

You are Guilty

of being deceived if you accept a substitute for the Dodge Pulley, and you will find the deception will be highly expensive in the long run.

There's no "just as good as the Dodge Pulley," although some dealers will try to sell you a substitute.

Insist on having the Dodge Pulley, and when your order is filled be sure that you have got the original Dodge wood split pulley.

We will ship them direct from the factory on a moment's notice. Also remember we make the best friction clutches, hangers, couplings and machine moulded iron pulleys and carry a full line of steel shafting from $\frac{1}{2}$ " to 8" in diameter, and 16, 18 and 20' lengths.

THE ANSWER

Ask the best engineers and machinery builders that you know of, which is the best Babbitt Metal for all purposes they know, and they will certainly say the "SYRACUSE SMELTING WORKS" Babbitt Metal, as it has stood the test for the last 22 years in the United States and 15 years in the Dominion of Canada.

Run no chances in using inferior metal, but ask your dealer for the "SYRACUSE SMELTING WORKS" Babbitt Metal, the largest manufacturers of Babbitt Metal and Solder under the British Flag.

Montreal, Can., New York, U. S. A. and Seattle, Wash.
