ESTABLISHED: Events 1898. Graphic 1907. CAMPBELLTON, NEW BRUNSWICK, FRIDAY, JUNE 18TH, 1909 PRICE: Single Copy 2 cents One Dollar Per Year.

MORE PRIZES BEING OFFERED

Citizens Generously Offering Prizes For Special Events And Purposes.

SPORTS OPEN TO ALL.

Citizens are responding generously to the request for prizes and a large number of valuable trophies will be up for competition on Dominion Day.

Besides those mentioned in the Graphic on Tuesday, Dr. Pinault and A. T. LeBlanc have contributed a valuable prize to be awarded to the lady having the most attractively decorated residence and grounds for Dominion Day.

For the parade a number of cash prizes will be awarded and those desiring to compete should get to work at once to plan their floats.

Prizes will be awarded for the best industrial float; for the most comical float and for the best floral float. A number of other prizes will also be given.

Messrs. Wm. Currie, M. P. P., and S. S. Harrison have each donated valuable gold medals for two of the events.

SPORTS OPEN TO ALL.

When the events were first talked over the committee was of the opinion that the Marathon races should be restricted to entries in the two northern counties, but at an enthusiastic meeting of the committees held Wednesday evening it seemed to be the opinion of the majority that our athletes were capable of meeting any outside runners, so at a meeting of the sports committee all events were made open to all comers.

The committee in charge of the motor boat races are completing arrangements.

The committee especially asks citizens to make their places of business and residences as attractive in appearance as possible as it is expected that a large number of visitors will be in Campbellton that day.

Citizens who have accommodations for visitors should notify the secretary, J. T. Reid of the number of rooms they have, and the number they can accommodate at meals. Already requests are being received for particulars in this respect, and as hotel accommodation is not sufficient to care for regular traffic, it is feared many will be unable to find quarters on that day unless provision is made for them.

ANOTHER BIG LUMBER DEAL

Drummonds Said to Have Option on Adams, Burns Co's, Property.

A FINE PROPERTY.

St. John, June 15.—A big timber property deal on the North Shore was currently reported yesterday. The story was that Adams, Burns & Co., of Bathurst, had disposed of their holdings in Gloucester county to American interests and the price was $250,000.

Patrick Burns, of the firm, was asked to confirm the report but he would only say that he preferred to make no statement in the absence of Mr. Adams, who was not in Bathurst at the time but would be in a few days.

The Adams-Burns property, it is said, consists of 400 square miles of timber lands, a mill and other adjuncts. The report of the sale aroused a good deal of interest when it was heard in St. John yesterday.

The option which the Drummond concern have on the Adams, Burns Co. property at Bathurst is generally placer at $300,000 and there seems to be little doubt that the will take over the property. The property has a fine water frontage and would give the mining company splendid facilities for large docks in addition to present wharves. It is believed that the present lumber business would not be interrupted, as there would be call for a large amount of rough and other lumber at the mines, and Adams, Burns & Co. have some specially fine lumber limits.

VISITORS TO PRICHARD'S LAKE

Misses Winifred Harper, Chatham; Emma Mowat, Sadie Mowat, Agnes Vair, Sophie Carr, Campbellton; J. W. Ayer, Bangor, Me.; J. A. Harris, F. C. Sutherland, Toronto; J. W. Turton, A. Page, Montreal; L. Prices range from $8.00 to $26.00.

BRUCE,
The Clothier

RUSSIANS FIRED ON BRITISH STEAMER IN RUSSIAN SEAPORT

Guardians Over-Anxious Regarding Safety of Czar and Fired Shot Which Struck the Vessel.

WOUNDED ONE SEAMAN.

Viborg, Finland, June 17.—A British steamer has been fired upon by a Russian torpedo boat for approaching too close to the bay on the Finnish coast where Emperor Nicholas and Emperor William are to meet today. The British steamer in question is the Northburg, Capt. Robertson. She was hailed and fired upon last night off Wierolahti, Island of Bjorke. The projectile from the torpedo boat pierced a steampipe and one member of the crew of the British steamer was injured. The incident shows the extreme nervousness of the Emperor even at sea.

