

THE EVENING TIMES AND STAR ST. JOHN, N. B., TUESDAY AUGUST 2, 1910

ANOTHER VERY BUSY DAY AT THE Gigantic Sale of BOOTS and SHOES Union and Mill Street Stores

The crowds of satisfied customers that visited the sale yesterday proves that the people are awake to the opportunity now offered of procuring footwear at exceptionally low prices. As already explained the contemplated changes being made in styles and materials in the whole-sale departments necessitated the turning into cash of some thousands of pairs of shoes. The goods are all new, fresh from the factories this season. The prices are actually less than manufacturers are quoting to dealers today. The sale ends on Saturday Night Next, and as we anticipate a big rush during the balance of the week would suggest that all who can would try morning shopping.

REMEMBER

Sale Ends on Saturday

WHY CAN'T CANADIAN'S GET SOME OF THIS TRADE

American Clothing Sold in Scotland—Highly Praised

In connection with the announcement of two American houses that their ready-made suits could be obtained in the principal cities of Europe, Vice-Consul Thomas R. Jones reports from Glasgow on the introduction of American-made clothing in Scotland: "One of the largest tailoring and gentlemen's furnishing establishments in Glasgow has recently purchased from a prominent New York firm a line of ready-made clothing for men and is displaying the goods. This was the first order of the kind from this concern, and so far as ascertainable it is the first time any Glasgow clothier has placed before his customers American ready-made clothing. The firm in question is delighted with the experiment and is arranging to handle American clothing on a large scale, carrying a full line of overcoats, sack suits and tuxedos. The goods have already sold well and the demand is developing. The Glasgow firm admits that the finish on these American goods is better than can be accomplished by their tailors, regardless of the price charged. In other words, they have no tailors expert enough to finish the shoulders, collar and lapels of a coat with any material at any price as well as the American goods are finished. This firm purchased its own material and sent it to the United States to be made into the finished product, and the claim is made that these suits can be sold in Scotland at an even cheaper price than now obtains in the United States. For the last year this consular has greatly interested itself in the introduction of American ready-made clothing into this district, and now that the initial experiment has been made and has been attended with success, it seems that other clothing merchants in this city might be induced to put in stock a line of American clothing. The field is practically undeveloped, and there is a large number of men's furnishing and clothing concerns that could well afford to make the trial."

Red Rose Tea stands alone in its sterling quality. Its reputation has been earned by sixteen years of uniform goodness. No other tea even pretends to be better. Some may claim to be "as good" but why take a substitute when the price is the same as Red Rose?

FORMER CURATE OF TRINITY CHURCH IN CALIFORNIA

Rev. G. R. E. McDonald Assists in Dedication of New \$16,000 Edifice for His Work in Hanford—Bishop of California Laid Corner Stone.

The many friends here of Rev. G. R. E. McDonald, formerly curate of Trinity church, but now located in California, will be glad to hear that he is doing excellent work in his new field. For some years Rev. Mr. McDonald has been rector of the Church of the Saviour in Hanford, California, one of the oldest congregations of the Episcopal Church in the United States. So successful has been his administration and so energetic has he been that it has been decided to build a new church edifice costing \$16,000. The laying of the corner stone was attended with imposing ceremony on the afternoon of July 21, among those taking part being Rev. W. F. Nichols, Bishop of California. The Hanford Daily Sentinel of July 21 says of the new church: "The edifice occupies a ground space of 30x108 feet and will be 22 feet in height from the ground floor to the pinnacle. The design was drawn by B. C. McDougall, architect of San Francisco, and the contract was let to Trewitt & Shields of this city. The style is gothic and the foundation is of concrete. The walls will be of brick with pressed brick exterior. The seating capacity will be 300 and the total cost of the structure will be approximately \$16,000.

The same paper gives the following account of the service: "The ceremonies of the day were commenced at 8 o'clock A. M. with a service at the present Episcopal church, after which at the appointed hour of 9:30, to the strains of the organ, played by Mrs. R. Heathcote, the vested choir of the church followed by Rev. G. R. E. McDonald, rector of the Church of the Saviour, Bishop Nichols, Rev. C. S. Linsley, and Rev. D. O. Kelly, marched from the A. E. Horlock residence to the site of the new edifice chanting a hymn as they walked.

