

QUIT GAMBLING IN SHOES.

NEARLY all shoes look alike, but—
There's as much difference in shoes as there is in people.
Yet these differences in leather, workmanship, wear and fit, are so juggled in shoe manufacturing, that they disappear from sight in the made-up shoe.
That is, they disappear to the eye—but the foot finds them out.
Aye—and the purse finds them out too, when you draw the wrong pair of shoes in the usual store lottery.
Why should you gamble on shoes when you might, at the same cost, invest in them?
Why purchase a shoe of unknown value (price-fixed by the retailer) when you might, at the same cost, buy a sure-value, **Slater** shoe, with a twenty year record of uniform merit behind it.

"The Slater Shoe" is the only shoe in Canada made in a factory which makes nothing else—and which has specialized on the making of that single grade, uniformly as its best and surest, for two decades.
It is the only shoe in Canada which is price-controlled by the **Makers**, who alone can know the hidden value in each pair, without guess-work.

Nearly all other shoes are sold for what they look like, or for as much as the retailer thinks he can get for them.

A genuine "Slater Shoe" is price-branded at the factory for exactly what it is known to be worth in wear and comfort, with no charge whatever for its extra fine appearance and its style.

When a "Slater Shoe" goes bad, if it ever does—you know where to get your money back.

The Slater Shoe Company, when they once brand their own price on a shoe, are responsible for its service up to that price—and they never shirk the responsibility.

Let your next pair of shoes have the Slater frame guarantee inside the top, on the lining.
Two prices only—\$4.00 and \$5.00.

The Slater Shoe

SAVES BOY FROM DROWNING
Ald. Munson of Cobourg Acted Promptly in Emergency.
Cobourg, Sept. 21.—Thru the heroic efforts of Ald. C. A. Munson, Willie Hamilton, a young boy of ten years of age, was saved from drowning here this afternoon.
Young Hamilton was riding a bicycle on the centre pier when he fell into the lake.
Munson, only waiting to take off his coat, plunged into the water and succeeded in getting the boy as he was going down the last time.

DR. AGNEW
WITH THE FORESIGHT OF A PROPHET, BY THE AID OF THAT GREATEST OF KNOWN TREATMENTS—"DR. AGNEW'S CURE FOR THE HEART"—IS LEADING THOUSANDS OUT OF "EGYPTIAN BONDAGE," OUT OF ILL-HEALTH AND UNTOLD SUFFERING TO THE "PROMISED LAND" OF PERFECT HEALTH.

DOES YOUR HEART ACHE?

DR. AGNEW'S CURE FOR THE HEART WILL STOP THE PAIN

Is there palpitation—Is there fluttering—Is your breath short—Is it hard to find your pulse sometimes—Do you have smothering spells—Do your feet and ankles swell—Do you have fainting turns—Do you have nightmarish—Do you have pain in the left side, shoulder or arm—Ever experience great hunger and exhaustion—Do you have chills sensations? Dr. Agnew's Cure for the Heart has saved thousands of sufferers, chills sensations? Dr. Agnew's Cure for the Heart has saved thousands of sufferers, chills sensations? Dr. Agnew's Cure for the Heart has saved thousands of sufferers, chills sensations?

"I was under treatment," says Mr. A. Lavers, of Collingwood, Ont., "with some of the best physicians in London (England) for what they diagnosed as incurable heart trouble. I suffered agonies through pain about my heart, fainting spells, palpitation and exhaustion. As a drowning man grasps at a straw I tried Dr. Agnew's Cure for the Heart. The first bottle relieved me greatly; two bottles took away all traces of my heart trouble."

DR. AGNEW'S LITTLE LIVER PILLS cure all liver ills—10 cents.
DR. AGNEW'S CATARRHAL POWDER a sure cure for catarrh.

SEND CADETS TO BISLEY AND GROW CRACK SHOTS

Splendid Scoring Recently Made by Youthful Contestants Should Be Rewarded.

E. W. Hearn, principal of Harnborough Collegiate Institute, in a letter to The World, makes the suggestion that Canadian cadets be sent to Bisley each year. He says:

Would you allow me, as one who has taken an interest in the promotion of rifle-shooting and military drill among school boys, to make a suggestion in this connection? All interested in the subject are still thinking of the remarkable achievement of Lieut. Hartney at Ottawa the other day, with a strong wind blowing, he put on eight successive bulls' eyes at 200 yards, even his eighth shot being in the centre, and this being the only "possible" made on the range that day. Now Lieut. Hartney is only one of several good boys who are in Canada.

