FRAGETTES

NOT HEMMED IN  
BY ENORMOUS MOB

Gets Through Gir-  
uecoats—Num-  
of Arrests.

14.—The climax of the  
campaign was reached last  
evening when an enormous mob hemmed  
and stopped traffic in all  
directions to Westminster.  
In three hours the crowds  
gathered with the police,  
with the theatre-goers,  
and disorganized things  
in the centre of London.

At the end of the day Mrs.  
Hays, formerly secretary  
of the Socialist  
member of parliam-  
ent, was the door of the  
members by strategy. The  
members debating a bill to  
prevent smoking in public  
places was dashed past the  
police in a position in front  
of the chair and shouted shrill-  
ly discussing children and  
women.

Police seized Mrs. Symons  
and her out body. She was  
the outer door and dis-  
a result of the coup, an  
advised that hereafter women  
admitted to the building

store grill will not screen  
them.

KOREANS KILLED  
ON WAY TO SHRINE

MISTAKEN BY JAPS  
FOR BAND OF INSURGENTS

Occurrences Give Rise to Belief  
That Japan Will Annex  
Country.

Seoul, Oct. 15.—It has just been  
learned that twenty-two members of  
the "Ichinhoh," the pro-Japanese or-  
ganization of Korea, were killed by the  
Japanese gendarmes at Choldo a few  
days ago. The affair has been kept  
quiet, but has occasioned much un-  
easiness because it might be considered  
as a ruthless slaughter of unoffending  
Koreans by the Japanese soldiery and  
calculated to confirm previous reports  
of unnecessary cruelty practiced by the  
Japanese in Korea.

The matter has been reported by  
Marquis Ito, resident general of Korea,  
who is now in Tokio.  
Advices from Tokio state that Mar-  
quis Ito has held conferences with  
Premier Katsura and Viscount Tera-  
uchi, minister of war, and it is under-  
stood that a cabinet council will be  
called to consider the question and de-  
cide upon the future action to be taken.

In consequence of these conferences  
the report is being widely circulated  
that the Japanese government has de-  
cided to annex Korea immediately. The  
Associated Press, however, is assured  
that this is absolutely untrue, and that,  
in fact, no change in Japan's general  
policy toward Korea has even been  
considered.

The explanation advanced of the  
killing of the members of the "Ichinhoh"  
shows that forty of the "Ichinhoh"  
were marching in a body to visit  
a shrine when the Japanese gendarmes  
met them, and mistaking them for a  
band of insurgents, immediately at-  
tacked the party, killing twenty-two.

Japanese Censorship.

President of the G. T. P. Now in the City.

ese government has established a  
strict censorship over all communica-  
tions between Koreans in this country  
and friends or relatives in their  
native land, according to Rev. R. S.  
Ryong, a Korean minister of the Meth-  
odist church. Rev. Ryong has interest-  
ed himself in the case of the Korean  
who shot Durham W. Stevens here  
several months ago, and whose trial will  
commence on November 18.  
It is said that Korean papers publish-  
ed here containing accounts of the  
shooting and the subsequent death of  
Stevens have been forbidden an en-  
try to Korea and that every copy of  
the Korean Daily News, which con-  
tained the Korean emperor's protest  
against the Japanese treaty has been  
destroyed. A copy of the publication,  
which was discovered in this country  
and which was to have been offered in  
evidence at the trial, has been lost.

YOUTHFUL HEIRESS IS  
KIDNAPPED AT CHICAGO

Snatched From Grandmother  
by Three Men and Hurried  
Away in Automobile.

Chicago, Oct. 15.—In broad daylight, al-  
most without a word of warning,  
Margaret Frances Mitchell, 8 years old,  
said to be heiress to a fortune of \$250,000,  
was kidnapped here yesterday, and the  
authorities have instituted a country-wide  
search for the child.  
While on the street with her grand-  
mother, the little girl was snatched by  
one of three men in an automobile, and  
after the grandmother, Mrs. Caroline F.  
Mitchell, was knocked down, was taken  
away. Since then no trace of the child  
has been found, although the police are  
working on a clue that she was taken  
immediately out of the city, probably to  
Spain, N. C.

FIVE YEARS FOR FACE CARVING.