Russian torpedo boats have been patrolling Pitvipas Bay, the rendezvous of the two Emperors and it was one of the seaguard vessels that fired on the British ship.

The German imperial yacht Hotenzollern with Emperor William on board was sighted off Viborg early this morning, the first meeting between their majesties will occur in Pitkipas Bay a secluded branch where Emperor Nicholas makes the headquarters for his summer cruises.

MR. ARCHIBALD INSPECTS I. N. R.

Reports Work Progressing Rapidly And That Line Will Be Opened This Fall.

FIRE LOSS HEAVY.

Mr. P. S. Archibald, C. E., returned to Moncton Wednesday from making an inspection of the International Railway between Shediac and St. Leonard's.

Mr. Archibald stated that the press reports of damage by forest fires in that part of the province had been considerably exaggerated as far as damage to timber lands is concerned. Altogether not more than four square miles in area has been burned over, and of this a considerable portion is second growth and of no great value. The most serious loss was to the mill property of Couillard & Goumont, just south of Upsalquitch river, 20 miles west of Campbellton. Their mill, which was also destroyed, was a new one erected last year at a cost of $16,000 and houses erected for their workmen were also burned. The total loss is $40,000 with no insurance. 100 men are thrown out of employment, but it is stated the firm will immediately rebuild, as only a small part of their timber limits was damaged by the forest fire. Three cars on the mill siding, loaded with shingles were burned with contents. One car belonged to the Intercolonial and the other two to the Integnational. There has been a rainfall of three inches in the district since last Saturday and no further damage is anticipated.

Referring to the International, Mr. Archibald said that upwards of 1,200 men are now employed on construction between Campbellton and St. Leonard's. 85 miles of the line is graded, track is laid on 61 miles and about 55 miles is fully completed. It is expected the whole line will be fully completed by the 1st October. It is a first class road in every respect, and running through a heavily timbered country, a large traffic is looked for almost immediately on completion. This line connects with the Intercolonial at the Campbellton end and with the Grand Trunk Pacific and Canadian Pacific and Bangor and Aroostook at the other.

SECRET WORK OF THE BRITISH NAVY

Great Fleet Gathered For Manoeuvres—350 Ships on Hand to Take Part

A GRAND SPECTACLE.

London, June 17.—The mobilization of the British fleet for the annual manoeuvres was practically completed this morning and something like 350 warships are now making their way to the respective stations. The manoeuvres will be secret but the general scheme is understood to be a repition of the plan of last year, which resulted in a fiasco, as owing to the fog the opposing fleets never came into contact. Vice-Admiral Sir William Henry May is in supreme

MOUNTAIN BROOK.

A very happy and peaceful family has been suddenly afflicted last Monday evening when at a quarter to nine o'clock a pitiful event occurred at the home of Mr. and Mrs George W. McIntyre. The always dreaded Angel of Death silently creeping into their midst made his way to the bed of Mrs McIntyre, tore her away from the loving family and ravished her from her happy home where she had spent eight blissful years of married life, surrounded by loving parents and friends and a devoted husband. Deceased, who was sick but eleven days, was in her twenty-fifth year and had led an exemplary life. By her loving disposition she had won the friendship of a large circle of friends, and her unexpected death has cast a gloom over all the surrounding places where she was so respectfully known.

She was the daughter of Mr. John Levesque of this place, and besides an inconsolable husband, she leaves a father, a sister, several brothers and four children, the youngest of whom is twelve days old.

Interment took place in the R. C. cemetery, Charlo, yesterday morning in the midst of numerous relatives and friends.

LOGGIEVILLE LAD FATALLY INJURED

John Savoy Run Over By Heavy Team Loaded With Salt.

DIED FROM INJURIES.