Lieut. Macklem, shot with him all thru the D.R.A. meet, winning several prizes, and in the rifle match, putting on thirty-two towards the score, by which a team of three defeated other teams of five. Similarly did Lieut. Rose Shaver of Dundas, defeat a team of five. Several other who could go about as well had they been encouraged to do so. Ottawa, namely, Lieut. Kipp of Toronto, Lieut. Moore of Guelph, Lieut. Mallett of Dundas and Lieut. Elliott and Pauls of Toronto.

If you extend the age to 20 it would include ex-Cadet Blair Mitchell, the first boy shot to make a possible at the O.R.A. matches. Now from these a team could be selected which would be a credit to the school boys who assemble in large numbers at Bisley from all parts of the British Empire. The government would take this matter up and make an appropriation, I cured from Canada to supplement what the government might do, tho, in my opinion, it ought to be done entirely at the public expense. I hope that this suggestion will meet with favor.

NOT BOARD'S APPOINTMENT.

Motorman Inspector in Company's Representative Who Earns Permit

Chairman Letch of the railway and municipal board clears away a misapprehension which apparently exists among labor men by the following explanation of the appointment of A. M. Smith as examiner of motormen. He said yesterday:

"Under section 221 of the Railway Act no motorman shall be appointed by the board until he has been examined by the board. The railway company makes the selection and the man undergoes a rigid examination by the board ere it grants approval."

The board examined Mr. Smith, found him a master mechanic and electrician, and he was appointed to act as examiner of motormen. He proved an intelligent man, and his mechanical knowledge and experience proved him competent to do the work. The circumstances could not withhold his approval."

Two candidates were examined for the street railway yesterday, William Henry Nix, who has served for 18 years, and Thomas Hogg, whose experience extends for four years. Both passed the examination and received the permit of the board.

THERE WAS NO DISASTER.

Ottawa, Sept. 21.—In response to enquiry by the department of the Interior, Mr. Cooke, agent at Prince Rupert, has advised that there was no disaster in the story that three members of Indian Agent McKenna's party had met disaster in Buffalo.

One of the party, M. Belanger, was swamped, with five Indians, while crossing the river, but no damage was suffered.

RELATIVES NOT SATISFIED.

Lemuel Kitchen died in Townsend Township last November. He bequeathed a number of letters from emigrants who had come to Canada, and he had said that he was glad to be in Canada.

Among the passengers on the Empress of Ireland, sailing to-day, are F. B. Girdlestone, general manager of the Bristol docks. He is visiting Canada on a tour of inspection.

Admiral Douglas, visiting Lord Strathcona at Glencoe, missed by only one minute the Great Northern Railway train that met with the accident. He traveled in a train following.

Children the Feature.

St. Thomas, Sept. 21.—(Special).—Educational or children's day was attended by thousands at the Made-in-St. Thomas Exhibition to-day. The display of flowers raised by school children was grand. Five hundred children sang patriotic songs and gave fancy flower drills.

The Victoria L.O.O.F. Canton were given a reception this evening on their arrival from Toronto.

Jennie MacLachlan. This famous singer, who has delighted the hearts of so many people with her songs, will appear at the annual concert of the Sons of Scotland at Massey Hall on Thursday evening, the 27th inst. It is said that this is her farewell tour.

Attendance Falls Off. Petrolia, Sept. 21.—The first day of the Petrolia and District Fair held for an day, was a success, altho the attendance was not up to the mark. The London Newsboys' Band took the cake.

Wesley Conn of Rattlesnake. Winsted, Conn. Sept. 21.—A large rattlesnake, having ten rattles, was killed yesterday near Mount Toke, in Thomaston. A full grown weasel was found inside the reptile. This was the largest of its species killed in the county for years.

A Second Crow's Nest

Coal is actually to-day the greatest commodity of the world. With coal we run our mills and factories and our great railroads; with coal we propel our ships, produce our power, and warm our homes; with coal we generate and produce electricity, with a few exceptions, when water power is available, but there are not very many Niagara Falls, however with coal we produce iron, copper, lead, silver, gold, and all other metals that we need, and must have, because all of those metals are to be found mixed in with the rock and in the ore.
Without coal we could not make coke, and coke made from a certain kind of high-class bituminous coal is the only fuel yet known to man that produces a heat intense enough to melt ore and hard rock into a liquid, by which process we are enabled to extract the metals we need.
England would not be the great world power she is to-day if it was not for her inexhaustible supply of coal.

