better relations between the empires and balk French negotiations for an offensive and defensive alliance with Russia.

From East Africa.
Dr. Peters has sent a letter from East Africa to the Cologne *Gazette*, in which he accuses the English admiral, Fremantle, of seizing the Peters' expedition steamer Neera, after the expedition had landed outside the blockade limits, although the vessel had no contraband of war aboard. The Cologne *Gazette* declares that unless the Government speedily adopts decisive measures the English will completely exclude the Germans from Central Africa. Dr. Schmelzkopf, surgeon-in-chief of Capt. Wissmann's expedition, has been drowned at Zanzibar. A Zanzibar despatch says:—Capt. Wissmann offers a reward of 2,000 rupees for the capture of Chief Bushieri. There are fears for the safety of the Mpwapa missionaries. Bushieri, with his own hand, murdered an officer of the East Africa Company, named Nielsen.

On 'Change.
During the past week there was a marked revival of business on the London Stock Exchange. Stagnation disappeared, and in most departments there was a buoyant feeling. American railway securities shared the general rise, when New York selling checked the advance and caused a reaction. The tone of the Paris Bourse was languid. Panama 500f shares are now quoted at 42. Rio Tinto advanced during the week 24f. Business on the Berlin Bourse was restricted, and prices were quiet. The Frankfurt Bourse was quiet.

A Boulanger Sensation.
Gen. Boulanger will contest 135 cantons in the election for consuls general. The Paris *Cocarde* (Boulangist organ) publishes what it calls the first installment of the documents submitted to and the depositions made before the high court of the Senate which is to try Gen. Boulanger. The publication has caused a sensation. According to the publication of the *Cocarde*, Gen. Ferron, who succeeded Gen. Boulanger as Minister of War, has made a deposition, in which he states that the secret service funds were intact, and that Gen. Boulanger effected economy in many directions in the War Office.

A Sign of the Times.
The London *Daily Telegraph*, commenting on the vote on the royal grants, says that the action of the Parnellites in supporting the monarchy is one of the most notable signs of the times, and that it signifies an almost complete division between the domestic and American wings of the Irish party.

Affairs in Abyssinia.
Advices from Abyssinia say that the Abyssinian chief Debeb was recently seized by Ras Aloula on going to a conference to which the latter had invited him, and that Debeb's partisans, on finding themselves deprived of their chief, joined the forces of King Menelek.

Cable Notes.
The Municipal Council of Rome has decided to form a Pasteur institute.

The Belgian Senate has sanctioned the credit asked by the Government for the Congo railway.

The Paris police raided the office of *La Presse* today and seized a number of letters addressed to Boulanger.

It is rumored at Paris that Michael Morphy, an active Boulangist, has been arrested. The police last night searched the offices of the *Cocarde* and the residence of the editor, who was subsequently arrested.

MURDERED FOR MONEY.
Fate of one of Cincinnati's Best Known Men—His Negro Servant Confesses—The Body Found in a Sewer.

Cincinnati, July 27.—The body of Col. A. E. Jones was found this morning in a manhole not far from his home. He had been murdered and robbed. The Colonel was in his 77th year, but active as a man of 50. He had always an inclination to military life and kept it up by holding a connection with the Ohio National Guard, serving a long time as surgeon of the First Regiment. Gov. Foraker, who was his neighbor, appointed him a member of his staff as Surgeon General. He had been active in public affairs, serving often in the Municipal Council, and had besides held several offices under appointment from the General Government. He was perhaps more widely known in Cincinnati than any other citizen.

Dr. Jones left his house about 3.30 p.m. on Thursday, wearing no coat, his feet in slippers, and went in the direction of his stables. He asked what time it was, though wearing his watch. That was the last seen of him alive. The family did not become alarmed until night, and prosecuted their search quietly until yesterday, when notice was given to the police. During the day a trail of blood was discovered opposite the doctor's stable, on Cemetery street, and, being followed, was traced to Park avenue, thence south two or three squares, to the junction of Cypress street and Francis Lane, where on the grass was quite a pool of blood.

