Mr. J.E. Morris,
Indian Affairs Branch,
Booth Building,
OTTAWA - Ont.

Dear Sir:

Following our 'phone conversation of yesterday, we wired you as per copy attached.

The Morton Engineering Limited of Quebec are willing to build the 48" x 14' boiler on your order 8694 immediately upon receipt of the steel and tubes, but as they always buy the raw material needed for the construction of boilers by the carload, they pay a special price, and if the Steel Controller release only the material needed for your boiler and that they pay more for it, they will have to increase the price accordingly.

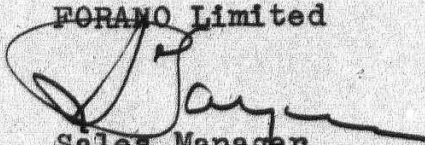

Or if you prefer, they will build the boiler on the same basis as war contract at 5% profit.

All the accessories for the boiler are built in our own shop and will be ready for shipment with the boiler.

Awaiting your further instructions, we remain,

Yours very truly,

FORANO Limited

Sales Manager

I. Payeur/LL
