

READ THIS! TO THE FISHERMEN:

"THE COAKER" Motor Engine is the favorite Engine with the Fishermen.
A Motor Engine made for the Union Trading Company by the largest Motor Engine Manufacturers in America.

THE FAMOUS 6 H.P. COAKER ENGINE.

THE "COAKER" 4 cycle can be operated on half the oil consumed by a 2 cycle engine. This Engine's power is equal to double the power of some 2 cycle engines. It is made for the fishermen's use and expressly for Trap Skiffs and large size Fishing Bullies. It is sold to Union members at wholesale prices, all commission and middlemen's profits being cut out. We have them on exhibition at our wharf premises; we carry parts and fittings in stock. We guarantee the Engine. Write for particulars and terms, applying to Chairman of F.P.U. Councils concerning this Engine. We confidently recommend the Engine, as being of the very best make and material, of being exactly what is needed for the fishermen's use and **GUARANTEED TO GIVE SATISFACTION.**

It is above all durable, simple and capable of doing heavy work, it is not a toy engine. The Engine starts on gasoline, and when started operates on kerosene oil. The very latest improvements on Motor Engines will be found on the "COAKER." The man who buys a "COAKER" Engine from us saves \$50.00 on a 6 H.P., \$80.00 on a 8 H.P. and \$40.00 on a 4 H.P. Engine.

We have the 4, 6 and 8 H.P. Engines on exhibition at our premises. We also sell 12, 16 and 24 H.P. "COAKER" Engines; all 4 cycle make. Send along your orders for spring delivery.

For full particulars, prices, etc., apply to

SEERESS PREDICTS 1916 ANOTHER WAR YEAR

Gabriel Neith, Famous Astrologer, Says Record of Startling Events Will Surpass Those of Any Previous Twelve Months in History.

War probably will continue until 1918, although March, 1916 may bring strong hopes of peace.

March and June will be memorable months in the United States because of internal troubles as well as external dangers.

Germany may suffer adverse conditions in January and March. Death of a person of rank, possibly a member of the royal family, is indicated.

Britain should expect peril from air raids from Feb. 3 to Feb. 7. Personal danger for the king or one of his sons in March.

Belgium has little hope of escaping from its overshadowing cloud of calamities until 1918 or 1919.

France may suffer reverses in March and April, followed by heavy losses in July and August. President Poincare should safeguard his life.

Russia will uncover a long train of treachery. Personal injury to the Czar is probably. April will be unlucky with adverse direction until August.

Holland has the forecast of much trouble and possible invasion.

The United States may expect many surprising events that affect both business and political conditions.

A stormy national election is prophesied. Woman suffrage comes under adverse influences.

Earthquakes in quarters where seismic disturbances are almost unknown and landslides are to be expected.

President Wilson has the aury that will be the most active year in his life. New international problems will multiply, political treachery may be revealed. He should prepare for a campaign of intense strain and great resourcefulness.

Gabriel Neith, one of the best known woman astrologers in America, who is consulted regularly by scores of prominent bankers, merchants, politicians and society leaders, has written a forecast of events for the year 1916. Whatever one may think of the reading of the stars as a key to future happenings, this summary of "events-to-be" is intensely interesting.

By GABRIEL NEITH.

WITH the coming of the new year it is pleasant to forget all the horrors of 1915, but we who study the stars foresee that 1916 will transcend in startling events, upheavals of nature and waste of human life any 12 months in previous history. The record of the new year, however, will not be altogether sombre, for 1916 will be a period of greatest extremes. While all the forces of nature appear to unite for the destruction of material things, there will be a clearer vision concerning the unseen world. Counterbalancing greed, cruelty and selfishness, heroism, kindness and sacrifice will tend to uplift the race of men.

Doubtless the first question in every mind will be: What do the seers predict concerning the war? The answer is that the end is far off.

Although there will be periods when a strong current appears to be carrying the conflicting nations toward peace, it is not likely that the great world combat will end until 1918. One of the times when peace appears probable will be in March, 1916, and the other in the summer of 1918.

