

## SKILL SHOWN BY LOCAL BOYS HIGHLY PRAISED

Prize Winners in Manual  
Training at Exhibition  
Announced

One of the most interesting exhibits in the Exhibition just closed was that of the Manual Training School of which A. G. Gunter is the director and through which department of the civic educational system many Saint John boys have already passed. This exhibit of useful and ornamental furniture was made in a well-lighted space in the rear of the bandstand reserved seats as in former years and proved a centre of pleasurable scrutiny.

### BOYS WINNING PRIZES

It will be interesting for those who saw the exhibit to know how the awards were made. The prize winners were as follows:

Best collection of drawings, Grade 8—1st, Forbes Elliott; 2nd, Herbert Jones.  
Best collection of drawings, Grade 7—1st, Philip Bailey; 2nd, Arthur Wyle.  
Best collection of woodwork, Grade 8—1st, Forbes Elliott.  
Best collection of woodwork, Grade 7—1st, Philip Bailey.  
Best example of wood carving—1st, Carl Woodley; 2nd, Lloyd MacFarlane.  
Best piece of furniture, Grade 8—1st, Frank Shannon; 2nd, Douglas Stammers.  
Best piece of furniture, Grade 7—1st, Gordon McKinney; 2nd, Walter Ring.  
Best example of wood finishing on turned surface—1st, Blair Lipsett; 2nd, Percy Ring.  
Best example of wood finishing on flat surface—1st, Frank Shannon; 2nd, Walter Ring.

### BEST DISPLAY YET

The display of furniture made by the schoolboys was considered by competent judges to be the best yet submitted in competition. It consisted of the white wood itself, semi-finished articles and fully-finished product. The exhibit of mechanical drawings was particularly complimentary to the juveniles and teachers alike. Supplementing the work of the boys was a group of furniture pieces turned out by the instructors, among which was a richly carved walnut chest-of-drawers table built by J. Neal Dow and a delicate console table in mahogany, the work of Instructor A. G. Gunter.

### WHAT THEY MADE

For those not privileged to enjoy the exhibit through personal inspection an enumeration of some of the pieces indicates the scope of the work so successfully attempted by the lads. They included three bookcases in varied designs, a music record cabinet, tea wagon, floor lamp, bridge and table lamps, piano benches and tables, serving trays, candlesticks, umbrella stand, drop-leaf kitchen table, library table and pedestals. The models from which the boys worked—or rather the models they created—were not easy ones by any means, but intricate, tricky, snappy stuff such as a prospective buyer sees in the smartest furniture emporiums.

### BOYS MADE "HANDY"

Manual training has been on the curriculum of the Saint John schools for some 20 years. It has become integral to the school life of the boy students and has shown a steady advance in the quality of the work turned out. Many a lad who has been considered other than "handy" with tools has had a talent for manual work uncovered and developed through the medium of this department of our local educational system," said a teacher today. It was said by a competent judge the work turned out by the boys of the Saint John school compares favorably with the product of the best furniture factories.

### TEACHING STAFF

There are at present four teachers in the manual training department, including A. G. Gunter, the director, C. H. Cochrane in West Saint John, J. Neal Dow in the Indian school and Miss Bessie Holder in the Waterloo street branch. James D. MacLean who has been a teacher in the department has resigned to enter the Vocational School and his successor has not yet been appointed.

## DEATH FOR THREE IN POISON DRINK

Five Others Seriously Ill After  
Shore Party in New  
Jersey

NEW YORK, Sept. 14.—Three men have died in the Newark City Hospital and five others are seriously ill there as a result of drinking denatured alcohol. The eight men were found unconscious on the shore of the Morris Canal. There were indications that a party had taken place and that the beverage which was later said to be denatured alcohol had been drunk out of cups and bottles. It appeared to have been purchased from paint shops.

The beverage of which the men are said to have partaken is said by the police to be known as "smoke." According to the police it can be purchased for 15 cents a pint in all shops where materials for paints are sold.

## HUSBAND GASHES WIFE AND HIMSELF

LONDON, Ont., Sept. 13.—Falling in an attempt to slash the throat of his wife with a penknife, Arthur Warfield, 65 years old, Stratford, next tried suicide with the same instrument in a Dundas street home shortly before noon today. Both are now in St. Joseph's Hospital, but they will recover. Dr. W. J. Tillman is in attendance. Mrs. Warfield is slashed about the face and body.

