

WILLING WITNESSES

DAY by day we are receiving enthusiastic testimonial letters from policyholders whose Endowment contracts are now maturing.

These are our willing witnesses who come voluntarily into court and testify to the good faith of The Mutual of Canada.

No wonder! For they are receiving from \$110.00 to \$190.00 for every \$100.00 invested in premiums, to say nothing of the protection they have enjoyed.

The amount of the return, of course, varies with the term of the Endowment. Don't speculate! Take an Endowment policy and share in the prosperity of

THE MUTUAL LIFE ASSURANCE COMPANY OF CANADA
WATERLOO, ONTARIO

Provincial Auction Sale of Pure-bred Stock
(Beef Breeds)

Will be held in the Winter Fair Buildings, GUELPH, on

Wednesday, March 3rd, 1915

About 40 Head of Pedigreed SHORTHORN CATTLE

Among them many fashionably-bred animals will be offered. For further particulars and catalogues, apply to:

C. L. NELLES, President **J. M. DUFF, Secretary**
Guelph, Ont.

Wheat

1915 prices will be the highest in a generation. Increase your yield per acre. Our free booklet, "Humper Crops," shows what plant food to use and how to use it. Write for a copy.

Gunns Limited West Toronto
Shur-Crop Fertilizer

SMALL FRUITS

Gooseberries, Red and Yellow; Currants, Red, Black and White; Raspberries, Red, Purple and Yellow; Blackberries, Grape Vines, Strawberries, Rhubarb, Asparagus Roots, etc., etc. Ask for Price List.

Maple Syrup

Our B. B. grade is the best. One gallon of our syrup, evaporator, storage and gathering tank, etc., etc., complete outfit for three seasons guaranteed in price. \$60. Each. Woodbridge, F. R. R. No. 3, Weston, Ont.

Trade Topic.

"The cost of the tires for an automobile during its period of usefulness will equal in amount the original cost of the car," said H. O. Wilson of the Goodyear Tire & Rubber Co. of Canada, Limited, in speaking before the students of the Toronto Automobile School yesterday.

Without question, tires properly cared for will give from twenty-five to fifty per cent. more service than tires that are abused. In this course you have studied the automobile, not merely to enable yourself to drive up Yonge street in accordance with the traffic laws, but to also put yourself in a position to handle the problems that make the average motorist tear his hair. When an engine pounds, you will be able to locate the trouble at once without waiting till some internal injury has developed that will materially affect the efficiency of your car. In other words, a car in your hands will give longer and more satisfactory service than one in the hands of an inexperienced driver.

Here are a few of the tire problems that the average motorist has to solve. Give them the same thought and attention you have given the other parts of your car, and the results will be just as gratifying.

First, watch the inflation of your tires as carefully as you watch the oil in your engine. Perhaps 85 per cent. of all ruined tires reach this condition because they were driven with insufficient air pressure. Every tire is stamped, showing just how many pounds of air it should contain. If you want your tires to perform properly, see that this pressure is maintained at all times.

Next in importance is the care of your tread. Any rubber tread is susceptible to road cuts. If they are given attention when the cuts first appear, you won't experience very much trouble from them. If neglected, however, they will destroy the tread within a short time because sand and moisture is bound to work in, and tread separation always follows.

Mr. Wilson used sample sections along with his talk that showed the results of practically all tire abuses. He also distributed a series of eighteen Service Bulletins that explained the different tire injuries in detail.

This talk is the first of a series arranged for by Mr. Cameron, Principal of the School. His aim is to give students, not only a thorough working knowledge of an automobile, but also an understanding of all of its parts.

The talks are included in the regular course, and will be given at intervals during the coming season. They will include all automobile accessories as well as tires.

Gossip.
CORN.

The field of corn illustrated in our issue of January 28, page 117, was grown by James E. McGregor, instead of John C. McGregor, as indicated under the cut.

The list of first-class passengers sailing on the last "Royal Mail" steamer from Halifax for Demerara and other ports in the British West Indies contained the names of many people well known in Halifax and the Maritime Provinces, demonstrating the favor in which seagoers hold this voyage provided by the "Royal Mail" steamers.

Questions and Answers.
Miscellaneous.

Workmen's Compensation Act.

Would you kindly answer, in your column, "How does the new Compensation Act affect the farmer?"

Yield of Potatoes.

Yield of potatoes from a 1/2 acre plot in the fall of 1914, in the following order: 1. 100 bushels; 2. 150 bushels; 3. 200 bushels; 4. 250 bushels; 5. 300 bushels; 6. 350 bushels; 7. 400 bushels; 8. 450 bushels; 9. 500 bushels; 10. 550 bushels; 11. 600 bushels; 12. 650 bushels; 13. 700 bushels; 14. 750 bushels; 15. 800 bushels; 16. 850 bushels; 17. 900 bushels; 18. 950 bushels; 19. 1000 bushels; 20. 1050 bushels; 21. 1100 bushels; 22. 1150 bushels; 23. 1200 bushels; 24. 1250 bushels; 25. 1300 bushels; 26. 1350 bushels; 27. 1400 bushels; 28. 1450 bushels; 29. 1500 bushels; 30. 1550 bushels; 31. 1600 bushels; 32. 1650 bushels;
