

Offer \$5.00 As a Guarantee on Liquezone. The First Bottle Is Free.

A great deal is said in these days about Liquezone.

Millions are telling of the good it has done; for one home in five—wherever you go—has some one whom Liquezone has cured.

This remarkable product has become the talk of the world. In the past two years, the ink of nine nations have come to employ it.

But so great a good could not be done to humanity without harming the interests of a few.

The consumption of medicine has immensely decreased. The popularity of the few physicians who cling solely to the use of Liquezone is in daily lessening, while the use of Liquezone has been almost banished.

These facts have injured some interests. And a few of the injured attack what they blame for the injury. They denounce that which has done the good. The usual method is to insinuate that Liquezone itself is a medicine; that, despite our claims, it is a compound of acids and drugs.

Such statements are oft repeated; and we cannot doubt that some are led to believe them.

Our answer to all is this: The virtues of Liquezone are derived solely from gas, by a process requiring immense apparatus and from 8 to 14 days' time. The gas is made in large part, from the best oxygen producers.

Nothing whatever enters into the product, save the gas and the liquid used to absorb it, plus a touch of color.

And to emphasize this answer, we offer \$5.00 to any one who can disprove it.

In this business, methods which are subject to criticism are most carefully avoided. We permit no misrepresentation. No claims which have not been fulfilled. Our product is too vital to be trifled with. It is too valuable to be trifled with.

What we say about Liquezone is true.

What we claim it can do has, again and again, been done. And in any disease which we claim that Liquezone will help, we assume the whole risk on a two months' test with every patient who asks it.

Before we bought the rights to Liquezone, it had been tested for years in thousands of the most difficult cases obtainable. We found that diseases which had resisted medicine for years yielded to Liquezone. Diseases which had been pronounced incurable were cured.

The value of the product was placed beyond possible question, before we staked our fortunes and reputations on it. It was simply proved that, in germ troubles, Liquezone did what medicine could not do.

Then we gave the product away—gave millions of bottles, one to each of millions of sick ones.

We have published no testimonials; no evidence of cures. We have never asked a soul to buy.

Our method has been to let the sick try it without the cost of a penny; to let the product itself prove its power.

Most of you know the result. There is no neighborhood—no hamlet—no remote spot where Liquezone has not been used. It is everywhere.

And Liquezone is probably doing more to avert disease and to prevent it, than all drugs, all medicines combined.

How petty is that self-interest which would have you go back to the old methods—to the days before Liquezone! Back to the time when the use of Liquezone was unknown, or when no one knew how to meet it!

What Liquezone Is.

The greatest value of Liquezone lies in its germicidal power. It is a germicide so certain that we publish on every bottle an offer of \$100 for a diseased germ that it cannot kill.

Yet it is absolutely harmless to the human body. Not only harmless, but it is a tonic.

These are the known germ diseases. Nearly all forms of all these diseases have been traced to germs, or to the poisons which germs create.

These are the diseases to which medicine does not apply. For drugs cannot kill inside germs. All that medicine can do is to act as a tonic, aiding nature to overcome the germs. But these above all others—give Liquezone its value. There is no other way to directly end the cause of any germ disease.

These are the diseases to which medicine does not apply. For drugs cannot kill inside germs. All that medicine can do is to act as a tonic, aiding nature to overcome the germs. But these above all others—give Liquezone its value. There is no other way to directly end the cause of any germ disease.

helpful in the extreme. Even a well person feels its instant benefit.

Liquezone is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be given internally. Medicine is almost helpless in dealing with inside germs.

But germs are vegetables; and Liquezone—the very life of an animal—is deadly to vegetable matter.

Blue germs are green, and Liquezone is blue. There is no other way to directly end the cause of any germ disease.

50c Bottle Free

The way to know Liquezone, if you have never tried it, is to ask for a bottle free. We will then send you an order on a local druggist for a full-size bottle—a 50c bottle—and will pay the druggist ourselves for it. This applies only to the first bottle, of course—to those who have never used it.

The acceptance of this offer places you under no obligations. We simply wish to convince you; to let the product itself show you what it can do. Then you can judge by results as to whether you wish to continue.

This offer itself should convince you that Liquezone does as we claim. Give it to you, if there was any doubt of results. You want those results; you want to be well and to keep well. Then be fair with yourself; accept our offer to-day. Let us show you, at our expense, what this wonderful product means to you.

Liquezone costs 50c and 50c.

CUT OUT THIS COUPON

For the offer send me again, fill out the blanks and mail it to the Liquezone Company, 438-444 Wabash Avenue, Chicago, Ill.