## ENGLAND'S PRETTIEST COUNTESS

The Countess Poulett, widow of the seventh Earl of Poulett, and mother of the present earl, is called the most beautiful countess in the British empire. Her husband was killed in action in the world war.

## Veterans Engage In Tennis Exhibition

PHILADELPHIA, Sept. 14.—Davis Cup heroes of other years shared the spotlight today at the Germantown Cricket Club when Dwight F. Davis, donor of the famous tennis trophy and now Secretary of War, teamed with William J. Clothier of Philadelphia to defeat Norman E. Brooks, veteran Australian wizard, and Beals Wright of New York. The scores were 6-0, 7-8, 8-6, after a tussle sparkling with tennis that would have done credit to many a young star of today. Averaging now about 50 years in age all four of these men held national titles in their prime. All of the veterans are left-handers except Clothier.

## PYTHIAN SISTERS RESUME SESSIONS

Moulton and Martello Temples  
Hear Reports From Grand  
Temple

Moulton Temple, No. 14, Pythian Sisters, at its first meeting after the summer vacation, held last night in Pythian Castle, heard with much interest an excellent report of the meeting of the Grand Temple in Halifax, August. The report was presented by Mrs. Mildred Porter. The M. E. C., Mrs. Don Cameron, presided and the meeting was well attended. Mrs. B. Smith and Mrs. W. Colwell were appointed a committee to have charge of the decoration of the hall at the New Brunswick Orphanage fair at which the Pythian Sisters will conduct a sale of tickets for the hope chest, which is filled with dainty articles made by the members of the order.

## BODY OF DROWNED B. C. PASTOR FOUND

VANCOUVER, B. C., Sept. 13.—Missing since August 29, when he left in a motor launch, the body of a pastor has been found in a surprisingly short time. A new combination of yeast vitamins with vegetable iron, which was found floating in the water near the site of the launch, was found by E. Drew, while cruising in his gas launch.

## Easy To Gain Weight With Yeast and Iron

New Combination of Yeast  
With Vegetable Iron  
Quick Way to Build  
Up Weight

Thin, run-down and underweight men, women and children can now improve their health, increase their energy and regain normal weight in a surprisingly short time. A new combination of yeast vitamins with vegetable iron, renews the action of sluggish blood cells, drives out dangerous body poisons, increases energy and supplies the system with the vitamins that build up weight. For years yeast has been known as a rich vitamin food, but not until we perfected "ironized yeast"—which comes in concentrated tablet form, was it possible to take yeast and iron in the right proportions to build up weight.

Vegetable "Iron" when combined with yeast is quite easy to digest, therefore better for the system. And "yeast" when ironized, becomes just as beneficial as ordinary fresh or cake yeast.

## WILL \$2,000,000 FIRM TO EMPLOYEES

New York Upholsterer Also  
Gives Nice Sums to Those in  
Household

NEW YORK, Sept. 14.—Under the will of Edward Daniels Faulkner, filed in the Surrogate's Court here, 14 employees of the upholstery firm of Johnson & Faulkner, Inc., at 85 East Seventeenth street, who served "long and faithfully," inherit that business of which the testator was president and which has an estimated value of \$2,000,000.

Besides this gift to his business associates and employees, Mr. Faulkner left \$10,000 to each of his city and country household employees who had been in the family service for 10 years or more and \$2,000 to each who had been employed for less than ten.

Mrs. Marianne G. Faulkner, of 9 East 78th street, the widow, is the residuary legatee. Mr. Faulkner made certain contingent provisions in his will in case his wife should not survive him, which carried public bequests of \$1,400,000, but these are ineffective.

## SENTENCED TO HANG

Bachelor and Negro Both Con-  
demned as Slayers of Judge  
Smith

WETUMPKA, Ala., Sept. 14.—Clyde Reese Bachelor and Hays Leonard, a negro, have been sentenced to be hanged October 22 for the murder of Judge Lamar Smith, Bachelor's father-in-law. The men were convicted at separate trials, Leonard testifying that he shot Judge Smith at Bachelor's instigation. The state contended that Bachelor wanted to inherit the judge's money. Each filed notice of appeal which automatically stays execution.

BE CAREFUL what you preach so that you will be able to practice it if the occasion arises.

## EXPECT 530 BY WEDNESDAY IN NEW DAY CLASSES

Juniors Are Placed at Vocational; High School Groups  
Tomorrow

It is expected that by tomorrow there will be some 530 students attending the day classes at the Vocational school.

Organization of the classes of the vocational groups, Grades 7 and 8 pupils was completed yesterday. There were 203 in attendance, about 75 being girls. Some others, who intend entering this group sent word that they were unable to be present yesterday but their places are reserved.

