No reason why every lady in Canada should not buy Dress Goods of us. We send samples free to any address, fill all mail orders promptly and accurately, and always refund money when goods are not as represented.

## Cheap Chairs.

Our buyers, ever on the alert for big buying chances, are continually approached by manufacturers who wish to clear out some of their lines at greatly reduced prices. A few days ago such a manufacturer ran across our furniture buyer, and the result—a big "scoop" in Chairs for this store. The Chairs are now ready for sale, and this is the way prices run:

Ladies' Rocking Chairs, with ve- neered and perforated seats, usu- ally sold at 90c each, our special price is. ....	59
Ladies' Rocking Chairs, oak, cane and impervious seats, usual price \$1.50 each, our price. ....	1.00
Large Arm Rocking Chairs, with cane and impervious seats, usual price \$2.25 each, our price. ....	1.50
Rocking Chairs, large size, with arms, cane and impervious seats, usual price \$2.50 each, our price. ....	1.65
Oak Dining Room Chairs, in set of six, with upholstered seats, us- ual price \$8.50 per set, now sell- ing at. ....	5.70

All arranged for easy seeing on the Second Floor (take elevator). You'll find a great deal to interest you. A little money spent in Pictures, Wallpapers, Curtains, Carpets or Furniture will add much to the comfort of your home.

## About Drugs.

"Everything for which there is likely to be a demand, and all at popular prices." That's the story in a nutshell. Always busy where we sell Drugs and Medicines. No need to advertise them much. For the benefit of those who have not interested themselves in this department we quote these prices in Patent Medicines and Toilet Articles:

<b>Patent Medicines.</b>	
Williams' Pink Pills, 3 boxes for. ....	1.00
Dodds' Kidney Pills, per box. ....	1.00

### THE BATTLE GROUND.

Under stress of public opinion, Sir Wilfrid Laurier has found it expedient to abandon his antagonism to the principle of the Imperial Zollverein. At the banquet given in his honor last week he took occasion to apologize for his public disapproval of the project while in Great Britain. He did not deny that he had rejected the advances of Hon. Mr. Chamberlain. He merely tried to explain away the effect of his conduct in so doing. Even yet Sir Wilfrid doesn't seem to understand the question, or at least he has failed to recognize his duty in connection with it. At the banquet the other night he told us that the question of England's granting Canada a preference in her markets was now open for discussion, "but," said he, "the battle must be fought in Great Britain much more than in Canada. There is the ground to have the battle fought." Such an assertion as this honestly believed in the project. If the establishment of an Imperial Zollverein be a commendable project then one part of the Empire is as much interested in advocating it as another. But the brunt of the battle will have to be fought by Canada. We who would like to see an Imperial Zollverein established and believe in the principle ought to furnish the arguments to support our contention. It would be absurd for Canada to sit idly by and leave the battle to be fought out in Great Britain. We differ most emphatically from Sir Wilfrid Laurier. It is here in Canada that the battle must be fought if we ever expect to achieve victory. One of the conditions necessary to the establishment of the Zollverein is the ability of the colonies to supply Great Britain with the breadstuffs and other food products consumed by its inhabitants. Whose duty is it to establish this? England leaves it to the people of England to ascertain whether the colonies can produce all the wheat required by Great Britain, or should the colonies themselves furnish the statistics? Instead of assuming a passive attitude, Canada ought at once to create an active propaganda in the United States, doctrine, Canada ought to issue an inventory, showing what this country could do towards supplying Great Britain with food products, in the event of a 10 per cent duty being imposed by Great Britain on foreign produce. In one sense, but not in the sense in which it is intended it, Sir Wilfrid was right in stating that the battle must be fought in Great Britain. That may be literally true, but it is the Canadians and other colonists who must assume the aggressive in that battle. The proposition must be made and a large number of us in Great Britain, but it is Canadians who must preach the doctrine and furnish the statistics.