The reading of a responsive service commenced the ceremonies proper, which was followed by the prayer of Bishop Nichols, during which he solemnly marked the stone with the sign of the cross on each side, and at the close of the prayer, cemented the stone in its position with his own hands, and sealing the receptacle in which had been placed certain documents and data.

In the receptacle cut in the rock were placed by Rev. G. R. E. McDonald shortly before the ceremonies, the following: History of the church of Hanford; the key used at the institution of Rev. C. S. Linsley as the first rector of the church, and before being placed in the rock was inscribed by Rev. McDonald with the words: "Writing giving the history that surrounds it."

At 1:00 o'clock were delivered by Rev. D. O. Kelly, and Rev. C. S. Linsley and in the course of an eloquent address Bishop Nichols stated that the parish was more closely connected with the mother church in England than any other church in the diocese, as its inception came directly from the mother church.

What a Great Man Said to the Great American People
Parisian Sage is a discovery of a celebrated scientist, who spent the best years of his life in perfecting this great hair tonic.

In giving his recipe to the American people he said: "This is the most delightful hair dressing in the world, and it is more than that, it cures dandruff by getting the germs that infect the roots of the hair; it stops falling hair; it gives vigor and strength to the hair roots. Any leading druggist sells Parisian Sage at 50 cents a large bottle and guarantees it to do all that is claimed for it, or your money is refunded. If you do not reside near a druggist who sells Parisian Sage, send 50 cents to Groux, Mfg. Co., Fort Erie, Ont., and a bottle will be sent you all charges prepaid.

Enterprising Yorkton

The Times-Star has just received a profusely illustrated and neatly printed booklet from the Yorkton Board of Trade descriptive of the advantages and growth of Yorkton, the metropolis of Eastern Saskatchewan and the resources and possibilities of the rich farming district of which it is the commercial and railway centre. Yorkton is the largest grain shipping point in Western Canada, and annual grain exports being 2,000,000 bushels, and farm lands can still be purchased near the town at a reasonable figure. Parties interested can obtain a copy of this booklet by writing the secretary, Yorkton, (Sask.) Board of Trade.

Fashion Hints for Times Readers

Every woman who is slim enough, young enough to wear a middy blouse, should have one of the delightfully comfortable middy blouses to make the summer vacation a pure joy. No pulling out at the belt with one of these loose jumpers. Sleeves may be rolled back to the elbow, and the open collar insure comfort on warmest days. The middy blouse may be worn with a white duck skirt to match, or for rougher sports there may be a khaki skirt or a light khaki skirt of gray or brown material.

The Evening Chit-Chat

By RUTH CAMERON

"TAKE the flowers back, dear," said an unusually sweet voice behind me as I sat in the park the other afternoon. I looked around instinctively, and saw the lady of the sweet voice sitting on the settee next me with a baby in her arms and a boy of six or seven standing beside her. The baby had a big pink rose in her hand and the boy stood frowning at her.

"Take the rose back, dear," said the sweet voice again. "You know we never give things up when we can't give them up happily. You can't let little sister have the rose and be happy yourself so you must take it back."

"Yes, dear, you must. You know that a mother's rule. Mother wants you to be unselfish, but not unless you can be pleasant too. People who are unselfish and from all the time aren't nice. Mother doesn't want that kind of a boy"—and the lady of the sweet voice twisted baby's ungrateful fingers from the flower and gave it back to the boy.

Wasn't also a wonderful mother—to realize and try to teach her children the big, big lesson that frowning seldom tells the wrong kind of self-denial to lay such stress on the right kind. Doubtless she had lived with one of those dark folk whose unselfishness is harder to get along with than cherry folia selfishness.

I once knew a woman who was a very bad case of this type. She considered herself a Christian, but her Christianity was only strong enough to attain the self-denial with out ever reaching to the smile. She was during a week when she had given up a long desired trip because both she and her sister couldn't go, and she felt the need of the change the more. Yes, of course, that was very good of her. But didn't it almost, if not quite, nullify that goodness that her sour looks and sighs and teary fits made the week a most unhappy one for the rest of the family?

