About 300 immigrants passed through the city last night from Halifax on their way to Montreal and the West. They were chiefly Italians and Germans, of rather an intelligent class, many speaking very good English, which is quite a contrast to the average immigrant of their nationality.

The many friends of Hugh McCormick will regret to learn of his very serious illness. About two months ago Mr. McCormick was operated upon at the General Public Hospital and at that time it was thought that his absolute recovery was certain. He recently suffered a relapse, however, and his condition is said to be regarded as critical by his medical adviser, Dr. Murray MacLaren.

The Canadian Commissioners sitting in settlement of the international dispute regarding obstruction to navigation in the St. John River leave this morning by an early train for Van Buren, where the Commissioners will convene tomorrow for the purpose of taking evidence. Incidentally the Commissioners will investigate the jam conditions now obtaining in that vicinity.

Last summer The Sun mentioned the practice of women and children picking flowers from the King square beds. Similar practices are being indulged in this year. Last evening Policeman Hughes caught a woman on the grass plucking one of the plants from a flower bed. His only reason for letting her go with a severe reprimand was that she was partially intoxicated and did not appear to realize what she was doing.

Dr. L. A. Curry, of the St. John Steamship Company, when asked last evening concerning the libel suit against the Standard Publishing Company stated that he would give that newspaper a chance to retract some of the exaggerated statements made among the owners of the river steamers the article in the Standard is recognized as having the finest equipped fire apparatus on the river. The recent interchange of tickets decided upon has prevented any racing on the river. The rivalry has ended and masters are moving along peacefully.

ORGANIZE TO COMBAT THE WHITE PLAGUE

An Anti-Tuberculosis Society Formed

Judge McKeown First President of County Organization

The Board of Trade rooms were well filled yesterday afternoon when the meeting called to form a county branch of the Association for the Prevention of Tuberculosis was called to order. Dr. Daniel presided at the meeting. The St. John county branch was formed, a constitution adopted and officers elected for the coming year. Speeches were made by the chairman, Dr. Thomas Walker, Dr. J. P. McInerney, Hon. J. G. Forbes and others. The meeting was a very enthusiastic one and gives promise of an early and energetic campaign against the great white plague.

At the close of the meeting forty-two of those present headed in their names as charter members of the association.

DR. DANIEL IN THE CHAIR. Dr. Daniel took the chair at 3.45, and in opening the meeting expressed his gratification at the large attendance. He referred to the organization of the provincial society for the prevention of tuberculosis. Its purpose was supervisory and to county organizations was to be left the actual work. This meeting was called for the purpose of forming a society for St. John county. He then referred briefly to the prevalence of the disease and the necessity of taking steps to combat it. He announced that he had received a letter from Bishop Casey expressing his entire sympathy with the movement and his appreciation of the importance of the work. He also had received a letter from Lady Tilley expressing her interest and her willingness to help along the work.

Rev. Dr. Lang was then called on by the chairman and offered the following resolution: "That in the opinion of this meeting it is advisable to organize a branch of the Provincial Association for the Prevention of Tuberculosis to be known as the St. John Association for the Prevention of Tuberculosis and that this meeting resolve itself into such an association."

In speaking to the resolution Mr. Lang spoke of what had been done in Halifax, where a nurse is employed to look after patients, tents are erected for the accommodation of poor patients and sick persons shown how to erect their own door shutters attached to their houses.

The motion was then carried and Dr. McInerney was appointed secretary pro tem by the chairman. In proceeding to submit an outline of a constitution, which the chairman said was largely based on that of the Ottawa society, Dr. Daniel suggested that a number of the officers be held by the ladies.

Dr. P. P. McInerney in an eloquent speech moved that a committee be appointed to draw up a constitution. He remarked that the local government had appointed a commission to deal with the matter and would shortly set aside \$15,000 for the work of the commission. Judge Forbes seconded the motion, and after some discussion a committee of five was appointed as follows: Dr. McInerney, Rev. Dr. Raymond, Thos. Gorman, Mayor Bullough, Mrs. E. A. Smith, Mrs. deB. Carritte.

COMMITTEE RETIRES. The committee retired, and while waiting for their report the chairman called on Dr. Thos. Walker to make a few remarks. He said that the subject was very close to his own heart. The need of the work was shown by the fact that 100 out of the 700 deaths in the city last year were due to tuberculosis. The disease is preventable, and while it might not be possible to cure everyone in St. John who had the disease it is possible to keep it from spreading and in that way stamp it out.

SWINGING HAMMER AS BLACKSMITH'S HELPER

MADE SICKLY RAY BRONSON FINE ATHLETE

INDIANAPOLIS, Ind., May 31.—The Beau Brummel of the lightweight class, they call Ray Bronson, the Hoosier Boxer, whose name is known to every follower of the game of give and take. As a satirical expert, Bronson has Mr. Philadelphia John faded to a sibilant whisper. Nothing Bronson does is ordinary. He returned from the South not long ago, accompanied by a valet. He went to get Dixie to get the valet and fought a few times as a matter of course. There is one thing the valet must do. He must wear diamonds. If he can't sport the sparklers, wear a Prince Albert and red, white and blue hose, at the same time, he won't last long. When he turns his attention from the fashion plate long enough to box, Bronson is all to the piaz. He's one of the best state made famous by his fights, wrestling matches, anti-cigare law and winter health resorts where the tiger growler has produced. Although not a champion, he's one of the fellows the champions get mused up by.

MAJORS WERE EASY; MINORS GOWN HIM

WALTER QUESSER

MEMPHIS, Tenn., May 31.—When the big league teams were migrating northward in April, all sorts of stories were told about the kid pitcher Charlie Babb who in his Memphis team. From the way he performed his stay in the Southern league was to be short and he would be burning the grass in one of the majors. When Pittsburgh and the Boston Americans hit Memphis they bowed before the pitching of young Quiesser. Memphis hailed him as the star of the league, but fate has dealt the young man a strange hand in the game. Since he championed season opened Quiesser has not won a game. He dropped seven in a row and the eighth was going to the bow-bow when he was derricked. Each of the losses have been by one run and he earned the name of "Hard Luck" Quiesser.

BALTIMORE NIGHT IN THE BIG TOURNAMENT

NEW YORK, N. Y., May 31.—Nearly two hundred out-of-town bowlers tried their skill on the Madison Square Garden alleys at today's session of the national tournament. The evening session was called "Baltimore night" on the programme and there was a large delegation of Baltimore men on the alleys and in the galleries. Chicago, Utica, Washington, Columbus, Wheeling and Montreal were also well represented. The scores made were for the most part disappointing. The only high marks of the day were made by V. A. Karber, of New York, who scored 632 in the individual contest, taking fifth place, and by Smith and Gohardt of Buffalo, who scored 1311 in the two-man team contest, taking third place. At the night session the alleys were crowded with five-man teams, none of which was able to do better than 2,800.
