NEW YORK STORM-BOUND.
DEATH LURKS EVERYWHERE.

THE PEARL OF THE PACIFIC.
John Bull Looking With Longing Eyes Toward Hawaii.

LONDON, Jan. 25.—The very best authority for stating that, even before the death of King Kalakaua, England was preparing to secure the transfer to herself of the Hawaiian Islands, is the fact that the British Government has already taken steps to secure the Hawaiian Islands. The British are anxious to have control of the Hawaiian Islands, which are one of the finest in the world and which the present treaty gives to the United States. The British Foreign Office has, it is said, received representations from Hawaii, and there is a strong feeling there, especially since the passage of the McKinley bill, which deprives Hawaii of the sugar exporting monopoly, in favor of transferring to Canada the existing treaty arrangements with America, and that there is a powerful faction in the islands that wishes to annul the treaty at once, on the ground that the sugar importing privileges have been virtually abolished by the act of the American Congress. His death has crossed a feeling of satisfaction in England, and the efforts to get possession of the Pearl of the Pacific are being made with greater vigor than ever.

The reply he gave to the effect not to make a fool of himself through the telephone. There was blood in the "Colonial" eye-thing.

The "Colonial" further informed Peter that he held the Government in his hand, and that he would give up the office if he did not come to him.
