Some remarks have been made, Feb 11th to us, and some hints given us as to the form and shape of this little paper and as to the contents. According to the advice received, we should enlarge the paper, put in a variety of articles, including Inquiries, Vocabularies, etc. We should try and advertise extensively, place copies in book stores etc. etc. It would take the whole of our time to comply with the kind advice, and we have only a few moments to spare now and then for the composing and autographing of these little papers.
