

A GOOD PLACE TO BUY GOOD CLOTHES

GILMOUR'S CLEAN-UP SALE

Is In Full Swing

We have made some of the most radical price reductions that have ever prevailed on Gilmour Quality Suits.

For instance: One lot of desirable suits that sold at \$18.00 to \$25.00, and were well worth the money. "Classy" styles, NOW \$10.00 ONLY.

Many very desirable lines of Suits, most of them down-to-date styles and ALL well made, at discounts ranging from 20 per cent. to 33 1/3 per cent.

TROUSERS: 40 per cent. discount on lines that include only the larger sizes. Discounts of 30 per cent. and upward on lines that include ALL sizes.

BROKEN SUITS: Coats and Vests of fine blue and black goods (the trousers have been sold) at VERY GREAT reductions.

And note this: While this sale includes many broken lots, which we have marked 33 1/3 to even 60 per cent. off, it ALSO includes regular full lines, recent stock—suits that will please the man who demands the very latest.

OVERCOATS: \$8.50 and \$12.00, that were \$12.00 to \$22.00.

An unusual opportunity for good buying.

SENTENCED TO SIX MONTHS

In the police court this morning Charles Mullin was sentenced to six months in jail on a charge of obtaining money on false pretences. Evidence given yesterday and today proved that he had sold his own property, collected the money and diverted it to his own purposes. Mullin has lived for more than half of the last year without working, and has victimized many citizens who sought to help him. Though an interdict, he was much of the time under the influence of Mrs. Fred Jones, the third time he has been in jail during the year.

AEROPLANE LIKE A GULL

Curtiss Alights on Water and Rises at Will—Important Problem Solved

(Canadian Press)

San Diego, Cal., Jan. 27.—For the first time in the history of aviation an aeroplane rose from the surface of the water yesterday, sailed about and returned to the starting point where it had taken off. It was a quarter of a mile, then lifted out of the water and rose to a height of fifty feet. After remaining in the air one minute and twenty seconds diving half a mile, it alighted and turned around as easily as a motor boat.

When the aeroplane was brought out and floated in shallow water it was equipped with hydroplanes and a new arrangement of front surfaces. The aeroplane scudded up the bay at a forty mile clip for a quarter of a mile, then lifted out of the water and rose to a height of fifty feet. After remaining in the air one minute and twenty seconds diving half a mile, it alighted and turned around as easily as a motor boat.

People have succeeded in solving the one problem necessary to make the aeroplane of value to the navy, said Curtiss as he stepped ashore.

F. B. CARVELL IN HOUSE MONDAY

Wire Received From Him In Woodstock—Mother of St. John Sister of Charity Dead

(Special to Times)

Woodstock, N. B., Jan. 27.—The report that F. B. Carvell was ill in Ottawa with typhoid fever is incorrect. He writes that he is suffering with grippe, that he has no fever and that he will be in the house on Monday.

Mrs. Annie Bradley, widow of Philip Bradley, of Pioneer, died suddenly on Monday, aged 37 years. She was Miss Annie Caldwell of Jacksonville. She is survived by three daughters, Mrs. John Callahan of Farmington, Annette, a religious in St. Vincent's convent, St. John, and Florence at home. Mrs. Patrick Gallivan of this town is a sister.

Mrs. Samuel K. Dennis, of Beverly, N. B., has announced the engagement of her daughter, Miss Mary Hardy Dennis, to Mr. R. H. Ballou, C. E., son of Mr. and Mrs. W. R. Ballou, of Centerville. The wedding will take place on February 8.

The body of the late Geo. Geo. E. Tracey, who died in Philadelphia on Monday, was brought to St. John for burial in the parish church cemetery.

Rev. R. G. Fulton, editor and manager of the Carleton Sentinel, has severed his connection with that journal to again take up the work of the ministry in Port Hood.

R. Mrs. Fulton and the children will remain here until spring.

Her Face and Body Were Literally Covered With "BOILS."

Burdock Blood Bitters Cured Them.

Mrs. John H. King, Johnston, N.B., writes:—Last summer I was very much troubled with boils, and my face and body were literally covered with them. A friend advised me to take Burdock Blood Bitters. I got three bottles, and before I had taken the first one my boils began to go away. I had just taken a few doses when I saw one of my friends who had also used Burdock Blood Bitters with much benefit.