Chatham, Ont., Oct. 15.—Miss Wilson,

the penitentiary yesterday for carving the  
face of Fred Johnson, a colored admiral,  
on Saturday. Johnson's face was badly  
injured.

the warehouse of the Ontario Metal  
Company yesterday, Chinese coin to  
the value of \$10,000 in Canadian cur-  
rency. It has been discarded by China  
and will be sold to founders which  
desire high class copper. It is the first  
shipment of its kind ever received in  
Canada.

Strange Disease Wiping Out Hudson  
Tribes by the Score.

New York, Oct. 15.—A deadly disease, in  
some aspects like the grippe, but highly  
contagious and far more mortal than the  
grippe in this climate, has attacked the  
depleted tribes of the Cree In-  
dians on the shores of James and Hudson  
Bays, killing men, women and children by  
scores. Anson Skinner, of the department  
of anthropology of the American Museum  
of Natural History, who recently returned  
from an exhaustive study of the people of  
that country, brought the news of the  
plague to this city.

DYNASTIC CRISIS

SERVIAN CROWN PRINCE  
INCITING PEOPLE TO WAR

American "Army" Being Or-

Balkans.

Vienna, Oct. 15.—The inflammatory  
speeches of Crown Prince George of  
Serbia, who is inciting the people to  
war, while his father, King Peter, has  
observed an attitude of caution, causes  
considerable uneasiness in official cir-  
cles in Belgrade, according to dis-  
patches received here. There is less  
of a war than of a dynastic crisis  
and an attempt to place the Crown  
Prince on the throne. The Servian

declared there was never a time when  
both Canada and the United States  
were so closely linked and equally de-  
sireous of peace for themselves and the  
whole world.

The signs of "no trespass," the am-  
bassador declared, were up on the  
questions he would like to talk of and  
those which would perhaps be of the  
most interest, but he would refrain. Of  
the trouble in southeast Europe he  
thought there would be a pacific solu-  
tion found.

EDMONTON MURDER CASE.  
Police Searching for an Old Soldier Who  
Is Suspected of Crime.

Edmonton, Alta., Oct. 15.—There is no  
doubt now in the minds of the police  
that the old man, Thomas Burns, of  
Strathcona, came to his death at the  
hands of another person. The suicide  
rumor appears to have no foundation.  
Chief of Police MacCauley returned to the  
city on Saturday, but will go out again in  
search of the suspect, who has not been  
seen since the evening of the assault.  
Suspicion rests on the old soldier named  
Burns, who was shot with Burns, but  
whom the dead man described as use-  
less and lazy.

Alberta, was wiped out by fire  
this morning, including the

hotel, twenty stores, the post  
office, the Merchants' Bank,

burned to death. The loss was  
a quarter of a million covered  
by a heavy insurance.

HUGE LUMBER MILL  
AT BLAINE IS GUTTED

Loss Estimated at Half a Mil-  
lion—Had Been Idle for  
Two Years.

Seattle, Oct. 15.—A special to the Post-  
Intelligencer from Blaine says:  
The Jenkins mill plant, one of the largest  
lumber mills in the Northwest, caught  
fire about 10.30 to-night and was almost  
completely destroyed. The loss is estimat-  
ed at about \$500,000.  
The mill has been idle for about two  
years, but work was to have been re-  
sumed immediately after election. There  
were no fires in any part of the building.  
All efforts to save the big plant were un-  
availing, as the mill was a mass of  
flames when the fire was first discovered.

GRAND TRUNK PACIFIC  
IS COMING TO VICTORIA

President Hays Makes Announcement This Morning—Important  
Party of Railway Officials Are in the City To-day on  
Business Connected With the Company.

Last night the party of G. T. P. officials  
now on the coast reached Victoria,  
by the Princess May and took up quar-  
ters at the Empress hotel, where they  
will be guests during the stay in Vic-  
toria. The party is made up of Chas.  
M. Hays, president of the company;  
Frank W. Morse, vice-president, and  
general manager; Darcy Tate, assist-  
ant solicitor who is favorably known  
here; B. B. Keilher, chief engineer; J.  
H. Bacon, harbor engineer, who is  
making Prince Rupert his headquarters  
now; N. Smithers, of London; J. W.  
Loud, freight traffic manager; W. E.  
Davis, passenger traffic manager; G. H.  
Pope, right of way agent; G. A. Mc-  
Nicholl, purchasing agent, with head-  
quarters in Vancouver; D. E. Gallaway,  
secretary to Mr. Hays; N. Kinshell,  
secretary to Mr. Morse, and A. S.  
Loucks, secretary to Mr. Loud.

