FROM RIO TO

'FRISCO AFOOT

Buenos Aires, Jan. 3.—(Correspon-
dence Associated Press)—Carel Dericks,
a Dutch "globe-walker," who is travelling
afoot from Rio de Janeiro, Brazil, to
San Francisco, U. S. A., as representative
of the Handelsblad, of Amsterdam, ar-
rived here today from the Brazilian capi-
tal, which he left on Oct. 20.

From here, Dericks will cross the
continent over the Andes mountains to San-
tiago, Chile, whence he will make his
way north through Mexico and thence
into California. He hopes to arrive in
San Francisco before June 1, completing
on foot a journey of about 12,400 miles.

For defence while travelling through
wild sections he carries a hollow cane
containing a rapier. While journeying
through Santa Catarina province in Brazil,
he was threatened by Botokud Indians,
but their hostility was changed to
curiosity, he said, by the sudden
transformation of his stick into a sword.

BROCKVILLE TO RAISE

FUND FOR PUBLICITY

Out to Support Industrial Propaganda
Efforts.

Brockville, Ont., Feb. 3.—Local
topic of discussion at a citizens' meet-
ing called by Mayor Lewis with an
attendance of some 350 ratepayers. The
institution of a campaign to raise the
sum of \$5,000 annually for three years
to pay, with an equal sum which the
town council and Public Utilities Com-
mission will be asked to provide for pro-
paganda work, was decided upon by
the meeting. There is now a surplus of
\$100,000 in the St. Lawrence Hydro-
Electric system with which the Brockville
plants are now hooked up, and if this
were made use of the chair-
man of the Public Utilities Commission
stated that the rates would drop from
\$25 to \$18 per horsepower. This will
be utilized to attract American indus-
tries here.

In connection with the meeting it
was decided to organize an investment com-
pany to sell bonds to local subscribers

What are Peps

Peps provide a new treatment for
coughs, colds and lung troubles.
They are little tablets made up
from fine extracts and medicinal
essences. When put into the
mouth these medicinal vapors,
which are breathed down direct
to the lungs, throat and bronchial
tubes. The Peps treatment is
direct. Swallowing cough mix-
tures into the stomach, to cure
ailments and disorders in throat
and lungs, is indirect. Peps are
revolutionizing the treatment of
colds and their price is within the
reach of all. All dealers, 50c. box.

for the purpose of investing the proceeds
in industries which decide to locate in
Brookville. Mayor Lewis announced
that application had been made to To-
ronto for provincial bonds to erect fit-
ten houses under the housing commis-
sion plan.

TO REPORT ON RAILWAY MATTER

Present transportation facilities and
the proposed increase in railway freight
rates, particularly as applied to the
maritime provinces, were discussed
yesterday afternoon in the Board of
Trade and executive of the mar-
itime division of the Canadian Manu-
facturers' Association.

It was pointed out, during the meet-
ing, that delegations to Ottawa and re-
presentations made by the various com-
mercial bodies, have had no effect in
relieving the transportation problem and
with the hope of getting some direct
action a special committee was ap-
pointed, which will meet this morning
and go into the matter in detail.

The committee is composed of R. D.
Paterson, C. H. Peters, L. J. Seiden-
sticker, R. E. Armstrong, L. W. Simms,
Alexander Wilson, George A. Kimball
and H. R. Thomson. W. S. Fisher, vice-
president of the Manufacturers' Associa-
tion, was chairman of the meeting.

IMPERIAL THEATRE CONTINUES ITS HITS

"The White Heather," a Drury
Lane Production, An-
other Remarkably Fine Pic-
ture—Some Marvel-
ous Scenes.

To be sure one cannot see all the good
pictures that are presented but "The
White Heather," which concludes at the
Imperial today is an extraordinarily fine
one. It is a masterpiece of motion
picture direction and photography and
a triumph for Maurice Tourneur, who
directed the production. It is rather of
the real old type of Drury Lane melo-
drama from beginning to end, the pic-
ture will all out on the stage and the
thrills that the camera has made
possible and which could not be secured
on the stage.

