

GOSSIP.

The more we tell our troubles the larger they seem to grow.

One good turn may deserve another, but this doesn't result in perpetual motion.

Mr. Wm. D. Dyer, Columbus, Ont., in ordering a change in his advertisement of Shorthorn bulls for sale, writes: "The bulls have done extra well during the winter, and are in good condition for immediate service. Two of them will make good, large, growthy animals. The other one, though slightly smaller for his age, is of the right type for beefers. I am remodelling my barns this summer, and will have no place to accommodate these animals, hence they must be sold within the next month, even if they have to go at a sacrifice. Here, then, is a chance of a bargain for somebody."

At the Castle-Douglas, Scotland, Spring Show, in a guessing competition as to what would be the dressed weight of a bullock and of sheep, the result showed that some canny Scots may well trust their own judgment without the aid of weigh scales. In the case of a two-year-old, cross-bred bullock, whose dressed weight was 739 lbs., one competitor guessed the exact figures, while two others were only one pound short, and one pound over the weight. Three cross-bred yearling sheep weighed 229 lbs. dressed. One man guessed them at 280 lbs. and another at 238 lbs.

The largest herd of registered Jersey cattle in Canada is the well and widely known herd belonging to Messrs. B. H. Bull & Son, of Brampton, Ont., consisting at present of about 150 head, young and old, nearly 20 of them being imported from the Island of Jersey, including the two stock bulls. The Toronto champion and silver medal winner of 1908, Blue Blood (imp.), has an unbeaten show record in his class, winning first at all the principal shows in Canada in the best of company. He is in the best of breeding condition, and is doing good service as a sire, as several of the young things in the herd amply attest. Brampton Nameless King (imp.), winner of first prize the past two years at Toronto, also silver medal, 1904, has some rich-producing ancestors, his dam, Arthur's Adoration, having given over 8,000 lbs. milk in one year, 52 lbs. in one day. His grandam, Nameless, by Golden Lad, produced 24 qts. in one day, and 3 lbs. butter. This young bull's sire, Financial King, for which Wm. Rockefeller, the present owner, refused \$5,000, has a dam, by Interest, that has eight sisters by same sire, with an average record of 45 lbs. 15 1-9 ozs. of milk in 24 hours, and 19 lbs. 14 6-9 ozs. butter in 7 days, mostly in official test. Among the fifteen young bulls that are for sale are some pure St. Lamberts ready for service, also half a dozen by Imp. Brampton Monarch, a Toronto champion, several of them ready for service, and with quality equal to the best. As this firm has paid close attention to details in Jersey breeding for several years, the females are a heavy-producing lot, being selected especially to supply a cream trade. Minetta of Brampton, the sweepstakes winner at Toronto, 1904, has a milk record of 45 lbs. per day. She is a three-quarter sister of Adelaide of St. Lambert, the producer of 2,005 1/2 lbs. of milk in one month, which is said to be the largest milk record for a Jersey in the world. Betina of Brampton has a fine appearance as a dairy cow. She won first in the Provincial dairy test, when under three years old, at which time she gave 30 lbs. of milk, testing 5.2 per cent. butter-fat. Among the heaviest-producing cows are Sweet Eyes (imp.), a three-year-old, an illustration of which appeared in the "Farmer's Advocate" for April 13th, has a record of 37 lbs. of milk in one day. Rhoda is credited with 47 lbs. in a day, and 19 lbs. butter in a week. Lady Fawn of Brampton, and several others, have very creditable cream and butter records. The fame of the Brampton Jersey herd covers the continent, and has a unique prize-winning record at the leading shows in Canada. Young bulls, cows and heifers of the best breeding and type are for sale, such as are calculated to improve any herd they may go into.

This is Dr. Goldberg's Picture. Detroit's Famous Specialist who sees all patients personally each time they call. EACH TIME YOU WRITE IT RECEIVES HIS PERSONAL ATTENTION

DR. S. GOLDBERG.
The possessor of 14 diplomas and certificates, whose methods other Detroit specialists try to imitate.

Ever since locating in Detroit many years ago, I have frequently called attention to the fact, that while some specialists advertise 25 or more years' experience, they do so for advertising purposes in order to mislead the public; the founders of these institutes are dead; while the present owners could buy the furniture and the right to practice under the old name, they could not buy their predecessors' brains.

How many of you have paid your hard-earned dollars to these concerns with the expectation of receiving service from specialists who have 25 or more years' experience, but when you called at their offices you were treated by some other doctor than whose picture you saw in the paper? And how many of you saw the same doctor more than once, but each time a different one? Remember, I am doing business on my own reputation and each time you call you see me personally.

NERVOUS DEBILITY

The Latest Method Treatment is a heaven-sent boon to nervous sufferers. There are scores and hundreds of persons suffering from severe nervous disorders resulting from overwork, hurry, worry, business and domestic cares, bereavements, dissipation, etc. To them life is one continual round of misery, while peace, comfort and happiness are impossible. They suffer from headaches, loss of memory, mental depression, strange sensations, dizziness, dullness, restlessness, irritability, constant indigestible fear, forebodings, sleeplessness, weakness, trembling, heart palpitation, cold limbs, utter fatigue and exhaustion. In this class of cases almost immediate relief is afforded by my treatment. The use of narcotics and poisonous, stupefying drugs is done away with, and permanent cure accomplished.

BLOOD POISON

If you have traces of it you are in constant danger until cured; you cannot tell how soon the poison will affect the organs of the body; have you sore throat, ulcers in the mouth or tongue, copper colored patches, sores breaking out, sore bones, hair falling out, itching skin? Call and see me as I give you a written guarantee to cure you by my LATEST METHOD TREATMENT, without mercury or potassium, and remember,

not one penny need be paid until you are cured.

Nine Nations

Now Use Liquozone. Won't You Try It-Free?

Millions of people, of nine different nations, are constant users of Liquozone. Some are using it to get well; some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed. These users are everywhere; your neighbors and friends are among them. And half the people you meet—wherever you are—know some one whom Liquozone has cured.

If you need help, please ask some of these users what Liquozone does. Don't blindly take medicine for what medicine cannot do. Drugs never kill germs. For your own sake, ask about Liquozone; then let us buy you a full-size bottle to try.

We Paid \$100,000

For the American rights to Liquozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquozone destroys the cause of any germ disease.

Liquozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in

the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetal matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissues too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.