Coal is the basis of all industrial and commercial wealth.
Coal-mining in British Columbia has always been a great success. It is a great deal like diamond-mining in South Africa, a bonanza of the first magnitude. The great mountain barrier of the Rockies shuts out the eastern coal, leaving the great Pacific coast to be supplied by the British Columbia fields, excepting a small tonnage from the State of Washington of a very inferior quality; in fact, so poor that the United States Navy of the Pacific division get all of their supply from the Washington port of Vancouver Island, and pay the duty on it, but neither the Dunsmuir Coal Mines on Vancouver Island coal is of any use for furnace and smelters coke, because the coal from both of these places contains a great deal of sulphur, and does not make good smelters coke.

Nevertheless Dunsmuir made millions after millions every year from mining coal, and died a few years ago the richest man in Canada. He made it all from coal, and his mines will be productive for generations to come, and are worth more to-day than thirty-five years ago, when first opened up.

OPPORTUNITY.
To see it, and grasp it in time, makes a man the master of his destiny. DO YOU WANT TO MAKE MONEY HONESTLY, AND LOSE NO TIME? I would like to offer you three to four years from now on an investment of \$250.00? We offer you the opportunity to do this.

For \$250.00, \$500.00 or \$1,000.00, whatever the case may be, in bank, drawing 3 per cent. interest yearly. Does this satisfy you, when you can make many times your money in one year? This is the only safe and sound investment in coal mining in the world. It is safe, and as good as Government bonds, and it is a sure thing. There are no "ifs" about coal-mining. There never was, and there never will be, and the business was managed right and honestly.

The price of coal and the quality of coal is always advancing from year to year, and the business is increasing enormously every year.
Millions and millions of dollars have been made in coal-mining year after year by all those engaged in the business, and to prove this we refer to the statistics on hand for 1902, where it is shown that nine of the leading bituminous coal mines in the United States and Canada made the enormous profits of \$87,400,000 (one year's earnings).

There is no field of investment more absolutely safe and profitable than coal-mining.
We now offer to the public 300,000 shares of the British Columbia Amalgamated Coal Company's treasury stock at the low rate of \$1.00 per share.

TWENTY-FIVE CENTS PER SHARE.
The par value of this stock is one dollar and non-assessable and non-cumulative. Once paid and secured it is settled forever.
This Amalgamated Coal Company controls 17,500 ACRES OF COAL LAND in the Nicola Valley, and according to coal experts' reports, this great area is underlain with inexhaustible quantities of high-class bituminous coal, the best for steam and for cooking purposes, estimated to contain approximately 1,400,000,000 TONS OF COAL.

TWO RAILROADS.
are now building into the Nicola Valley, the Canadian Pacific and the V. & E. (Great Northern).
The V. & E. is a branch line from the Canadian Pacific, a distance of about fifty miles, whereas the V. & E. are rushing the work as fast as money and labor can do it, and the line will be completed in a few months.

This is certainly a rare opportunity for the small investors. For \$250.00 you can now buy 1,000 shares of the Amalgamated Coal Company's treasury stock, which will entitle you to a dividend of \$10.00 per share, and the Amalgamated Coal Company's treasury stock is now selling at \$1.00 per share. The Amalgamated Coal Company's treasury stock is now selling at \$1.00 per share. The Amalgamated Coal Company's treasury stock is now selling at \$1.00 per share.

BETTER LIFE INSURANCE.
A source of income that will last as long as you live. An asset that you can leave behind you for your friends and relatives. Have you a child? If so, why not get \$50, \$100 or \$200, or any sum you can afford, in this stock? It will give you a certificate issued in their names; and will give you a life insurance.

TWO YEARS FROM NOW
the stock should begin to pay handsome dividends, and in another year or two may be sold at a valuation on the market for the dividends it then will pay of at least \$10.00 per share. This calculation is based on sound and conservative business judgment, and is not a guess. It is quite safe to say that the Amalgamated Coal Company has built its market for its product on Cold Water River, in Nicola Valley, B.C., and the Amalgamated Coal Company's treasury stock is now selling at \$1.00 per share. The Amalgamated Coal Company's treasury stock is now selling at \$1.00 per share.

RECOMMENDED BY BANKERS AND MERCHANTS.
as the safest and best investment on the to-day which is being offered to the public. It is a source of income that will last as long as you live. An asset that you can leave behind you for your friends and relatives. Have you a child? If so, why not get \$50, \$100 or \$200, or any sum you can afford, in this stock? It will give you a certificate issued in their names; and will give you a life insurance.