The big scene in the play is the un-
derwater battle of the hero and the vil-
lain in diving suits. This Tourneur se-
cured through the use of the William-
son underwater photographing device
from the photographer that there is
nothing better that could be asked for
than some of the shots in this pic-
ture. Some of the scenes are truly ex-
quisite, and in several places the titling
is delightful. The Scotch nobles-
man's castle dining hall—so sweetly
eased by the orchestra's Scotch airs—was
a wonderfully fine setting.

"The White Heather" is a picture
that is big from a great many angles,
and combined with the Imperial's us-
ual good mixed shorter subjects rounded
out a charming evening. The St. John
harbour views and Commercial Club film
was quite a hit of enterprise.

SEIZE GREAT WHISKEY CARGO

The Yarmouth's Stock of \$4-
800,000 Value at New
York.

New York, Feb. 3.—A whole shipload
of whiskey will come into Uncle Sam's
possession today when the \$4,800,000 li-
quid cargo of the Black Star liner Lin-
coln is seized by federal officers.

The Yarmouth, owned and operated
by negroes, has been a mystery ship
since the day before the prohibi-
tion amendment came into effect. She
sailed from this port for Havana. When
two days out she turned back for re-
pairs.

Back in harbor it was noticed that the
ship had a mighty shakedown in the
whiskey cargo, and finally the authori-
ties caught workmen smuggling wet
goods ashore.

BRUTAL MURDER OF NEW YORK GIRL

Battered to Death in Father's
Apartment by Stranger
Who Called to Rent Room.

New York, Feb. 3.—Renie Poole, a girl
of seventeen, was found brutally murder-
ed in her father's apartment, No. 72
West 89th street, yesterday afternoon.
The victim, it is believed, had been
who called a short time before in answer
to an advertisement of a room to let.

The assassin battered the girl's head
with some blunt weapon. Any one of
the many blows struck would have
been sufficient to cause death.

The murderer left nothing behind that
might be used by the police in their
search for him. The weapon used to
smash the skull of the girl was left no clue
save a general description of the man.

LABOR REQUESTS

IN MANITOBA

Legislative Changes Urged
Upon Government of Prov-
ince.

Winnipeg, Feb. 3.—Adoption of the
principle of adult suffrage in all elections
throughout Manitoba, extension of the
compulsory school attendance age from
fourteen to sixteen years, free text
books in all grades, enlargement of the
mother's allowance act and abolition of
all election deposits are legislative re-
forms urged upon the government yester-
day by a delegation representing
Manitoba labor. Many amendments to
existing acts were also proposed.

No definite pledge was given by the
government on any of the points raised,
but consideration of the entire pro-
gramme was promised.

TENANTS IN NEW JERSEY ORGANIZE

A "RENT STRIKE"

Jersey City, N. J., Feb. 3.—More than
1,600 New Jersey tenants organized a
"rent strike" last night. The city law
department will defend the strikers with-
out cost.

Imperial Veterans

Convene in Winnipeg

Winnipeg, Feb. 3.—Many delegates to
the Imperial Veterans' convention, which
opened yesterday with delegates
present from Winnipeg, Regina, and
Vancouver, advocated attempts to regain
representation in all civil and political
bodies, because of the difficulties experi-
enced at the present time in having their
demands recognized.

Mayor Grey expressed the hope that
many ex-imperial soldiers would settle
in Canada and advised the delegates to
prepare the way for the men. It was
said that the Soldiers' Civil Re-establish-
ment will become an imperial organiza-
tion for the housing of imperial as well
as Canadian ex-soldiers who are residing
in Canada.

AFTER 16 YEARS EXPERIENCE A DOCTOR SAYS

Zam-Buk

HAS NO EQUAL
FOR SKIN DISEASES

"For sixteen years I have used
Zam-Buk in my practice, and have
always found the results from its appli-
cation highly satisfactory. In my opin-
ion there is nothing to compare with it
for skin troubles—from roughness and
irritation to chronic skin diseases. With-
out a doubt, Zam-Buk has wonderful
curative properties, and when a patient
requires such a remedy I always pre-
scribe Zam-Buk."

