Engine for Address Prov.

Heavy Lateral Wire

Frost Wire Fence

Means a Lifetime of Service

Because running wires are heavy, is no reason why the fence is strong. Soft tie wires—soft wire stays—locks that crimp—mean weakness and simply invite trouble.

A fence with soft wire stays must be very high, or horses and cattle will crowd down the top wires. Extra height means extra cost. Pigs find it easy to raise the bottom wires of such a fence and creep through.

FROST WIRE FENCE

is a fence of strength. The running wires are high carbon, HARD coiled steel, thoroughly galvanized—and will not break under 2200 pounds.

Our stays are No. 7 or No. 9 hard wire.

And running wires and stays are LOCKED with the FROST LOCK.

We wish you would write for a copy of our booklet. It tells a lot about Frost Fences in particular, and gives information about fence building that every farmer ought to know. It's FREE to YOU.

Last Mountain Valley

The heart of the great Saskatchewan Wheat Plains of Western Canada.

Buy Your Tickets to Strassburg
Via Winnipeg by the Soo Line

In this section you can see two Trans-Continental Railways actually building. Write for maps, prices and handsomely illustrated booklet descriptive of this rich region.

Read What Prof. Thos. Shaw Says About this District:

Speaking of Last Mountain Valley, he writes, after personal inspection: "This rich and beautiful farming section lying east of Last Mountain Lake, embraces one of the finest areas, in the Northwest. The land is undulating in this region, mostly open prairie. The soil is a rich, black vegetable loam, from one to two feet deep, and is underlaid with a clay sub-soil. Frost, to injure the wheat is virtually unknown. Being thus favored so highly by nature, it is not surprising that the production of wheat in this region is phenomenally high; in several instances forty to forty-five bushels per acre have been reaped. Oats, Barley, Flax and all small grains yield relatively as good as those of wheat. Potatoes grow most luxuriously. Two or three years ago, there were not more than thirty-five settlers in the entire area, now there are over three thousand and others rapidly coming in."
