

## Guide-Advocate

HARRIS &amp; CO. PROPRIETORS

WATFORD, FEBRUARY 16, 1912.

## NOTE AND COMMENT.

Lord Lister is dead. He was one of the world's greatest benefactors. The application of the antiseptic principle to the dressing of wounds which he discovered, probably saved more lives during the latter half of the nineteenth century than were destroyed in the wars of that time.

Canada's fire loss of \$44 per minute is considered too large, and justly so. However, when we compare it to the American figures it fades into insignificance. \$250,000,000 a year is the estimated fire loss of the republic. That is about \$500 per minute. In fires, murders, and leniency to criminals, it must be admitted that Uncle Sam has us outclassed.

The following warning comes from Sir Edmund Walker:—"A very large amount of savings in these larger provinces is also being risked in real estate speculation in the outlying sections of rapidly growing cities in other parts of Canada. These properties on which rash speculation is based, often lie many miles from any part of the particular city, and it is to be regretted that the individual who is induced to invest the savings of years in such ventures, very often possess slight ideas of the risk he is running."

Westerners say they don't feel the cold, and the reason of it is only now disclosed by the London (England) Chronicle. It says:—"The boys of Northern Canada, when very young, are first whipped to make their flesh tingle, and then sent to bathe in the half frozen rivers. As they grow older they are made to lie out of doors at night with no clothes on, sometimes for a week or so at a stretch. The consequence is that either they die or become so hardened as to be able to go naked in any weather without the slightest discomfort."

## CHOP STUFF.

The People's Telephone Co., of Forest, has 353 phones in service.

East and West Lambton Orangemen will celebrate the 12th of July in Forest this year.

The Thedford Tribune has entered on its thirteenth year. Getting to be a big boy now.

R. P. McLevey, blacksmith, Alvington, has sold out to Chas. Lonsberry, of Lansing, Mich.

Landlord Blackhall, of Bothwell, was fined \$25 and costs for selling liquor to minors. He pleaded guilty to the charge.

Nicholas Hendry, who for many years resided on the town line, north of Petrolia, is dead at his home. He was 92 years old.

A large number of employees of the Imperial Oil Company will be transferred this month from the New York offices to the Sarnia branch.

Dr. C. O. Fairbank was the guest of honor at a banquet tendered him at the Iroquois Hotel, Petrolia, on Thursday by the Liberals of that town and vicinity.

On January 31st, death's messenger called to the spirit world Wm. A. Murray, a highly esteemed resident of Euphemis, at the age of 63 years and 8 months. The funeral was held on Friday to Bothwell cemetery.

A bald-headed eagle was shot near St. Marys. It measured 6 ft. 9 1/2 inches from tip to tip of wings and nearly 3 ft. from beak to tip of tail. The bird has talons nearly two inches long and as sharp as steel.

Application will be made to the Provincial Government for a charter for the Lambton Bean Elevator Co., with headquarters at Petrolia. The Co. proposes to erect an elevator equipped with modern machinery for handling beans, etc.

Mrs. Sarah Ann Fitzgerald Chewett, 79 years of age, only surviving member of the family of the late Judge Alexander Chewett, died in Sandwich Wednesday. Judge Chewett was prominently known in Lambton and Kent counties years ago.

A particularly sad death took place in West Lorne on Friday last when Sarah E., beloved wife of George Fredericks, died at the early age of 19 years and 7 months. Deceased was a Miss Mills and was married one year ago. Her infant daughter, born that day, died with her.

A suit of \$500 damages has been brought against the West Peterborough Industrial Exhibition by John Bolton, for injuries received by his little son at their last annual fall fair, as the result of a supposed tame bear in one of the shows biting and badly mauling the boy's leg. The directors of the Society are taking third party proceedings against the New York Amusement Co., the owners of the animal.

Mr. D. Clark brought to this office, one day last week, a n of black raspberries that had been preserved 42 years ago. The berries, which were wild raspberries, had been picked by Mrs. Clark when she was a little girl. When the can was

opened there was no sign of mold on the top, and the fruit looked as fresh as when it was first canned, but a taste would easily convince anyone of its age. Mr. Clark did well to distribute the samples among his friends before the local option by-law comes in force, as a small quantity of the juice from this ancient fruit would undoubtedly make most people act in a manner unbecoming good citizens of a "dry" town.—Blenheim News-Tribune.

## From Old Subscribers.

Perry Vanauken, Hackensack, N. J.:—"Please find enclosed \$1.50 for my subscription to the Guide. It comes on Saturday and it is just like a letter from home. I could not do without it. This has been a cold winter in New Jersey. Wishing the Guide every success."