This letter of appreciation has just
been received by the proprietors of
Zam-Buk from Dr. A. P. Shibley, of
Washington, D.C. The medical profes-
sion is always slow to recommend a
remedy, and the fact that many doctors
now prescribe Zam-Buk, is one of the
surest proofs of its superiority.

Zam-Buk's superiority is due to its
herbal composition. It is all medicine,
with absolutely no animal fat, and is so

blended, refined and concentrated that
it contains the maximum germ-destroy-
ing, soothing and healing power. Owing
to its absolute freedom from animal fat,
Zam-Buk cannot become rancid, but
will keep indefinitely without losing
any of its strength or purity. While the
healing power of Zam-Buk, and its
power to penetrate to the root of skin
disease is so great, yet its action is so
mild, that it is the ideal preparation for
the pimples, eruptions, and rashes which
so often occur amongst young children.
Mothers agree that it is the best balm
for baby.

Zam-Buk should be
handy in every home
for cuts, burns, scalds
and bruises. Equally
good for eczema, ring-
worm, ulcers, absces-
ses, boils, pimples,
blood-poisoning and d
piles. All dealers 50c. box.

Send this advertisement
to a box of paper and 10
c (for return postage)
to Zam-Buk Co., Toronto,
and a free trial box will
be sent you.

THE LORD BEAVERBROOK SCHOLARSHIPS

The Lord Beaverbrook scholarships
committee announced that the first five
annual scholarships, founded by Lord
Beaverbrook, will be open for award to
candidates who pass the University of
New Brunswick matriculation examina-
tion to be held in July next.

These scholarships, each of the annual
value of \$325 may be awarded for uni-
versity courses in arts, sciences, applied
science, theology, law, medicine, engineer-
ing and forestry, and will be tenable in
each case for the period of four years at
any Canadian university which (ex-
cept in the case of theology) is not a
denominational institution.

While the University of New Brun-
swick matriculation examination will be
adopted as the test of the relative edu-
cational merits of the candidates, the
committee in making the awards will, in
addition to their scholastic attainments,
take into consideration the financial po-
sition, moral character and industrious
habits of the candidates, so that those
may be selected who are viewed from
all standpoints, most deserving.

By the terms of the trust, three of the
five scholarships must be awarded to
students outside the St. John and Freder-
icton districts.

LAKE UNDER NEW YORK CITY

New York, Feb. 3.—An uncharted
lake, 35 feet under Lexington avenue,
near 74th street, will cost New York
city \$324,789 under a decision rendered
by a jury in the supreme court.

The sum was awarded to the con-
tracting firm which built the Lexington
avenue subway and which had based
its bid on charts furnished by the pub-
lic service commission. The contractors
were obliged to drain the lake and also
to fill a river bed found at a depth of
60 feet.

Sir Robert Borden, it is now said, is
expected to land in England today on
the battleship New Zealand in company
with Admiral Jellicoe, and may later go
to France.

40 Years Old—and Over

For forty years, the human machinery has been working without rest.
For forty years, the Heart has been pumping blood through the body,
every second of every day in all these years. For forty years, the
Stomach has been helping to digest three meals a day. For forty years,
the Kidneys and Bowels have been carrying off the waste of the body.

After forty years, these vital organs of the human system begin to slow
up. Very gradually; almost imperceptibly. But there comes a lack of
nimbleness to the limbs, an inclination not to hurry. One notices that
favorite dishes do not agree with the stomach. The Liver grows less
active and Constipation develops. Sometimes, there are Headaches,
Pain in the Back, Bilious Attacks, or a Rheumatic twinge makes itself
felt. One has to be careful about the diet, avoid draughts and wet feet,
and wear heavier clothing. After 40, one begins to believe there is
something