It was here in a manhole of the sewer that the body was found this morning. It was wrapped in a horse blanket, or rather sewed up, so that it was drawn out by means of a rope fastened around it by a man who had been lowered for that purpose. The body had been doubled up compactly, as if for convenience in carrying, and it appeared that the trail of blood was that which trickled from his wounds as his murderer carried him to the place where he thought the conceal for ever his crime, for he hoped the water would carry the body into the river. It was found that the doctor's gold watch and his money were gone. This must have been the motive for the murder, as the doctor had not an enemy in the world.

WRECKED BY THE WIND.

DREADFUL WORK OF A STORM IN CHICAGO.

One House Blown Over on to Another, Instantly Killing Eight and Seriously Injuring Four of the Occupants—Several Houses Struck by Lightning and the Inmates Badly Shaken Up.

Chicago, July 27.—During the height of the wind and rain storm to-night an unfinished building in process of construction at the corner of Twenty-first and Leavitt streets was blown down, completely demolishing a frame cottage that stood beside it. Eight persons were killed outright and four badly wounded.

The killed are:—Mrs. Amelia Buch, 39 years old; Annie Buch, 8 years old; Albert Buch, 6 years old; Cornelius Ferdinaches, a blacksmith 33 years old; Mrs. Areka Ferdinaches, his wife, 31 years old; Cora, Lida and Lea, their children, aged respectively 5, 3 and 1 years of age.

The wounded are:—Charles Buch, husband of Mrs. Amelia Buch; Albert Buch; Lulia Ferdinaches; Ada Ferdinaches. On Van Buren street, near Loomis, while the storm was at its height a large tree was blown down and fell upon a passing street car which was crowded with people, crushing the roof, but fortunately not injuring any one seriously. It is now learned that several houses were struck by lightning and a number of people badly shaken up and scared.

The rainfall was one of the heaviest ever known in this section of the country, and did thousands of dollars' damage in this city. The storm cloud came from the south-west, and meeting current currents of air, hovered over the city for two hours and a-half, finally passing to the north-east. The rain began about 6.30, and continued till midnight, with occasional lulls. The violence of the wind at times almost reached the fury of a tornado. In two hours and fifteen minutes there was a phenomenal fall of 4.12 inches. Basements and cellars were flooded all over the city, some to a depth of three or four feet. The water rushed down the incline into the LaSalle street tunnel until it reached a depth of over three feet in the center, completely interrupting for a time the traffic of the cable cars. The electrical disturbance was not great, and very little harm is reported from lightning. The damage caused to warehouse goods from flooded basements, as already reported, will run high up into the thousands.

HUNDREDS OF LIVES LOST.

Crops Ruined and Enormous Damage Done to Buildings.
Vienna, July 28.—A cyclone in Hungary, Transylvania and Bukovina today swept over several thousand square miles of territory. Hundred of persons were killed, the crops were destroyed and enormous damage was done to houses and churches. Several districts were completely ravaged.

New York, July 27.—The new twin screw steamer Columbia completed her maiden passage from Southampton, and arrived last evening at the Bar at Sandy Hook in quicker time than was ever made from Southampton to this port before. The Columbia's corrected time is six days, 21 hours, 37 minutes from the Needles, or six days, 23 hours, seven minutes from Southampton itself. The time is equivalent to about six days and five hours from Fastnet.

THE ROYAL NUPTIALS.

PRINCESS LOUISE OF WALES MARRIED TO THE EARL OF FIFE.

The Ceremony Takes Place in the Private Chapel of Buckingham Palace—Costumes of the Bride and Bride Maids, &c.

Special Cable to the Free Press.