Loggieville, June 17.—A fatal accident occurred yesterday at 5.15 p. m. when the three year old son of John Savoy was run over and killed by a team loaded with salt, owned by Ronald Godfrey. The little fellow with a number of smal boys was enjoying a drive when he fell from the wagon, the wheels passing over his body and killing him instantly.

His remains were removed to Robert Russel's undertaking establishment.

The funeral will take place Friday afternoon.

Much sympathy is felt for the parents in their sad bereavement.

BLACK CAPE.

Forest fires which have been burning on the fourth range for the past week have done considerable damage. J. H. Starratt's mill of that place being destroyed and valuable forest owned by a number of our citizens has been completely wiped out, which will be a heavy loss to them.

We also learn that fire has been burning in Musselyville and St. Alphonse de Caplin for the last week doing great damage there.

Messrs Addison McNair and Herman Powell left last week for down the coast to work for the New Canadian Co.

Mr. George C. Christie is spending a few days in Black Cape with relatives and friends. He informs us that work on the Atlantic, Quebec and Western Railway is progressing favorably.

We are glad to state that scarlet fever has so far escaped this community and Little Cascapedia and New Richmond are from the disease.

The welcome rain has come for which the farmers have been anxiously waiting for.

WATER WILL BE OFF.

The water will be off the whole town on Sunday morning, the 20th inst from 4 a. m. to 7 a. m. to make connections.

D. T. BLACK,
Town Engineer.

CONTRACT AWARDED FOR GLOUCESTER R. R.

Wheaton Bros. Will Build Line From Drummond Mines to I. C. R.

TO RUSH WORK.

Fredericton, June 17. — Wheaton Bros. of Pollet N. S. have been awarded the contract for the construction of a railway from the Drummond Mines in Gloucester county to Bathurst where smelters and shipping facilities will be constructed. This road will be upwards of 16 miles in length and Wheaton Bros. already have a good sized crew on the work. Wheaton Bros have had a sub-contract on the G. T. P. under the Toronto Construction Company near Stanley. They find excellent progress on the G. T. P., and expect to push the work on the Drummond line as rapidly as possible.

Mitchell and Sutherland Bros., another Nova Scotia firm have completed their subcontract on the G. T. P. under the Toronto Construction Co. and have accepted a contract on the Drummond line.

WELCOME RAIN.

Rain commenced to fall at an early hour this morning and a steady down pour continued until after two o'clock. This rain has done an immense amount of good.

DOCTOR ADVISED OPERATION

Cured by Lydia E. Pinkham's Vegetable Compound

Canifton, Ont.—"I had been a great sufferer for five years. One doctor told me it was ulcers of the uterus, and another told me it was a fibroid tumor. No one knows what I suffered. I would always be worse at certain periods, and never was regular, and the bearing-down pains were terrible. I was very ill in bed, and the doctor told me I would have to have an operation, and that I might die during the operation. I wrote to my sister about it and she advised me to take Lydia E. Pinkham's Vegetable Compound. Through personal experience I have found it the best medicine in the world for female troubles, for it has cured me, and I did not have to have the operation after all. The Compound also helped me while passing through Change of Life."—Mrs. LETTIA BLAIR, Canifton, Ontario.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has proved to be the most successful remedy for curing the worst forms of female ills, including displacements, inflammation, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, and nervous prostration. It costs but a trifle to try it, and the result has been worth millions to suffering women.

NO DATE SET FOR CONVENTION

Conservatives ... at Variance As to Who Should Handle the Patronage.

CANNOT AGREE.

A few weeks ago the Tribune announced the Restigouche Conservatives would be called together in convention shortly to choose candidates for the local legislature at the next general election (and thus settle the question of who was to handle the patronage of the county).

Considerable time has elapsed but yet no convention has been called, and none is likely to be called for some time, or, until peace can be restored in the ranks. At present there is no scarcity of aspirants and many factions are secretly working for their favorite man.

