years ago. Mr. Tatt's address will not be remembered so long as that rare gem of eloquence which will always be known as the Gettysburg Speech, but it contains one passage which will perhaps attract attention outside the United States. Commending the regulars, and contending that it was unsafe to entrust the Republic to the care of volunteers, Mr. Taft said:

"In the war of 1812, had we had a regular army of "10,000 men trained as such an army would have been, "we should have been spared the humiliation of the nu-"merous levies of untrained troops and the enormous ex-"pense of raising an army on paper of 400,000 or 500,000 "men, because with an effective force of 10,000 men we "might have promptly captured Canada and ended the "war."

But we bay from the United states \$170.000,000 worth of merchandles or more than the vice as much as the model from us. The Altirch Dil ar it will be a search as the model of the property of the International Council of Women which opens in Toronto on June 15, 18, 180,000 (Canada should cranda do about 12).

As an anti-protectionist journal, the Globe is bound to say that the United States is the country that suffers, and that her people are paying for their bad tariff policy extra prices. The Globe is also bound to say that the United States is the country that the people are paying for their bad tariff policy of the Canadas should retailate, she would be only punishing themselves that the Globe does say this, but then if goes on to say, ext that Canadians should punish themselves in that we will be compared to the country of the State of the Globe does say this, but then if goes on to say the country of the State of the Globe does say this, but then if goes on to say the country of the State of the Globe does say this, but then if goes on to say that the Globe does say this, but then if goes on to say the country of the State of the Globe does say this, but then if goes on to say the country of the State of the Globe does say this, but then if goes on to say the country of the State of the Globe does say this, but then if goes on to say the country of the State of the Globe does say this, but then if goes on to say the country of the State of the Globe does say this, but then if goes on to say the same of the Globe does say this, but then if goes on to say the same of the Globe does say this, but then if goes on to say the say the goes of the Globe does say this, but then if goes on to say the the Globe does say this, but then if goes on to say the goes of the Globe does say this, but the say the goes of the Globe does say this, but the say the goes of the Globe does say this, but the say the goes of the Globe does say this, but the say the goes of the Globe does and the goes of the Globe does and the goes of

there can be no lying down in the case, unless Canada lies down under a retaliatory tariff of her own. Why cannot these free trade papers stick to their doctrine? Legic is logic.

As all the parties to the case seem to be Mr. Pugsley, it would appear that no time should be lost in dilatory proceedings, the plaintiff and defendant being as it were beside themselves. But now after several weeks, Mr. Pugsley announces that he will wait until September before asking himself to give an account.

This makes it a kind of suspense account.
