Master it and you will be paid a hundred times over for your trouble.

Many Men

are promoted and become successful in all their undertakings; not because they are better qualified than those around them, but because they possess personal magnetism and can influence others to think as they do.

Every person possesses more or less latent magnetic or hypnotic power which, when properly developed, enables one to not only control his own destiny, but the minds, health and actions of others can be influenced, frequently to a remarkable and astounding degree. All successful persons, no matter of what vocation, are hypnotists. Some are unconsciously so, while others acquire the science through study and development of brain power.

Learn How

to influence others and success is assured. Any person of ordinary intelligence can acquire this power and knowledge in a very short time. Thousands of persons have mastered it during the past ten months, and why not the reader. It will cost you nothing to make the effort. Write to us to-day for our 100-page book, entitled "Wonders of Hypnotism," and it will be sent you by mail free of any charge whatever. We want everybody to become enlightened upon these greatest of all sciences, and our finely-illustrated work, when carefully read, will prove all we claim. We guarantee success.