Sheriff Stewart's friends, although admitting that he has been generous to himself and friends in dispensing patronage, are confident that he is the only man the party has who would have any show of being successful and openly state that he is the one

But unfortunately the party is not to read the party on to victory unanimous or even nearly so, as there are two or more men whose friends are anxious for them to win their spurs, even though it would not ensure success at the next election.

Hon. J. K. Flemming during his visit in the county will no doubt endeavor to call the party together and endeavor to straighten matters out.

WILL SERVE DINNER.

The ladies of the Baptist Church are making arrangements to serve dinner and lunches in the vestry of the church on Dominion Day. A committee will also have booths immediately in front of the church building for the sale of ice cream, strawberries, etc.

REV. M'CULLY NOW PRESIDENT

Chosen Head of Methodist Conference on First Ballot On Wednesday.

SACKVILLE THE NEXT PLACE.

Woodstock, June 16.—This morning the Methodist conference met at 9 o'clock in the Methodist church. L. H. Jewett, of Waterville, this county, who graduated from Mount Allison this year is the only man to be ordained at this conference. The ordination ceremony will take place at 11 a. m. Sunday. The election of officers took place this morning and resulted as follows on the first ballot: President, Rev. A. D. McCully; secretary, Rev. Matthew R. Knight.

There was a large attendance of delegates at the opening of the conference this afternoon. Sixty clergymen were present, at 4 o'clock the conference adjourned to allow the committee to work. There will be a public meeting tonight, and the conference will resume business at 10 o'clock tomorrow morning. The following is the result of the afternoon's work:

The minutes of last meeting were read and approved, necessary secretaries appointed. The reports by districts on the death of clergymen during the year were read. There were no deaths in Fredericton, Woodstock, Sackville, Chatham, Charlottetown or Summerside districts. Rev. Mr. Crisp reported the death of Rev. Mr. Pickles of St. John district.

An invitation received from the quarterly board of Sackville inviting the conference to hold the convention there next year, was signed by Senator Wood and others. It was voted that the invitation be accepted with thanks. Sackville seems to be popular with the people and great preparations are being made by the board in reference to the Wesleyan. He said it was a good place and devoted considerable space to the doings of the denomination. He was thankful for the kind words said about him in the past, and he asked that an effort be made to increase the circulation of the paper, by getting new subscribers. The Nova Scotia and New Brunswick conferences decided and fixed the rates for the work of the denomination. The Nova Scotia conference decided that the rates were more than the other conferences in this province. The following ministers were appointed chairmen of districts: Fredericton, Rev. Dr. Johnson; Woodstock, Rev. Dr. Flanders; St. John, Rev. Dr. Lathern; Moncton, Rev. Dr. Steele; Sackville, Rev. Dr. Allison; Chatham, Rev. Dr. Morrison; Charlottetown, Rev. Dr. Simpson; Summerside, Rev. Dr. Lockhart. Rev. Dr. Johnson then addressed the conference in reference to the Wesleyan.

"I wish that I had bought Amatite Roofing It needs no Painting."

WHY should you buy a roofing that needs to be *painted* every little while to keep it tight, when, for the same money or less, you can buy Amatite which needs no painting?

Amatite is waterproofed with Coal Tar Pitch,—the *greatest waterproofing material known.* Water can't get through it. It gives the kind of protection that only the ideal roof can give.

The outer surface is composed of *real mineral matter,* which makes painting unnecessary.

Can you imagine a better combination for a good, serviceable, economical roofing than *coal tar pitch* and a *real mineral wearing surface?*

With an Amatite Roof on your buildings you *end* your roofing troubles. When you buy a roofing that requires frequent painting you *begin* them.

Smooth surfaced roofings that require painting are a nuisance and an expense. When you buy them, you buy trouble—not protection.

FREE SAMPLE

We should like to send you a sample of Amatite so that you can look it over. We know that anyone who will examine the proposition will buy Amatite ten times out of ten. We should be glad to send you this sample and booklet immediately.
