thousands at this season. Eat does not relish. They need the toning up of the stomach and digestive organs, which a course of Hood's Sarsaparilla will give them. It also purifies and enriches the blood, cures that distress after eating and internal misery only a dyspeptic can know, creates an appetite, overcomes that tired feeling and builds up and sustains the whole physical system. It so promptly and efficiently relieves dyspeptic symptoms and cures nervous headaches, that it seems to have almost "a magic touch."

This shows a reduction of 1 1-4c from the highest prices paid some time ago. The shipments of butter from this port last week were 6,742 packages, against 1,400 packages for the corresponding 400 packages for the corresponding period last year, making the total for the season up to the close of last week 154,433 packages, showing an important increase of 86,342 boxes. Chicago, Nov. 20.—To-day's session of the wheat market brought further and greater discomfort to the buils than they have experienced in many days. It was believed at the close that the heavy selling was on account of a syndicate which is said to exist, and which it is claimed was a prominent factor in engineering the bulge which lately culminated. The weakness which finally resulted in the complete demoralization of today's market originated abroad. Liverpool lost 1½d to 2½d for the futures and No. 1 northern spot declined 3d. Berlin, Antwerp and Paris were all sensationally lower. During the earlier hours of the session prices were supported by the influence exerted by sales of cash wheat aggregating 200,000 bushels, but that finally lost prestige, and then the break began. December wheat opened from 76c to 76½c: sold between 77½c and 75½c, closing at 75½c to 75½c—1½c to 1½c under yesterday. Cash wheat was irregular, closing weak and nominally 1½c under yesterday. Illegally. Chatham, Nov. 21.—The fall sessions of the High Court closed Thursday, with the sentencing of prisoners. When Jas. Richards was asked if he had anything to say, he replied: was under the impression that I could without incurring a penalty of \$200, refuse to give a ballot paper to anyone stating that his name was on the list, even though I knew, as in this case, that the voter was not as he represented."

His lordship said he believed him, and, while ignorance of the law was no excuse, he believed all the prisoner had said, and could not punish him under the circumstances. He was released on suspended sentence. Wm. Branton, on the charge of per-

sonation, was sentenced to three months in the common jail. His Lordship held that he had been made the dupe of others, and did not punish him severely. He must, however, inflict a lesson that would be a warning.

The Manitoba School Settlement Eminently Fair.

A System Which Sir John Thompson Warmly Approved.

"One School for All," Religious Instruction, But Disabilities for No One.

Ottawa, Nov. 21.—The Manitoba school settlement calls for one or two comments:

First, k is in accordance with the declared intentions of the Manitoba Government. Second, it protects the Roman Cath-

olic children from inefficiency, while insuring religious instruction from their own Church. Third, it extends advantages to Roman Catholics which they did not pos-

sess until 1890. Fourth, it preserves to the province its autonomy in matters of education and leaves untouched the principle of will have to be made in the King street

of Dec. 20, 1895: "In amending the law from time to time, and in ad-ministering the system, it is the earnest desire to remedy every well-founded grievance and to remove every appearanc of inequality or injustice that may be brought to and with a view to so doing the Government and Legislature will always be ready to consider any complaint that may be made in a spirit of fairness and conciliation." This assurance was repeated in

April last. The good effect of the settlement on the Roman Catholic children will be seen by a moment's attention to the following 7 75.

Girofle-Girofla Presented by the Thorne Opera Company-A Good Performance.

The Thorne Opera Company last evening presented the comic opera of "Girofle-Girofla" at the Asylum in a manner that was very creditable to themselves and very entertaining to the 500 patients, employes, and employes' families, who had assembled to hear them.

Miss Marion Le Clair as Girofle made a decided hit, singing her part with a peculiar sweetness and roundness of tone which showed careful training. Miss Alice Galbraith's rendering of the part of Aurora was very fine, her regal style suiting her nicely to this

difficult character.

Mr. Will Thorne sustained the part of Bolero in fine shape, giving a vigor to the lines and a funniness to the acting that was greatly appreciated

by the audience. Mr. J. D. Raymond, as Marisquin, was good. He sang some of his num-bers with a heartiness and a clearness that brought reward for his efforts several times in the form of applause. The members of the board of works, excepting Aid. Cooper, accompanied by the city engineer, paid a visit to the Coves yesterday, and tramped through mud and marsh for the benefit of the public. Their object was to ascertain how much of the sewerage work at the Coves could be done by day labor. It seemed to the committee that day labor would be feasible for a good deal of the work there.
