International Trade Centres have been established across the country as a convenient point of contact to support the exporting efforts of Canadian firms. Co-located with the regional offices of Industry Canada (IC), the centres operate under the guidance of DFAIT and all have resident Trade Commissioners. They help companies determine whether or not they are ready to export; assist firms with marketing research and market planning; provide access to government programs designed to promote exports; and arrange for assistance from the Trade Development Division in

Ottawa and trade officers abroad. Contact the International Trade Centre nearest you.

The **World Information Network for Exports (WIN Exports)** is a computer-based information system designed by DFAIT to help Canada's trade development officers abroad match foreign needs to the capabilities, experience and interests of more than 30,000 Canadian exporters. To register on WIN Exports, call: (613) 996-5701.

The **Market Intelligence Service** provides Canadian business with detailed market information on a product-specific basis. The service assists Canadian companies in the exploitation of domestic, export, technology transfer, and new manufacturing investment opportunities. The intelligence is used by Canadian business in decisions regarding manufacturing, product development, marketing, and market expansion. The information includes values, volume and unit price of imports, characteristics of specific imports (e.g. material, grade, price, range, etc.), names of importers, major countries of export, identification of foreign exporters to Canada, Canadian production, Canadian exports, and U.S. imports. Two-thirds of the clientele for this service are small businesses. Call: (613) 954-4970.

Canadian International Development Agency

An important possible source of financing for Canadian ventures in Mexico is the special fund available through the Canadian International Development Agency (CIDA) under the Industrial Cooperation Program or CIDA/INC. CIDA's Industrial Cooperation Program provides financial contributions to stimulate Canadian private-sector involvement in developing countries by supporting long-term business relationships such as joint ventures and licencing arrangements. INC supports the development of linkages with the private sector in Mexico encouraging Canadian enterprises to share their skills and experiences with partners in Mexico, and other countries. A

series of INC mechanisms help enterprises to establish mutually beneficial collaborative arrangements for the transfer of technology and the creation of employment.