They have just returned from Prince  
Rupert, and will spend a short time in  
Victoria attending to necessary busi-  
ness connected largely with the Prince  
Rupert townsite.

Mr. Hays sent this morning by a  
Times reporter was very much pleased  
with the outlook in Victoria. He was  
delighted with the new Empress hotel,  
which he felt must be of decided ad-  
vantage to the city.

Coming to Victoria,  
Questioned with respect to the com-  
pany's plans for Victoria, Mr. Hays  
said: "We are coming to Victoria. We  
cannot afford not to do it. Some of the  
details are yet to be worked out so  
that they cannot be made public yet."  
Mr. Hays went on to point out that he  
felt Victoria had a bright future, and  
his company must have connection  
with it.

This announcement by Mr. Hays, fol-  
lowing the recent purchase of water-  
front made by the company, is of great  
importance to Victoria. The assurance  
from one in authority, such as Mr.  
Hays, leaves no doubt as to the bona  
fides of the company.  
In spite of the fact that the morning  
was an exceptionally gloomy one, and  
in no wise typical of Victoria weather,  
the president of the G. T. P. and a cool-  
ed out of the Empress hotel windows  
could not fail to express his admira-  
tion at the outlook and speak most  
optimistically of the city.

To Meet Government.  
The visit of the company officials to  
Victoria at this time is made for the  
purpose of conferring with Premier  
McBride and members of his govern-  
ment. There are a number of subjects  
to be discussed which Mr. Hays wishes  
to dispose of before he leaves the city.  
At the present time the survey of the  
lots at Prince Rupert is in progress.  
The company is preparing to put the  
lots on sale May 1st. As the govern-

ment is a joint owner with the com-  
pany in the townsite, Mr. Hays wishes  
to discuss with the government the de-  
tails connected with the offering for  
sale of the lots.  
In addition to this Mr. Hays will take  
up with the government the question  
of doing a certain amount of muni-  
cipal work at Prince Rupert in the way  
of drainage, street grading, etc. There  
is a request from residents now at  
Prince Rupert for this, and the subject  
will receive attention from the joint  
owners—the G. T. P. and the govern-  
ment.

Prince Rupert Sale.  
The president of the company is de-  
lighted with Prince Rupert, and mem-  
bers of his party also expressed them-  
selves similarly. The harbor is a mag-  
nificent one, a fact known to the offi-  
cials of course from the first. The clear-  
ing of the townsite, however, has re-  
vealed the fact that it will make a good  
location, better even than some of the  
officials had at first expected.  
The officials went up the Skeena as  
far as Copper river, and noted the pro-  
gress being made. The roadbed is  
provided twelve feet above extreme  
high water, and for the most part is  
rock ballasted, so that the line should  
be of a very permanent character. The  
work is going on so well and the plans  
for the company on the first 100 miles  
are so well in hand that Mr. Hays says  
that next year when he comes out at  
this time he will proceed up the river  
on the railway.

The president was pleased at the  
great interest take in the terminal point  
—Prince Rupert. Every one on the coast  
seemed to be talking of it. On the  
steamer he heard arrivals from the Yukon  
and Alaska discussing the new city  
and its bearing on the north. Mr.  
Hays says he expects to make the time  
between Skagway and Chicago in five  
days. This allows for about two days  
from Skagway to Prince Rupert.

Mr. Hays expresses regret that the  
public should be deluded by the selling  
of townsites that are not on the G. T.  
P., and are sold to the public under the  
impression that they are. He referred  
particularly to Point Edward, which is  
being extensively advertised in Van-  
couver. This townsite is a rocky one,  
not located on the line of the G. T. P.,  
and the president thinks it is too bad  
that investors should be deluded in the  
matter.  
Speaking of the general business of  
the G. T. P., Mr. Hays said the outlook  
never appeared better. The work was  
going forward splendidly. He did not  
think that the public fully realized the  
vast amount of work that was being  
done by the company.

Work on Prairies.  
Asked when Edmonton would be  
reached, he said that he expected the  
line to be completed into that city be-

fore the first of the year. There is a  
little delay in the building of bridges,  
a work which the company is having  
carried out in the very best manner. In  
its avowed intention of having the best  
grades of any line, the G. T. P. have  
taken precautions against having the  
river channels in any way interfere  
with these grades. In consequence  
longer and higher bridges have been  
put in than some of the other com-  
panies employ.