The cafeteria at the school was in operation today as about 80 of the pupils in the junior school had ex-

pressed a desire to have lunch there. The teachers who are giving academic instruction in the junior school are L. Newton Panjoy, principal; Miss Louise Tapley, Miss Harriet Roberts, W. H. Hayes and David S. Connolly. Mr. Hayes teaches science and geography and Mr. Connolly gives some instruction in mathematics. The pupils will spend 12 periods each week in the various shop and domestic science courses under the teachers of the purely vocational subjects.

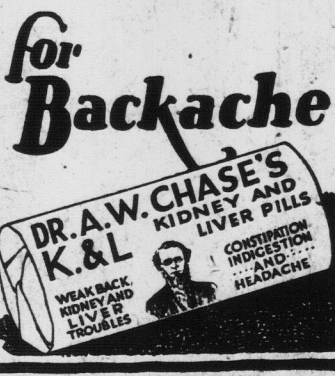

TEACHER OF ENGLISH  
Fletcher Peacock, director of the Vocational School announced today that Miss Kathleen McLean of Wolf-

ville had been appointed as teacher of English and Expression and would give instruction in these subjects to all the pupils in the High School grades at the Vocational School. She is a graduate of Acadia University and of the Margaret Eaton School of English and Expression in Toronto and has been teaching in a Junior College in Tennessee. Her mother was dean of women at Acadia University. Miss McLean is also a reader and entertainer of high standard.

Mr. Peacock said that it was the intention to teach English at the Vocational school through the medium of expression, making full use of the auditorium. He expected great things from this department.

HIGH SCHOOL GROUPS  
The classes for the High School groups of the vocational school are to open tomorrow morning and when these pupils are also at work there will be about 530 students attending the day classes in the school. Organization of the night classes has not yet been completed. They are not to be in operation until next month.

Turned Inside Out.  
(Punch.)  
A lady writer in an evening paper confesses that people who are "superficial to the core" refresh her. We can well believe it; too often superficiality is only skin deep.

## PARKER DECLARES TOO MANY NEW BOOKS

Sir Gilbert Says Public Getting  
Less From Reading—He  
Has One

New York, Sept. 14.—Before sailing for England on the S. S. Leviathan, Sir Gilbert Parker, the British novelist, said that too many books were written and published both here and in England.

"I think it is dreadful," he continued. "I suppose there are three times as many new books and magazines published today as there were thirty years ago. I think this multiplicity of books and magazines is injurious to thinking. The public are selecting their books less carefully than thirty years ago, and they are assimilating less from what they read. There are too many authors over-writing."

Sir Gilbert asserted that the average new book does not have as large a sale as the average book published thirty years ago, a condition he attributed to automobiles, radio, and the films. He recalled that his book, "The Right of Way," published in 1901 had a sale of one million copies in the United States alone.

## When The Babies Are Cutting Teeth THE MOTHER SHOULD USE

During baby's teething time, the bowels become loose and diarrhoea, dysentery, colic, cramps, etc., manifest themselves; the gums become swollen and cankers form in the mouth. This is the time when the mother should use "Dr. Fowler's," and, perhaps, save the baby's life.

## Fashionable Fur Coats

A Fur Coat is not a luxury for the woman whose business takes her out in all kinds of winter weather. It is a sensible means of safeguarding her health, ensuring her comfort and at the same time achieving a smart appearance.

We have certain Fur Coats which will appeal to the discriminating woman. The more durable furs, such as Hudson Seal, Persian Lamb and Raccoon are employed.

Linings are of rich and exceptionally durable Fancy Crepes. We will gladly hold a coat on payment of a small deposit, and remainder to be paid on our easy payment plan.

Hudson Seal Coat—Self trimmed or contrasting trimmings of Alaska Sable, Grey Squirrel, Kolinsky, and Jap Marten—45 in. in length.

Persian Lamb, self trimmed, Alaska Sable and Grey Squirrel trimmed, 43 in. and 45 in. long. Iceland Beaver, self trimmed, or trimming of Taupe Lynx. Three lengths. 36 in., 40 in. and 45 in. long, also a nice assortment of Muskrat, Raccoon and Mole Coats.

All models latest styles, nicely lined and finished.

"NO TIME LIKE THE PRESENT"—If you are considering having your fur coat remodelled or repaired, "delays are dangerous." Particularly during the busy season, and may mean long waiting and inconvenience to yourself.
