Manhattan has a net floating debt of nearly \$2,000,000 and has charged up to construction account about \$1,500,000 in the past year, presumably for land damages

Whilst the earnings for the first three-quarters of the year were at the rate of 5 per cent on the stock, the last quarter only showed a rate of 3½ per cent. The short interest in the stock is considerable, but the floating stock has greatly increased in the last 4 months. That drives are made in the price of shares in the face of a bull market is not surprising. bull market is not surprising.

ST. PAUL.

St. Paul was lader of the market yesterday. It rose 2½ points, with transactions amounting to 67.760 shares.

buying was stimulated by the bedef that it was the intention of the company to make the extra dividend 1 per cent. instead of ½ per cent. There was nothing however official on this

Buying of St. Paul is considered especially good.

BROOKLYN RAPID TRANSIT.

Brooklyn Rapid Transit continues to advance, on the better earnings which people supposed to be closely indentified with inside interests.

It is said Commissioner Shea will allow two more loops to be constructed at the New York end of the bridge for the use of the trolley lines, and that these additional facilities will greatly aid these lines in handling the traffic.

Silver-plated

Silver plate is bought on faith -the purchaser cannot measure the thickness of the plate. This TRADE WMROCERS is the assurance of Simpson, Hall, Miller & Co., the manufacturers, that the Knives, Forks or Spoons that bear it are the best of silver plate - "the kind that wears."
