CLEARING OFF THE SNOW.

Commissioner Jones Has a Large Gang of Men and Numerous Carts At Work—City Hall Notes.

The energetic Street Commissioner Jones did good work yesterday in clearing the snow off the streets. He had 100 carts and 175 men at work and succeeded in clearing King-street from Sherbourne-street to Simcoe-street and Yonge-street from King-street to Maitland-street. The Commissioner will have another big gang at work to-day.

The Parks and Gardens Committee will tackle the estimates this afternoon.

The Board of Works has been called for Friday to discuss waterworks matters.

Assessment Commissioner Maughan will hold his court of revision on Friday next for the purpose of striking off and adding names to the voters' lists.

A number of the aldermen are talking of having a special committee appointed for the purpose of ascertaining how many aldermen are interested directly or indirectly in furnishing supplies of any kind to the city.

Chief Ardagh's alleged bad break to R. L. Fraser was talked about yesterday at the City Hall. A number of the aldermen expressed themselves strongly in favor of having an investigation made of Mr. Fraser's charges. They will object to the Fire and Light Committee whitewashing the chief if he deserves censure, on the ground that a private citizen has a perfect right to criticize public officials.

The High School Board will confer with the Salaries Committee this afternoon. Ald. Thompson will not be present. He will attend the opening of Parliament as the representative of Spain and the Netherlands. His wished to have the meeting postponed, but as the other aldermen are not chevaliers and do not wish to attend the opening, they refused Ald. Thompson's request.

The Court of Revision met yesterday and transacted some minor business.

LICENSE TRANSFERS.

An Important Meeting of the Commissioners Yesterday.

Permits to sell liquor were much talked about at yesterday's meeting of the License Commissioners. There were present Commissioners John L. Flett, Thomas Thompson and Thomas Flynn. Mr. Flett was re-elected chairman of the Board.

Terence Cunerty's proposed transfer of his shop license from 666 Queen-street west to a building next to the Euclid-avenue Methodist Church was the principal object of the Board's deliberations. Deputations from the Euclid-avenue and Tecumseth-street Churches, headed by Rev. A. M. Phillips and Dr. Watson, were present to enter their protest against the change. The board will deliberate further before they announce their decision.

Mrs. M. Munn is going to give up her store at Lippincott and Ulster-streets, and W. J. Kelleher and Thomas Taylor are both applying for the license. In this case also no determination was made.

When E. A. Wilkinson bought out F. P. Brazill's business at 152 King-street east he signed an agreement giving Mr. Brazill the right to take possession of the stock if payment was not made. Mr. Wilkinson made default and Mr. Brazill took possession and yesterday asked for a transfer of the license. This was opposed by other creditors, who are now endeavoring to have the agreement set aside by the courts. The commissioners decided to do nothing at present.

These transfers of licenses were granted: Gianelli & Co.'s shop license, 16 King-street west, to J. D. Oliver; J. Laughrin's, 273 Church-street, to Thomas Tracy; W. R. Kindrey (Ayondale Hotel) to Philip H. Brown and W. J. Kelleher's, 926 Bloor-street west, to Michael Ryan.

North Toronto.

An event of considerable interest to this locality was the marriage of Mr. William H. Harvey, proprietor of the refreshment room at the Metropolitan Street Railway Station, to Miss Edith Marshall, eldest daughter of Mr. James Marshall of Cauningston, Ont. The evening prior to the wedding Miss Marshall was waited on by Rev. Mr. Totten, William McPherson, superintendent of the Sunday school, T. R. Valentyne, choir leader, and Mr. F. Brandon, who presented her with a silver set in recognition of her services as organist for five years in the Methodist church. The ceremony was performed by Rev. Mr. Totten. Miss Maggie Marshall acted as bridesmaid and Mr. W. Craig as groomsman.

Notwithstanding the heavy storm of Monday the Metropolitan Street Railway Company are to be congratulated on the successful manner in which they coped with it. All cars ran up to 10.30 p.m., with very little delay.

Must Have the Association Badge.

When the County of York Constables' Association obtained permission from the Street Railway Company for a limited number of constables to ride free on the street cars they had to be active members of the association and wear the association badge, in addition to the county constables' badge. The association badge is a small shield marked C.Y.C.A. and numbered. It has been stated that some constables say that they are county constables and obtain a free ride, which they are not entitled to, as they have only a county constables' badge. The association intends to make an example of anyone caught attempting to ride free without an association badge.

Call and Get Your Photo.

At the Police Court yesterday the Magistrate dismissed the case against Affholder and Cousins, charged with fraud in connection with the business of soliciting orders for enlarged photographs. The Magistrate stated that he believed the original tea company was guilty of fraud, but he did not consider the evidence connecting Affholder and Cousins with the tea company sufficiently strong to warrant a conviction. The photographs, about 2000 in number, were ordered to be returned to their respective owners on proper proof of ownership.

FINANCE AND TRADE.

These are tough times for speculators. Although money is getting down to reasonable rates, securities of all kinds are dull and refuse to advance. The inference is that prospects for general trade are not bright; if otherwise there would be more confidence.

***

Large quantities of wheat have been unloaded on the Chicago market through Toronto and Montreal brokers, but we hear that a few have such strong faith in the ultimate advance of wheat that they have sold their securities, either Canadian or United States, or both, so as to enable them to hold on to the wheat.

