

## The Comfort and Charm of Electric Table Cookery

### BREAKFAST? Do It the Hydro Way

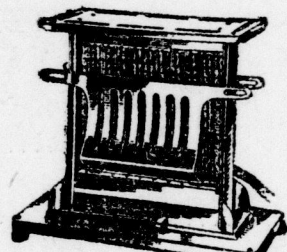

Ready in a Jiffy! No Trouble At All!!

Coffee and cold water in the Percolator. Put in the plug. In 7 or 8 minutes you serve it— piping hot and delicious to taste.

Connect the grill on high heat. Fry potatoes in lower dish. Bacon and eggs in upper dish. Ready to serve as soon as the coffee.

When coffee, bacon, etc., are nearly done, put bread on the toaster. Two slices a delectable brown on both sides in a couple of minutes.

LUNCHEON OR DINNER? Just as easy to prepare and just as charming. And the doing of it is real fun, because everybody likes electric food.
