From THE DAILY COLONIST, August 20. BUARD OF ALDERMEN.

J. G. Brown Appointed Clerk of the Works for the Beaver Lake Improvements.

Ald. McLellan Anxious to Have the Street Paving Started This Year.

All the members of the city council were present at the meeting last night.

Walkley, King & Casey wrote that they had received and would give attention to Letters sent to the waterworks contractors by G. E. Jorgensen, the waterworks engineer, were read in regard to changes in the

work ordered on the stipulation that they mur by Mr. Jorgensen:

August 19. J. L. Raymur, Water Commissioner.

J. L. Raymur, Water Commissioner.

Sir:—I beg to report that the cofferdam in connection with the waterworks improvements at Beaver lake will be practically completed to-day. The water in the inner basin has been lowered five to six feet during the last few days and I expect the basin to be dry by tomorrow. It gives me pleasure to state that the dam shows every indication of being thoroughly impervious. I have taken very close observations as to the fall of the water in the inner basin when the outlet was closed and not the slightest leakage is noticeable.

(Sd.) G. E. JORGENSON.

ALD. Bragg had understood that corres-

ALD. BRAGG had understood that correspondence had passed between the Mayor and the Engineer since the council last met. If so he would like to hear it read.

Ald. Macmillan and Humphrey did not see how any deviation from the plans could have been allowed by Mr. Jorgensen without the council's sanction.

would be got from the water commissioner

then the council could see the stand he took and the engineer's explanation. Ald. Williams' motion was carried. The city engineer and the city assessor re-

## ALBERNI GOLD MINES.

Quartz and Hydraulic Claims Show. ing Increased Richness With

a Ton.

Julius Brethour, R. McKinley, W. Morrison, R. Thompson and George Brethour any stage. A more sportsmanlike lot of are back from Alberni, where they have players never appeared on the Tacoma been doing some development work on the Eureka gold quartz claim owned by Messrs. Brethour and McKinley. The property is situated on the Nitinat side of the divide between China creek and Nitinat river. An open cut eighteen feet deep has been run on the ledge, which lies between porphyry and The crowd was unusually large and num-slate. With the small amount of work already accomplished the showing is remarkably promising. Mr. McKinley left again for Alberni last night and will have the property thoroughly prospected. As it is only about a quarter of a mile from the Alberni wagon road the shipping of ore will not be expensive. The ore on the Eureka is very similar in character to that of the famous Golden Eagle mine. Mr. McKinley, speaking yesterday of the Alberni mining country, said that the strike made by McAllister Coleman creek is wonderfully the assays showing as high cold to the ton. as \$500 in gold to the ton.
This wonderfully rich strike is within half a mile of the salt water, Coleman creek, flowing into the Alberni canal, so that the cost of shipping will be very light and the owners will get the full benefit of the find. This

is one find in a large district that as yet has

been hardly touched by the prospector.

Another find has recently been made close to the salt water, within a few miles of Alberni.
On the surface the ledge goes \$15
to the ton, and development work
will, Mr. McKinley thinks, show a splendid vein of ore increasing in richness as depth is reached. On Mineral creek the mines are THE RIFLE.