There is a long stretch of railway laid  
now west of Winnipeg, and gravel is  
being handled. Twenty-nine elevators  
are in use along the line, and eleven  
more are under construction, with  
many more contracted for. As an in-  
stance of the advantage which the new  
line has been to the wheat growing  
sections, Mr. Hays told of a place along  
the route where no facilities had been  
prepared for the present. The farmers  
came to the officials and asked them  
to put in a platform where they might  
load the wheat into the cars. They as-  
sured the company of 200 cars of wheat  
if they would do that. The platform  
was put in and what looked like a point  
of no traffic importance is providing its  
quota to the great output.

West of Edmonton, where 100 miles  
are well under way, Mr. Hays and  
party made an inspection on the way  
west. That work is well in hand, and  
the line is fast assuming shape.

Injurious Reports.  
Mr. Hays contradicts the wild ru-  
mors about the G. T. P. business which  
have been circulated. These, he says,  
are hardly worth contradiction, and he  
seldom takes the trouble to do it. They  
are circulated at different times ap-  
parently for a purpose, but are un-  
founded. The business of the company  
never looked better. With respect to the  
Grand Trunk holdings in the G. T. P.,  
Mr. Hays said it was well described by  
saying that "it could not be withdrawn  
if it would, and it would not if it  
could."

Mr. Morse is Here.  
Mr. Morse, who has not visited Vic-  
toria for several years, and who during  
a prolonged stay here, about four years  
ago, made many friends, is showing in-  
dications of the strenuous work which  
is connected with railway construction.  
As general manager of the G. T. P., he  
is called upon to spend a good part of  
his time on what might be ascribed as  
the firing line. Since construction be-  
gan he has been from time to time on  
the work of inspection along the line.  
At first a good deal of the travel was  
done on horseback, Mr. Morse being  
an expert rider. Now, however, the  
larger part of the inspection trips are  
possible by rail. The strenuous work  
has had its effect on Mr. Morse, and he  
looks somewhat older. He is, however,  
in excellent health, and is proceeding  
in the best of spirits over the progress  
which is being made along the line.

are well under way, Mr. Hays and  
party made an inspection on the way  
west. That work is well in hand, and  
the line is fast assuming shape.

Injurious Reports.  
Mr. Hays contradicts the wild ru-  
mors about the G. T. P. business which  
have been circulated. These, he says,  
are hardly worth contradiction, and he  
seldom takes the trouble to do it. They  
are circulated at different times ap-  
parently for a purpose, but are un-  
founded. The business of the company  
never looked better. With respect to the  
Grand Trunk holdings in the G. T. P.,  
Mr. Hays said it was well described by  
saying that "it could not be withdrawn  
if it would, and it would not if it  
could."

Mr. Morse is Here.  
Mr. Morse, who has not visited Vic-  
toria for several years, and who during  
a prolonged stay here, about four years  
ago, made many friends, is showing in-  
dications of the strenuous work which  
is connected with railway construction.  
As general manager of the G. T. P., he  
is called upon to spend a good part of  
his time on what might be ascribed as  
the firing line. Since construction be-  
gan he has been from time to time on  
the work of inspection along the line.  
At first a good deal of the travel was  
done on horseback, Mr. Morse being  
an expert rider. Now, however, the  
larger part of the inspection trips are  
possible by rail. The strenuous work  
has had its effect on Mr. Morse, and he  
looks somewhat older. He is, however,  
in excellent health, and is proceeding  
in the best of spirits over the progress  
which is being made along the line.

WINTER WHEAT FARM.

New Yorkers Purchase 5,000 Acres of Irrig-  
ated Land in Northwest.

Calgary, Oct. 15.—A sale of 5,000 acres  
of land in the Canadian Pacific Railway

tour of the Canadian Pacific irrigation  
stock, and the staff of the irrigation office  
are busily engaged in closing sale con-

New York, Oct. 15.—The jury yesterday  
decided in favor of August Belmont in the

claimed he was libelled by Mr. Belmont  
when he posted him in the racing calen-  
dar as having left his employ without  
authority, saying Fret had been dis-  
charged because he failed on one occasion  
to take off his hat in saluting Mr. Bel-  
mont.