***

The prices of wheat are so low in Great Britain that our Canadian exporters are doing nothing at present. The lowest freight is via Portland, Me. Ontario wheat can be laid down at Liverpool by this route for 14c per bushel, while the rate via New York is about 21½c. Yesterday the best price for white and red wheat at Liverpool was 69c per bushel. Taking the lowest freight rate, then, 14c, leaves only 55c at Ontario points. Exporters, however, are not anxious to do business for the fun of it, and consequently cannot pay over 52c to 53c to ship by Portland or 45c to 46c to ship by New York. It is little wonder, then, that exporters are holding aloof.

***

The annual meeting of the Canadian Association of Jobbers in American Watches was held in this city yesterday. A. Eavis and J. A. Pitt of Montreal were appointed eastern directors and Sydney H. Lee and W. E. Boyd of Levy, Boyd & Co. of Hamilton were made western directors. The president of the association is W. E. Boyd, Hamilton; vice-president, J. A. Pitt, Montreal; treasurer, Sydney H. Lee, Toronto.

A meeting of apple exporters is to be held to-day in room A. Board of Trade building.

FIRE UNDERWRITERS.

Rates to Be Advanced If Better Protection Is Not Obtained.

There was a large gathering of insurance men in the council room of the Board of Trade yesterday. All the fire companies, Canadian, British and United States, to the number of about 35, doing business in Canada, were represented. Mr. T. R. Wood of the Ætna was in the chair. The chief subject under discussion was the heavy losses accruing to the different companies the past year. These losses in 1893 were about 74 per cent. of the gross premiums, and as it cost 30 per cent. to get the business the net result is not very satisfactory. It was unanimously agreed to acquaint the different municipalities that they will have to take action for the better protection of property, and failing this insurance rates will have to be raised.

Another meeting will be held to-day, and in the evening the Toronto board will give a dinner in the rotunda of the Board of Trade to their brethren in convention.

Where the Storms Did Good Work.

The storms of the past winter have done good work at the eastern end of the breakwater in the Island. Just west of Mr. Gooderham's house a new piece of beach 100 feet long by 200 feet deep has been formed. The beach was much needed at this point, as the waves had eaten in the shore right up to the sidewalk.

Gathering of Missionaries.

There was an important gathering of foreign missionaries in Association Hall yesterday to compare methods and measures of saving the heathen. Addresses were delivered by Dr. G. L. McKay, who has labored for 22 years in Farmosa, Rev. J. W. Saunby of Japan, Rev. J. H. McVicar of Honan, and Rev. W. S. Walton of South Africa.

F. J. Lewis & Co. received the following despatch from Kennett, Hopkins & Co.:

CHICAGO, Feb. 13.—The panic that many anticipated to-day did not materialize, nor is it probable that there will be a sharp or severe break from the current prices. Weak spots in consequence of liquidation are to be expected, but the bulk of business now as to attract fresh investment buying, which will have a steadying influence. Exports have been light and foreign markets depressed, but it is noticeable that the foreign buying for forward shipments continues on a large scale. Possibly some of this may be resold, but it looks as if the wheat was wanted and will be shipped. It is said that most of the engagements are only old orders and in order to get fresh business still lower prices will have to be made, but it will take a few days to satisfactorily determine whether this is the case or not. Wheat is unquestionably low, and if Chicago stocks were normal and speculative conditions healthy it would be a clear case for the bulls, but while conservative houses think the long side on soft spots to be the winning side, there is such a vast stock to be disposed of that we do not look for more than a moderate recovery for some time to come.

Corn and oats somewhat easier, but with an encouraging undertone of strength. The corn visible increased heavily, but nearly all of this increase has already been loaded into vessels for shipment, and there is an excellent demand for cash corn.

Provisions heavy. The Government report shows more hogs in the country on Jan. 1 than was generally expected, and it would not be surprising to see considerably lower prices.

Schwartz, Dupee & Co. wired Dixon: The buying of wheat was principally for western and southern account, although many of the scalping traders took the long side of market. The English visible supply decreased 1,000,000 bushels for the week and the visible in this country decreased 330,000 bushels. Receipts in the Northwest were 722 cars for 2 two days, which was large in view of the inclement weather. Clearances at the seaboard were less than 400,000 bushels in wheat and flour for the three days. Cable advices were lower. With the short interest evened up the price of wheat will seek a level where it will be taken for shipment. The snow that covers the winter wheat districts removes any probability of damage by frost to the growing crop. Considering the weakness in wheat, the market for corn was firm. Receipts were 598 cars for the three days and estimated 530 to-morrow. The increase in the visible was 1,640,000 bushels, most of which showed up in the local stock here. Export clearances were nearly 500,000 bushels. The shipping demand was good and sales of several round lots to go out by Newport News were moderate. There is some little talk of an advance in freight rates from the west on March 1, but it is probably all talk. Provisions opened higher and ruled firm until after call. A leading packer bought lard, and the crowd followed. Later the market, selling by packers, found the crowd loaded and but few buyers, and a quick break was the result. Lard was hammered hard, and stop loss orders added to the weakness. The speculative situation is a weak one, as none care to buy much of anything, but the legitimate situation is strong, and this gives the market quick rallies when the bear pressure is removed for any cause.

EPPS'S COCOA

BREAKFAST—SUPPER.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided for our breakfast and supper a delicately-flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*