My disease is _____

I have never tried Liquezone, but if you will supply me a 50c bottle I will take it.

D-39 Give full address—write plainly.

Any physician or hospital not yet using Liquezone will be gladly supplied for test.

CASES IN THE SESSIONS.

Lengthy List As Which Variety of Offences is Represented.

Active work will commence in the criminal sessions this morning. Judge Morgan on the bench. Yesterday's grand jury was sworn in. The grand jury is composed of the following: Alexander Mullin, foreman, Wm. F. Boak, Bert Carruthers, James W. Ireland, Jas. E. Edwards, John McNeil, John J. O'Neil, Harvey Snyder and Jonathan Webb.

The following cases are on the list for trial: Arthur S. and Annie W. Fitts, charged with the murder of John J. Kelly.

John C. Ferrier, charged with aggravated assault on his wife Mary. Mary Hodgins, charged with theft of \$4 from John McKinley.

George Davies, John Hudson and Richard Davies, breaking into Armstrong's home on Dec. 31.

YORK COUNTY AND SUBURBS Factories at the Junction

Mayor Smith and Councillors Armstrong, Ellis, Tovell and Wright Make a Committee.

Toronto Junction, March 7.—At the police court this morning F. W. Lane, a market gardener of York Township, was charged with non-payment of wages amounting to \$10.60, by a man named Bradley. Lane said he owed Bradley only \$5.60, and Magistrate Ellis gave the former judgment for that amount, with costs, which, with the \$5.00, will amount to \$10.60, the amount of the original bill of \$10.00 claimed by Bradley. In other words Bradley will get \$4.99 less than he claimed.

Bradley, who is a man of about 60, was arrested in getting Bradley's account cut down to \$5.00, but says that what he has gained in the respect he has lost in the law costs, but he stood for what he considered right, and was upheld by the magistrate.

Mayor Smith and Councillors Armstrong, Ellis, Tovell and Wright have been appointed a factory committee, with Councillor J. A. Ellis as chairman, to look into the matter of the late Francis Henderson, who was killed in a factory at the junction of the city of York and the township of York.

The business of this committee is to look up sites for the location of new manufacturing industries in York Township, and to extend the glad-hand to manufacturers who may be desirous of locating in a new town.

Mrs. Madge Henderson, widow of the late Francis Henderson, died this morning at her home on the old "Kendry" homestead, aged 73 years. She had been sick for several years, and her husband died at Barrowville, Ont., about 16 years ago. She resided with her daughter Miss Henderson, and her adopted daughter, Miss Jane Brown. The funeral will take place at 2.30 p.m. Thursday, to Humboldt Cemetery, Rev. Mr. Seaborn of St. Mark's Church officiating.

A successful concert was given last night by the Epworth League of Devonport, at the Methodist Church.

At a largely attended meeting of the York, E. & A. M., at St. John's Lodge, A. F. & A. M., Stanley Lodge, A. F. & A. M., John Colvin exemplified a board of trial for admission to a Masonic lodge in the different degrees in a manner highly creditable to themselves and the lodge, of which they are prominent as well as highly respected members.

Weston, Mass.—There has been considerable friction between the authorities and Electrical Engineer Leach, who has been running a smoothly in connection with Weston's electric lighting plant as most people thought they ought to be. The council meeting last night the climax was reached when somebody suggested that Mr. Leach should resign, and Mr. Leach replied: "I will resign to-morrow if you say so," exclaimed Mr. Leach, and the council took him at his word. It is therefore understood that Mr. Leach steps down and out to-day. The matter of extending the street car line to the western limits of Weston was again discussed. W. A. Baird, solicitor, representing the Toronto Subway Commission, said that the cash fare of ten cents to casual passengers, the company wanted to have done at a certain rate, and suggested that the council should not grant the latter privilege, but should object to the cash fare of ten cents, and an agreement will probably be reached on this basis. In their annual report, Auditor McKim has no objection to the cash fare of ten cents, and an agreement will probably be reached on this basis.

Police Constables Ironsides, Hyland, Dunn, and John Johnston, all the parties live in Newmarket.

Robert McGowan, indecent assault on a girl, charged with taking a false oath in a western polling booth, at the Durham election, charged with the last sitting brought in "no bill."

George Roach, charged with setting a gold watch from a drunken man, charged with setting a gold watch from a drunken man, charged with the last sitting brought in "no bill."

George Maguire, charged with tampering with ballots etc. in the municipal elections of 1904.

George Maguire, charged with tampering with ballots etc. in the municipal elections of 1904.
