Are holding their next
**MAMMOTH
AUCTION SALE**

ON

TUESDAY, FEBRUARY 23rd

when we shall present to the public about 65 head of horses—the best that money and experience can buy, including one stallion (Royal Favorite) and some very fine registered mares. Pay us a visit and you will not go away without buying. Our last three sales were a great success. Everybody was satisfied with what they purchased from us.

Farmers especially requiring some good working mares for spring work should make a point of attending this sale.

**TROTTER & TROTTER
BRANDON MANITOBA**

commodious and comfortable house, stabling for 30 horses, 60 cattle and 60 hogs, are conveniently located on a dry rise, and are sheltered by a thrifty grove of trees. There is also a flourishing young orchard of Transcendent crabs and standard apple trees.

The water supply is abundant, there being a small creek running through part of the farm and wells are convenient to the buildings. The farm is well fenced, the best of roads lead through it, three lines of railway are convenient, elevators are just a mile away on the Great Northern, and about six miles on the C. P. R. and C. N. R. School, church and post office are about one mile away, and the farm is about equal distance from the thriving towns of Carman and Roland. Few places offer so many advantages with such a high state of fertility, and the man who gets "Forest Home" will have a farm of 360 acres, and a home to be proud of.

Mrs. A. Cooper, of Treesbank, Man., sent two of her Barred Rock cockerels to Enderby, B. C., Poultry Show last month, and was awarded first and second prizes, as well as special for best cockerel in American classes. This not only shows that Mrs. Cooper has birds with quality, but is also evidence that Manitoba can hold its own with British Columbia fanciers, in spite of the supposed disadvantages in the matter of climate.

Practically everyone knows that when he buys a few hundred or thousand feet of lumber from the retail lumber yard, he pays in profits to the retail and wholesale trades about as much as it costs the millmen to cut the logs, saw them and transport them to points of consumption. The rake-off in the lumber trade is notoriously large and there are but few escapes from the abuse. In addition to profits being large, the number of yards in a town is fixed so that there will be a good living for each man who keeps one, the price is fixed for each retailer and there is no attempt to keep the grades that the millmen turn out. How can it all be helped? Notice the advertisement of the Lake Lumber Co. in this issue; order in carlots. In almost every district, a few farmers can get together and handle a car load.

People must live, and to live they must eat. Whatever else they are compelled to do without, they cannot do without food, so that whatever adds to the efficiency of the farmer in his food-producing vocation, adds to his blessings. One of the most important factors in bringing about this condition was the invention of Planet Jr. Farm and Garden Implements. They have revolutionized the slow, laborious old gardening and farming methods and have put them in the class of twentieth-century achievements. As an instance, No. 4 Planet Jr. which is a combination hill and drill seeder, wheel hoe, cultivator, furrower and plow is the most complete tool a farmer or gardener can have on his place. He can do more work with it and keep things in better condition in one-sixth the time it would take without it. The No. 4 is only one of the many Planet Jr. implements—there is one for every farm and garden task, whether for hand or horse power—and all of them are sold with an iron-clad guarantee of absolute satisfaction.

BIG SPRING MEETING AT CALGARY

From Calgary comes the news that the entries for the bull sale have been well up to expectations. A catalog of the entries is being printed, and will be sent on application. At a recent meeting of the directors of the Alberta Cattle Breeders' Association, it was decided to throw the sale open to as many entries as came in, the custom in the past being to limit the number.

For the fat stock show, the sheep and swine breeders' associations are

DR. WOOD'S NORWAY PINE SYRUP

Is A Remedy Without An
Equal For COUGHS,
COLDS, And All Affections
Of The
THROAT and LUNGS.

Coughs and Colds do not call for a minute recital of symptoms as they are known to everyone, but their dangers are not understood so well. All the most serious affections of the throat, the lungs and the bronchial tubes, are, in the beginning, but coughs and colds.

Too much stress cannot be laid upon the admonition to all persons affected by the insidious earlier stages of throat and lung disease, as failure to take hold at once will cause many years of suffering, and in the end that terrible scourge of "Consumption."

Dr. Wood's Norway Pine Syrup is not Sold as a Cure for Consumption

but for affections tributary to, and that result in, that disease. It combines all the lung healing virtues of the Norway pine tree with other absorbent, expectorant and soothing medicines of recognized worth, and is absolutely harmless, prompt and safe. So great has been the success of this wonderful remedy, it is only natural that numerous persons have tried to imitate it. Don't be humbugged into taking anything but "Dr. Woods." Put up in a yellow wrapper; three pine trees the trade mark; price 25 cents.

STRAND'S NURSERY
R.F.D. 11 Taylors Falls, Minn.

"Human nature is the same the world over," said the philosopher. "When a man discovers that a law interferes with his personal interests, he wants it abolished."
"Yes," answered Senator Sorghum. "I'm looking for some of these aviators to come up with a proposal to repeal the laws of gravitation."

How Many Meals Have You Saved?

Do you show your meals do you good, as the saying goes? Have you the product of former good dinners tucked away around your waist line? Do they reproach you? Do they lie heavily on your physical conscience, as it were? Are you anxious to reform?

Well, then contemplate a period of penance. What do you say to a month of unmodified breakfast food diet—made thin; to be followed or accompanied by thirty days of road work or weight lifting. No?

How about a few months' course of some acid (put your teeth on edge) acid, heart-burn-causing, wrinkle-forming, stomach-upsetting, high-priced patent advertised "fat remedy," then—No?

All that remains for you to try, then, if you really wish to reform, is Marmola Prescription Tablets. These tablets possess special virtues—the most important of which are they cause not one ripple of internal uneasiness, neither do they leave wrinkles behind; nor is dieting and exercise required to help out. Yet, in a reasonable time they are capable of reducing, possibly, any man or woman on this green earth a pound or so daily.

How about your trying this safe and well-endorsed plan if you do not care to exercise or diet? The Marmola Company of Detroit, Mich. or any druggist will give you, for as little as 75 cents, one large case, so well stocked that just that one case will show you the problem of reducing safely and quickly on three full meals a day has been solved.