### AMERICAN WORKMEN PREFERRED.

The Kingston Whig is an orthodox Liberal journal, but it cannot accept the Government's free trade theories when they are made to apply to the immediate vicinity of Kingston. It is apparent that the Government recently tendered for three locomotives for the Intercolonial Railway. The Kingston Locomotive Works put in an estimate, but they were underbid by an American firm, which consequently got the work. The Whig claims that if duty had been levied on the American tender, the tender would have been the lower. In these days, when the United States is excluding every nation from its markets, and particularly the Dominion of Canada, it is a shame that our Government should give an American firm a contract which Canadian workmen are entitled to. The Kingston Whig is a newspaper which has expressed its views on John policy of the Canadian Government will be repudiated by all patriotic Canadians, especially at the present time, when the Americans are treating us with so little consideration. The Whig is naturally indignant at the preference shown by the Liberal Government for workmen who have families to support in Kingston.

### RELIGION IN THE SCHOOLS.

A few days ago we noticed that a Separate school supporter requested that his school taxes should be applied to the Public school fund instead of for the benefit of the Separate schools. At the present time a large number of Catholic parents send their children to the Public schools in Toronto, although Separate schools exist in every section of the city. There is no doubt that many of our Catholic fellow-citizens are beginning to appreciate the fact that the Public schools are superior to the Separate schools on an educational point of view. They wish to give their children as good a start in life as Protestant boys and girls receive, and therefore they abhor the idea of the children of the same community being segregated merely because of their religion. These influences are at work, and we sincerely believe that the day will yet come when the Separate schools of Ontario will quietly drop out of existence. But that day will be postponed for many a long year if the Anglican laymen are allowed to introduce religion in the Public schools. Our only hope of ever securing the union of the Public and Separate schools is in keeping the former strictly neutral, from a religious point of view. The World does not anticipate that any such retrograde action as the teaching of religious doctrine in the Public schools will be countenanced, but we know how soon our splendid Public school system would be ruined if the Anglican clerics had their way. But they won't have it.

It is apparent that the Government recently tendered for three locomotives for the Intercolonial Railway. The Kingston Locomotive Works put in an estimate, but they were underbid by an American firm, which consequently got the work. The Whig claims that if duty had been levied on the American tender, the tender would have been the lower. In these days, when the United States is excluding every nation from its markets, and particularly the Dominion of Canada, it is a shame that our Government should give an American firm a contract which Canadian workmen are entitled to. The Kingston Whig is a newspaper which has expressed its views on John policy of the Canadian Government will be repudiated by all patriotic Canadians, especially at the present time, when the Americans are treating us with so little consideration. The Whig is naturally indignant at the preference shown by the Liberal Government for workmen who have families to support in Kingston.

### RELIGION IN THE SCHOOLS.

A few days ago we noticed that a Separate school supporter requested that his school taxes should be applied to the Public school fund instead of for the benefit of the Separate schools. At the present time a large number of Catholic parents send their children to the Public schools in Toronto, although Separate schools exist in every section of the city. There is no doubt that many of our Catholic fellow-citizens are beginning to appreciate the fact that the Public schools are superior to the Separate schools on an educational point of view. They wish to give their children as good a start in life as Protestant boys and girls receive, and therefore they abhor the idea of the children of the same community being segregated merely because of their religion. These influences are at work, and we sincerely believe that the day will yet come when the Separate schools of Ontario will quietly drop out of existence. But that day will be postponed for many a long year if the Anglican laymen are allowed to introduce religion in the Public schools. Our only hope of ever securing the union of the Public and Separate schools is in keeping the former strictly neutral, from a religious point of view. The World does not anticipate that any such retrograde action as the teaching of religious doctrine in the Public schools will be countenanced, but we know how soon our splendid Public school system would be ruined if the Anglican clerics had their way. But they won't have it.

### Drink Spurred.

With your whiskey.

### Ida Orme Is Inane.

London, Oct. 9.—Miss Orme, the well-known song writer, whose life, according to a story recently circulated, an attempt to commit suicide, entered her residence on Sept. 19, but whose wound was not a serious one, and who has been under restraint since the shooting, was
