DALY WINS SEMI-FINAL AND LOSES FINAL BOU

Doyle of New York Scores Knock Out in Lightweight Class at Boston.

BOSTON, Mass., April 30.—(Special.)

The semi-final diffinal bouts of the amateur Athletic Union at Mechanics Building to-night were far better than those of the previous nessed the exhibition. Perhaps the most interesting

of the evening was that between Tom Daly of Toronto and Joseph Doyle of the Union Settlement A. C. of New York, in the 135 pound class. Daly, who had successfully come thru preliminary by besting Burke of Melose, Mass., was also successful in the semi-final, when, after being knocked down once by James Kerrigan of South Boston, he was awarded the decision in the third round.

In the first round of the final bout however, he met a stiff proposition in Doyle. Daly had a punch that was characterized as a peach by the local crowd, and for three minutes he put up a beautiful battle. Just as the bell rang for the close of the round Daly walked into a cross counter which caught him flush on the jaw and he went down and out. It was some time before the attending physician could bring the boy around. Daly is a nice two-handed boxer, and was well fancied by the crowd. Doyle won his semi-final by a knockout, which gives him first prize, and Dady second in their class.

Woodbine Betting System.

It is announced that John P. Cavanagh will have control of the Woodbine ring at the May meeting. The English system of betting will prevail, individual bets, odds shown on small haud slates, and the layers moving about on a portion of the lawn set apart for them.

Cavanagh's bureau of advance information, which has worked so successfully in tion, which has worked so successfully in New York, will be inaugurated here, and also at the other Canadian tracks in turn. By this arrangement the bookmakers have to pay nothing for the privilege of laying the prices, as under the old system, but they pay a small daily fee for the scratching of the content of the system of the content of the scratching of the content of the system of the content of the scratching of the content of the scratching of the content of the scratching of the scratching of the statement of the scratching of the scratch es, jockeys and other details, which age necessary. They must pay admission to the track like anybody else, so that it may

needed, but they had not been playing long before the visitors found that it was just as necessary to have a ruling spirit over there as here. Hutton and Fagan looked on the opposing players as jokes at first, but soon changed their views. Hutton's work in goal, however, is astonisting the natives. The new rule of the N. L. U. which makes it compulsory for a referee to inflict a twenty-minute penalty on a player for deliberately striking another, has the appearance of being a poor one. The rule should be to make the punishment fit the offence, and not make all offence, the should be to make the punishment fit the offence, and not make all offence the same. The new rule looks like as if the magnates have not much confidence in the efficiency of their referees.

This man Pat McDonagh must certainly have a lot of medals, by the way the teams are chasing after him. The Peterboro Review says that his trunk is already in Peterboro and that the great and only will be in that city to-day. Will Mr. McDonagh please inform an anxious public just where he intends to locate?

The Peterboro officials are well satisfied with the work of the district committee, and well they might be, as both their intermediate and junfor teams are excel-

be said that there are no business relations between the betting ring and the Canadian track owners. Cavanagh has perfected matters on New York tracks, so that there is the outer harmony, which, it may be said is theolute harmony, which, it may be has been of inestimable value to the York Jockey Club and the sport itself.
