### MADE FROM NATIVE ROOTS SAFE AND RELIABLE.

That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and tanght the early settlers their uses. The Indian never liked work so he wanted his squaw to get well as soon as possible that she might do the work and let him hunt. Therefore, he dug "papoose root" for her, for that was their great remedy for female weaknesses. Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription," skillfully combined with other agents that make it more effective than my other medicine in curing all the vari a weaknesses and bined with other agents that make it more effective than my other medicine in curing; all the vari is weaknesses and painful derangements, eculiar to women. Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. Tenderness over the lower pelvic region, with backache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous benefit in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinar roots, without a drop of alcohol in its make up, whereas all other medicines, put up for sale through druggists for woman's peculiar ailments, contain large quantities of spirituous liquors, which are very harmful, especially to delicate women. "Favorite Prescription" contains neither alcohol nor harmful habitforming drugs. A its ingredients are printed on each b wrapper. It is a powerful invigor g tonic, imparting health and strength in particular to the organs distinctly feminine. For weak and sickly women, who are "worn-out," or debilitated, especially for women who work in store, office, or school-room, who it at the typewriter or sewing machine, or bear heavy household burdens, and for or bear heavy household burdens, and for aursing mothers, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health restoring and trength-giving power.

Men and Women Accused of Spreading Sedition in the

St. Petersburg, Dec. 31.-Acting on information furnished by a traitor, the Oporto police during the last few days captured over a hundred leaders and members of the St. Petersburg military organization of the Social Democrats, who were conducting a propaganda in the army and navy.

Among those taken into custody was the editor of a paper secretly published entitled "The Barracks," 25 soldiers and several women. The police also arrested many members of an important group of terroristic social revolutionists and secured, according to a report, a list of 27 high officials, who had been selected to die. Finally it is asserted that the police accidentally obtained information which frustrated a plot to blow up a number of persons at a conference which was to be held in the near future.

Arrests of members of the military organization which was responsible for the Sveaborg and Kronstadt outbreaks and the mutinies on board warships on the Baktic squadron in August have been reported from various places in the interior, notably at Moscow, to which city the central committee was transferred after the police had twice broken up the head-
