HER AILMENTS ALL GONE NOW

Mrs. Sherman Helped by Lydia E. Pinkham's Vegetable Compound

Lake, Michigan.—"About one year ago I suffered with irregularities and a weakness and at times was obliged to stay off my feet. I doctored with our family physician and he finally said he could not understand my case, so I decided to try Lydia E. Pinkham's Vegetable Compound. After I had taken the first bottle I could see that I was getting better. I took several bottles of the Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and I am entirely cured of my ailments. You may publish this letter if you wish."—Mrs. MARY SHERMAN, Route 2, Lake, Mich.

There is one fact women should consider and that is this. Women suffer from irregularities and various forms of weakness. They try this and that doctor, as well as different medicines. Finally they take Lydia E. Pinkham's Compound, and Mrs. Sherman's experience is simply another case showing the merit of this well-known medicine.

If your family physician fails to help you and the same old troubles persist, why isn't it reasonable to try Lydia E. Pinkham's Vegetable Compound?

A Few Helpful Hints for Youthful Exhibitors.

Bear the Ancestors in Mind—Pick Tidy Animals—How to Feed and Handle Colts, Calves and Lambs—Boys Are Making Good as Exhibitors.

(Contributed by Ontario Department of Agriculture, Toronto.)

Calves that have been fed liberally and judiciously will develop as the factors which we call heredity determine. It will be all calf, but its perfection of form is determined by its parentage. Feed cannot make a square beef calf out of a three-cornered dairy calf. So to begin with the feeder should select the young calf largely on the individuality of the parents. Get a calf that will feed out to be as good or better than its ancestors—something that is worth while spending time and money on—and then take care of it. The breed score card gives clearly what is desired in breed type. These should be studied along with the animal that is being selected for exhibition. Calves should be halter broken when young, and handled gently that they may be quiet and docile at exhibition time. If in proper flesh to look well, rub and back sweat covered. It is comparatively easy to complete the work of preparation. Prospective exhibits should be kept in the stable for several weeks previous to the fair, where they can be washed, groomed and blanketed in order that their handling qualities may reach a desirable in exhibition calves. When exhibiting before the judge see that your calf is standing on level ground, quietly, and with feet well placed so as to present a good appearance. Don't let the other exhibitors crowd too closely and hide your exhibit from view.

Handling the Colt.

The colt selected for competition at the fair should meet the requirements of the class in which it is planned to exhibit. It should also be typical of the breed that it represents. As with the calf, the colt can only be what its ancestors make it. Colts may look very much alike when only a day old, but they certainly do not develop alike, even if the care and feed are the same. So get your start by selecting your exhibition prospect from good type parentage—exhibition stock if you can. Liberal feeding from the beginning on a comparatively narrow ration to develop all the bone and muscle possible should be the aim. After breakfast and careful schooling to develop courage and tractability should be practiced from the beginning. The colt's feet should be trimmed frequently enough to keep them in proper shape. Teaching the colt to move attractively at the exhibition time. The lamb's fleece to permit handling of its feet is very essential in the general training of the animal. Such training is also a great aid on exhibition day. The colt that has had liberal treatment from birth and developed well, needs but little exhibition fitting. Good feeding will put a bloom on the colt that cannot be attained in any other way. Protection from the hot sun and flies, blanketing and grooming are material aids in developing a desirable coat condition, and should be practiced during the month previous to the exhibition. Ribbon and straw decorations while very attractive to the average good horseman do not carry very much weight with the high class judge, and are not likely to be of influence except in very close competition.

Shaping the Lamb for the Fair.

Lambs presented for exhibition at school or other fairs should first of all have been born early enough in the spring to be well grown by exhibition time. The lamb's fleece should be kept free of ticks and lice, burrs and dirt. During the season, a washing can be given, if necessary, at least two weeks previous to the show. Lambs that are kept up and fed in covered pens will show a better fleece than if they had been running out on pasture up to the last minute. The fleece should be neatly trimmed one week or more after washing, if washing is practiced, and care taken to keep the fleece free of chaff and dust until the exhibition is over. In feeding for exhibition, variety in feeding stuffs should be sought in order to open up the lamb's appetite, using oats, corn wheat, bran, cracked peas, barley meal and oil-cake meal for the grain portion of the ration and good alfalfa or red clover hay, and swede turnips as roughage. These feeds if mixed to give a ration with a nutritive ratio of 1 to 6 or 1 to 7 will take care of the growth demands and fatten the lambs. Should it be desired to feed the lambs while running on pasture, the grain ration given can be used. The lambs should be handled sufficiently to make them tame enough to stand when being exhibited. If more than one lamb is called for in a class, all individuals should be uniform in size, type, condition of fleece and body fleshing. Getting the Pig Ready.