Boils in themselves are not a danger. A trouble, but still, at the same time, are very painful. They are caused entirely by bad blood, and to get rid of them it is necessary to put the blood in good condition, and for this purpose there is nothing so equal to the old and well known remedy, Burdock Blood Bitters.

DECLARES ENGLAND IS BACKWARD IN INVENTIONS

In England backward in her inventions? Augustus Bridge says so in January. Canada Monthly (formerly Canada-West), and quotes Englishmen to prove it. In talking with one well known English educator, he said:

"Manufacturers in England are continually surprised at the constant succession of new inventions and new designs that foreign works pour in upon them, and agriculturists are astounded at the produce that fills the markets from such poor countries as Denmark and even Finland, and the still vast quantities from Holland, France, etc. This surprise would be modified did they know the education that has led up to this modernness."

Another man from the south of England puts the matter more colloquially. Telling of an incident at one of the schools of the large Y. M. C. A. schools in the south, where he was an invited visitor and one of the speakers, he said:

"I spoke to the boys of that school and told them what I thought was the ordinary practical truth. I advised them to get the kind of education that would make them good and useful citizens in any part of the world where they might happen to turn up. Here they were, hundreds of them, getting some sort of education, none of the best, but they were in the world to get a real job when he left school, and I thought a little sound advice from an old man who had seen a good deal of England and a good bit of the world beyond would be useful. I don't care whether you call it technical education or what. I meant at any rate practical education, realizing that England has plenty of scientific already and that what she needs is the useful man who is able to turn his hand not to one job merely, but to any one of a half dozen jobs if only he were in the right way to find it. What was the result? The superintendent, who is a good and able man, told me:—

"My dear boys, what our good brother has just told you is not what I expected him to say. No doubt he means well, but his view is all wrong. Our dear boys, it is not of primary importance to get your hands right. It is of the greatest importance, my boys, to get your hearts right. Get the heart right. Get the right feeling and understanding about life, and all the rest will follow as a matter of course."

"Did you ever hear such talk?" he concluded. "Utter stuff and nonsense."

He was so feeling at religion. He was merely talking hard horse sense. Every student knows England has sentiment enough. She has produced poets enough, painters enough, preachers enough, but not useful men enough by any millions.

Papers of incorporation have been issued to a company in Illinois which will manufacture an automatic log scratcher, log post and hog dip, all combined, designed to increase the comfort and growth of the hog. It consists of a small post, hinged in cement. The post is circular and, while serving the purpose of the ordinary post for scratching purposes, also throws off a grease which will keep hog's legs free from ordinary diseases.

T. R. Holbrook, a punier in Hanover county, Ind., and Frank K. Bole, a mill sawyer near in Evansburg, Ind., are still playing a game of chess that was begun in the last part of 1909, when Mr. Bole, who was in Hanover, they played every day while Mr. Bole was there and neither of them has been kept up by postal cards. It takes a month for a card to go from one to the other.

PAY TRIBUTE TO MRS. D. McLELLAN

(Continued from page 1).

city building, and public squares. We understand that drinking cups are to be provided for the new school-house now in the course of erection.

Our council was well represented at the meeting of the National Council of Women in Halifax, seven members being present.

An important part of the year's work has been the assuming charge of the women's exhibit for the Dominion exhibition. Even with two years of experience in provincial exhibitions behind us, our task was no small one. But in spite of the many difficulties consequent upon the opening of the new building the women's department was an unqualified success. The exhibits were received, tastefully arranged, and returned in good condition. The tea room was well patronized, and the rest room proved a boon to the many weary sightseers. Financially the venture was most successful, netting to our local council the sum of \$800.44.

It is with great pleasure that at this annual meeting we are able to report that the reform which we have so long agitated, seems at last about to be established, and our city is to have a patrol wagon. The safety board voted \$1,000, a recent meeting for the maintenance of a patrol wagon, and the Local Council of Women has set aside a certain sum to be used for procuring a wagon at the earliest possible date for presentation to the city.

We cannot close our report without expressing our regret at the resignation of our president and treasurer, who have served so faithfully. Mrs. McLellan has just completed her sixth term of office during which time she has been present and presided at every one of our regular meetings, an enviable record; and Miss Kaye, our treasurer, who has served for seven years.

We wish to extend our thanks to the press for their unflinching courtesy to our local council, and to all who have in any way aided our enterprises for the betterment of our city and humanity.

Respectfully submitted,
HELEN DENNIS ROBB, Recording Secretary
