PUBLISHER'S TALK

THE Apple Crop is one of Canada's most important. Wheat, Cheese, Lumber and Coal are important, but Apples are not less so, though the annual export is not so valuable. Hence this week's cover. Perhaps it will help Canada's reputation in a few places where ignorance of our wonderful climate still exists.

WHILE the CANADIAN COURIER is non-political, we intend to keep our readers well supplied with pictures of the campaign which closes on October 26th. This week we have some excellent photographs of Sir Wilfrid Laurier as he appears when addressing large audiences at open-air meetings. These are the best pictures of the Premier which have ever been published. Next week we hope to have some similar pictures of Mr. Borden and some others of the Conservative leaders. We shall be pleased to have photographers throughout the Dominion send us pictures similar in character to those published during the past two weeks.

AGAIN we would ask our readers to mention the CANADIAN COURIER in writing for samples and catalogues advertised in our pages. This helps us considerably. Moreover, we guarantee the genuineness of all offers by commercial firms published in our columns. We accept no doubtful advertisements.