London, July 27.—At noon today the young Princess Louise was married to Alexander William George Duff, Duke of Fife, in the Buckingham Palace chapel. All England took genuine interest in the marriage, and all are anxious for the young bride's welfare. The service was fully choral, and was solemnized by the Archbishop of Canterbury, assisted by the Dean of Windsor, Rev. E. Sheppard (sub-Dean of the Chapel Royal), the Bishop of London, the Rector of Sandringham, the Dean of Westminster and the Bishop of St. Albans. The musical portions of the service were admirably attended to by Dr. Bridge, of Westminster Abbey, assisted by Mr. Jekyll, organist of the Chapel Royal, St. James, and the choir of the latter royal chapel.

The Earl of Fife had as best man his cousin, Mr. Horace Farquhar. The bridesmaids were Princess Victoria of Wales, Princess Maud of Wales, Countess Fedora Gleichen, Countess Victoria Gleichen, Countess Helen Gleichen, Princess Victoria of Teck, Countess Feodora Gleichen, Countess Victoria Gleichen and Countess Helena Gleichen. The bride party then proceeded to the chapel.

The bride wore a duchesse dress of white satin, with a flowing train. It was trimmed with orange blossoms. She also wore a wreath of orange blossoms and point de gaze veil. The bridesmaids wore dresses of plush pink faille and carried bouquets of pink roses.

The clergymen officiating were the Archbishop of Canterbury, the Bishop of London, the Dean of Windsor, domestic chaplain to the Queen; Rev. F. A. Hervey, domestic chaplain to the Prince of Wales. The Prince of Wales gave away the bride. A choral service was sung by the choir of the Chapel Royal, St. James.

Many of the Ministers were present. Mr. Gladstone was also among the guests. The Queen wore a dress of black brocade. Her Majesty appeared to be in excellent health and spirits. The Princess of Wales was attired in pearl gray satin brocaded with silver. Her Royal Highness also wore a tiara of diamonds. After the benediction had been pronounced the Queen kissed the bride and cordially greeted the groom.

After the wedding there were two breakfast parties in separate chambers in Buckingham Palace. One party consisted of the bride and groom, the Queen and other royal personages and the other of guests. Toasts were given to the Queen and to the bride and groom. After the breakfast the Earl and bride, the Prince and Princess of Wales, the King of Greece, the Crown Prince of Denmark and the bridesmaids returned to Marlborough House, the bride and bridegroom occupying the first carriage. Later in the afternoon the newly-married couple departed for Sheen House, the suburban residence of the Earl of Fife, where a portion of the honeymoon is to be spent.

An arriving at Sheen House the newly-wedded pair were enthusiastically welcomed. They passed between files of Venetian masts decorated with floral festoons. The path was covered with carpet, upon which wild flowers were strewn by girls dressed in white. To-night Mortlake and Richmond, in the vicinity of the Earl of Fife's house, was illuminated. The Prince of Wales gave a reception at Marlborough House this evening which was attended by 1,000 guests.

Felt Impelled to do Something Victorious.
Kingston, Ont., July 27.—Widow Martin, who was murderously assaulted on Thursday morning, is delirious because of the ordeal she passed through. The wounds on her head are painful. Her foot was also burned as she ran to raise an alarm. "When Twitchell hit me," she said, "I thought it was with a chain. The pain after each blow was blinding." Twitchell says he has been the victim of despondency. At various times in his life his whole nature cried out to him to do something victorious. He had after such trials committed acts that led him after war to wondering consider the force that had impelled him. For the past week he had seemed to himself to be overpowered with a desire to do some desperate deed. His wishes were gratified, and it is lucky that a greater crime than that of burglary and assault with intent to kill was not laid at his door. He will remain in jail. His estimable father had been home to-night, and is almost broken hearted.

The C. P. R. Employees' Picnic.
Orangeville, Ont., July 27.—The employees of the Canadian Pacific Railway held their annual picnic here to-day. The town put on its holiday attire to welcome the visitors. As the company reduced the fares to a very nominal sum a great crowd was present. The sports were numerous and interesting.