There is a girl among my acquaintance who is perpetually petted and catered to and waited upon as an only child. The prettiest room in the house is hers. Her father and mother and aunt wait on her by inches. The best of everything is always saved for her. She is absolutely selfish but she is happy. She may be less moral than the other woman but I think I'd be just as ready to live with her.

And last you think I myself am a bit unmoral in my preference for happy selfishness to unhappy self-sacrifice let me refer you to a very great and much loved apostle of the doctrine of "self-denial plus smile or not at all."

"Noble, self-denial is not to be admired, not even pardoned if they bring bitterness. It is one thing to enter the kingdom of heaven maimed; another to maim yourself stay without. Gentleness and cheerfulness, these come before all morality; they are the perfect duties."

—Robert Louis Stevenson

Daily Hints for the Cook

CARROT SOUP.

Scrape the carrots and cut in thin slices, cook them until tender, with a stalk of celery and a few slices of green pepper. Add the peppers, and rub the carrots through a sieve. Mix two tablespoonful of flour with one of milk and cook until gradually one pint of milk and cook until smooth. Add the carrot, season with salt, pepper and nutmeg, and a little cream, if at hand.

FIGARO HALIBUT.

Figaro halibut is a delicious dish. Wipe a piece of halibut weighing 2 1/2 pounds with a piece of cheesecloth wrung out of cold water and steam (that is, cook over boiled salt water or boil until tender. Drain, using the hands, into compact form and mask with sauce. Garnish with thin slices of lemon sprinkled with paprika and sprigs of parsley. For the sauce mix one tablespoonful of parsley finely chopped,

one gherkin finely chopped and two tablespoonful of tomato puree. Add to three-fourths of a cupful of mayonnaise dressing. To obtain tomato puree cook one-half can of tomatoes very slowly until reduced to three tablespoonful, then rub through a sieve.

HAM TIMBALES.

Cold boiled ham is very well liked when thinly sliced, and all remnants which do not slice to look attractive may be utilized to the best possible advantage in a variety of ways. Ham timbales call for remnants. Finely chopped cold boiled ham, there should be two cupfuls. Put in a mortar and pound, adding one teaspoonful of mustard and a few grains of cayenne. Add one teaspoonful of granulated gelatin, dissolve in one-half cupful of hot water; then add one-half cupful of heavy cream, beaten until stiff. Turn into timbale molds first dipped in cold water and chill. Remove from molds to a serving dish and garnish top of each with a sprig of parsley.

into the west end yards, where the cars will be temporarily stationed.

After being sorted they will be hauled to the coal docks, freight sheds, elevators or steel docks as occasion requires.

Winnipeg, Aug. 2.—Already farmers have begun to petition for help for harvesting operations, but unless there is a large influx from the east it is probable there will be a shortage in the labor market. It was announced that cheap excursions would be run from the Maritime Provinces, Quebec and Ontario.

So far all applicants for work on farms have been placed as soon as they made their wants known.

Winnipeg, Aug. 2.—Railway contractors in the west say they will have employment for all farmers and teams who may be secured on account of the harvest fallow.

Dr. Martell's Female Pills

EVENTUALLY THE STANDARD Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven worth. The result from their use is quick and sure.

Your money back if Purity Flour does not prove entirely satisfactory in the baking.

DON'T simply buy flour from the dollar and cent side of it. Buy high-quality flour. That means PURITY FLOUR. The first little extra cost is more than made up by the extra number of loaves of bread it makes by the superiority of the bread and pastry in sweetness of flavor and nourishing qualities. Buying Purity Flour is a safe investment. You get large returns, not only on account of Purity's ability to produce more, but because Purity contains the greater nutriment and the vim of a strong hard wheat flour. Food made from Purity Flour gives the consumer health, snap and force, which cannot be gained from the use of weaker soft wheat flour.

"MORE BREAD AND BETTER BREAD" PURITY FLOUR

You can buy as little as a 7 pound cotton bag or in 14, 24, 40, and 98 pound sacks. Also in barrels and half-barrels

Purity may cost a little more than some flours but you'll find its more than worth the difference. To be genuine, must bear the Purity trade mark.