Pigs presented for exhibition at school or other fairs should first of

SEDWICK—LINDSAY

A profusion of white asters, feathery ferns and palms together with the stately dignity of cathedral candles, formed the setting Saturday night, at the bride's home, "Linfors Lodge", for the wedding of Miss Margaret Mae Lindsay, daughter of Mrs. Mae Lindsay, Port Huron, to Mr. Leo Murray Sedwick, son of Mr. and Mrs. William Sedwick, 116 Queen street, Sarnia, Ont.

Before an altar erected in front of the fireplace, Rev. Ralph M. Crissman, pastor of Highland Park Presbyterian church, Detroit, read the ceremony.

As the wedding march from Lohengrin was played by Miss Ruth Lindsay, sister of the bride, the bridal party passed down an aisle formed by ribbons held by Miss Marguerite Schweitzer and Miss Elizabeth Wilkinson, cousin of the bride. Preceding the bride, who was given in marriage by her uncle, Mr. Roy Lindsay, walked the matron of honor, Mrs. Melville Foster, the maid of honor, Miss Marion Cameron, and the bridesmaids, Mrs. Alex. Holland, Detroit, and Miss Rose Sturmer, Port Huron.

Kenneth Sedwick of Sarnia attended his brother as best man, and the ushers were Mr. Frank Beckton and Mr. Glen Caulkett.

A wedding supper was served after the ceremony. The bride's table had as centerpiece a mound of pink roses, and bows of pink tulle adorned the corners of the table, which was lighted by tapers.

Late in the evening Mr. and Mrs. Sedwick left by auto for New York and other eastern points. Upon their return to the city they will take up their residence in Louis Terrace Tenth avenue, where they will be at home after Nov. 1.

The groom is a former Watford boy. He is now a member of the firm of Godley & Sedwick, druggists, Port Huron.

BOSANQUET COUNCIL

Council met on the 13th inst. Minutes of last meeting confirmed. The by-laws for the repair of the McPherson drain and the Mud creek drain on lot 16, Con. 8, were finally passed.

The following orders were given: C. Sheppard \$16 to pay engineer's assistants on Wood Creek drain; Peter Defore \$105.75 for work on Elliott Award drain; Forest Standard \$7.35 for printing; Morris George \$84.60 for gravel; Sitter & Thomson \$2.50 each, commission on Mud Creek drain, lot 6, con. 3, Sitter and Walden \$10 each commission on Elliott Award drain; Clerk \$37 Mud Creek drain bylaw lot 16, con. 8, and \$30 McPherson drain bylaw; R. D. Thomson \$4 serving copies of McPherson bylaw; A. D. Donald \$10 serving copies of Mud Creek drain bylaw, lot 16 con. 8; Chas. Sheppard \$10 serving copies of Coultis drain bylaw, Hy Curtis \$40.25 for gravel.

Engineer McCubbin was authorized to repair Shawann drain from its head to a proper outlet, also to widen bottom of Wadsworth drain and to extend tile in branch drain.

The Clerk was instructed to write to A. S. Code in reference to size of tile at Coultis drain outlet.

A bylaw was passed to levy the taxes: County rate 6.82 mills, Tp. rate 6 mills, general school rate 3.65 mills.

Council adjourned to meet on Monday, Oct. 2nd, at 10 a.m. when the engineer's report for the repair of the Nesbit drain will be read and considered.

Court of Revision on Mud Creek Drain bylaw lot 16 con. 8, reduced Grant Thompson's assessment \$10 and added this amount to roads.

Court of Revision on Coultis drain adjourned to meet on Monday, Oct. 2nd, at 2 p.m.

Geo. Sutherland, Clerk.

CRIPPLED WITH RHEUMATISM

Then She Took "FRUIT-A-TIVES" And Has Been Well Ever Since

MADAM SLOAT

PERRY JUNCTION, N.B., Jan. 22nd, 1920

"For many years, I was a great sufferer from Indigestion, Constipation and Rheumatism. My Stomach was weak and gave me constant distress, while Rheumatism in my joints made me almost a cripple. was treated by two different doctors but their medicine did me no good.

Then I tried "Fruit-a-tives" and at once that fruit medicine helped me. Soon the Constipation and Indigestion were relieved and the Rheumatism began to go away, and in a few months entirely disappeared. For twelve years now, my health has been first class, and I attribute it to the use of "Fruit-a-tives" which I take regularly."

Mrs. CLARA SLOAT,