COMMON COUNCIL Special Meeting to be Held to Consider Paving Matter— \$3,000 More Voted for Campbellton—Baxter Re- signs Chairmanship

At a meeting of the common council yesterday afternoon the Haasam paving contract was vigorously debated. Ald. Potts introduced a motion that Engineer Murdoch be dismissed from the service of the city. This was seconded by Ald. Holder, but when it was put, it was lost, only the mover and seconder voting for it. Ald. Jones moved that the mayor appoint a committee of men capable of investigating the work who shall make an investigation and report their findings and recommendations to the board. This latter motion was not discussed at the time of its introduction on the ground that it was really new business. Owing to the press of other matters it was not taken up before adjournment, but Ald. Jones said he spoke of the matter to the mayor afterwards, and His Worship said he would call a special meeting in a few days and at this matter would come up.

A further grant of \$3,000 was made to the Campbellton fire sufferers. This brings the city's contribution to date to \$5,000, and it was stated that the county council intended to contribute \$2,000.

There was quite a discussion over the proposed extension of the water and sewerage in Douglas avenue, and it was decided to consider the tenders in general committee.

On motion of Ald. Potts, the bills and by-laws committee was instructed to prepare a bill authorizing the city to forbid the erection of any more electric light or telephone poles in the city, and to have the present ones removed in five years.

On the report of the treasury board being taken up an over-draft for the sum of \$7,000 was allowed. The recommendation that the recorder be instructed to take action with reference to the county assessment of city property in connection with water supply outside the city limits created some discussion and some opposition. The vote of the additional aid of \$3,000 to Campbellton created some discussion also, all, however, strongly favoring it. Ald. Potts hoped that Campbellton would tie up the money meant for relief as had been done in this city, and he felt that the council ought to ask the government to amend the act, so that they could use the \$12,000 of the fire fund here for Campbellton. Mayor Pinks said that about \$2,400 had been left at his office.

Ald. Potts rising to a question of privilege read an editorial from the Globe which he said reflected on the aldermen and said that the Globe ought to discontinue its attacks on the city council.

ing taken up the action recommending the acceptance of the new street, Cedar Grove Crescent, was amended to provide that the owners or lessees of the property build all retaining walls necessary. Before the report was adopted Ald. Scully moved an amendment that the board instruct the engineer to adhere to the specifications in all contracts and he referred to the doubts in the public mind in connection with the main street paving. Ald. Baxter thought that this would imply a direct charge against the engineer. Ald. Potts thought that the work was practically done and that there was no question in the public mind but that the contract for the public paving had been juggled with. When the city engineer wanted authority for the contractor to use cement instead of stone in the retaining walls he went to the council for it and he felt that he had no more right to change the specifications of the contract to be put down on the street. He moved that the engineer be dismissed from the service of the city. This was seconded by Ald. Holder, but the mover and seconder only, voted for it.

Ald. Willett gave notice of motion that the city would pay the expenses of any citizen to bring suit against the Haasam Paving Company. Before the report was adopted as a whole, Ald. McDougal read a communication from the secretary of the board of trade with reference to the West side transfer, enclosing a resolution passed recently by that body.

The report of the safety board being taken up, the tenders of James Hurry, for painting the city market, \$418, the St. John Iron Works new boiler for the police building, \$800, Harry S. Westmore new floor in ladder house, \$208, were accepted. William Reid, in addition to the report, was granted a renewal lease of a lot on the corner of Pitt and Mecklenburg street.

The report of the water and sewerage board was taken up and it was agreed that \$45 be accepted from Miss Elizabeth Nugent as water rates providing it was paid at once. F. R. Whipple was allowed a refund of \$8 on water rates. The matter of a public sanitary in Market Square was referred back. The payment of \$750 as a settlement of Engineer Murdoch's claim was made on condition that in future no claim for damages be brought by the city engineer or his heirs.

The communication of the tenders for a readjustment of license fees was referred to the bills and by-laws committee. A communication from the attorney-general regarding a fence on Rodney wharf was referred to the treasury board, and a letter from Dr. Melvin, chief health officer regarding Sheffield street was sent to the board of works. An invitation from the American League of Municipalities to the city to be present at the convention at St. Paul was handed to the mayor.

Appointment of Ezekiel McLean, Seafair and Robert Crawford created a lot of discussion and was made Crawford's appointment confirmed.