A War of Cycles. This is a cyclic war. The sub-cycle of Mars, the warrior, began with the equinox of 1909, in the cycle of Jupiter, the builder of fame. When the period of Saturn, the subduer, came, in 1914, the war cloud burst, and it is probable that the conflict will continue until 1918, when dawn the period of Venus, human love and sympathy. Unfortunately, the sub-cycle of Mars continues until 1944, and even though there may be a temporary cessation of hostilities in 1918 or 1918, war is likely to break out with renewed vigor later.

Unless peace is attained in the spring of 1916, Holland, Norway and Sweden may become involved in the war. There are also certain indications that March and June may be months of peril for the United States, through internal troubles, as well as external dangers.

Germany comes under a threatening sway of the planets in January and March. The death of a high official, possibly a member of the royal family, is foreshadowed. Discontent will breed in all classes, and the policy of the war lords may be severely criticized. Disasters at sea are indicated. May shows peril for either the Kaiser or the crown prince. The summer is more encouraging, but an adverse change in December, 1916, precedes sudden and startling events.

A Crisis and a Recovery. Britain has rather a dubious au-

gury including sudden reverses for January, danger from air raids the first week in February, and catastrophes on the seas. While the navy may gain in June, losses are likely in the middle of the month. Trouble over loans is presaged for the summer. September brings a crisis, followed by an upward sweep for the better in December.

Italy may expect victories and reverses in rapid succession. Riots over food and credit are probable. Conditions should improve in May, but a member of the cabinet will be in trouble. From September, 1916, to May, 1917, lost ground should be regained, if the King escape danger from the late spring to midsummer.

Belgium has little hope of better times until 1918 or 1919. Peril and losses threaten King Albert in February. Women and children may suffer additional horrors. More public buildings may be destroyed.

France should find its financial condition improved during the course of the year. The army may suffer setbacks in March and April, followed by heavy losses in July and August. Gains are prognosticated for early April and June. In November and December, treachery may be uncovered and the end of this new year of 1916 probably will be a crucial time. There is menace for the life of President Poincare in March and April, and again in July and August.

Russia has little hope of encouragement in the message of the planets. January and February should expose a chain of conspiracy extending back to June, 1915. For the Czar, serious losses and possible injury are foreshadowed. April is an adverse month, and he may expect little good until after August. If he survives, next December will bring gain to him.

Austria has little promise of great change. The aged Emperor may die in early spring or summer.

Holland has a sinister augury. Events having their origin in 1915 will reach a climax in July. Personal danger to the royal family and loss of estates or property belonging to the realm are to be expected. There is an ill omen for January and March, when dangers on sea and land are forecast, and possibly an invasion by a hostile army. Sudden and severe catastrophes are probable.

Norway shows intrigues and conspiracies from January to June. In March conditions involving naval activities are foretold. From April to November the outlook is serious.

Sweden may have a threatening time in January, and again in June. A crisis in international affairs may be postponed until December.

The Element of Surprise. Although the United States begins the new year more blessed than any country in the world, the stars forewarn the people that they should prepare for a year of startling events. Business conditions probably will be much affected, since the element of surprise is prominent in all public affairs. Men and Women of every class are counselled to be most conservative in their expenditures. The year will be a time for safeguarding money and property.

Those who speculate are warned of extraordinary fluctuations in the stock market. These will be followed

by scandals caused by failures and embezzlements. The sudden death of a person of prominence in banking affairs is prognosticated. Two financiers will end life, one in January and one in July. Brokers and speculators should be especially careful in the autumn, as the last of September and the first of November are under a sinister rule.

The coming summer, July 1 to 15, is under an unfavorable sway of the planets. Bankers are forewarned that the public mind will readily entertain fear. They should guard against possible runs on banks and consequent failures on stock exchanges. New York and Philadelphia come under a direction that indicates excitement. There is also an aspect that may mean repudiation of foreign credit.

Farmers will reap large returns from crops, but unsatisfactory conditions may cause losses. Cold and dark weather is indicated; storms of unusual violence may cause heavy losses of livestock. Breeders of horses and cattle have the promise of large profit, but they should take precautions against the spread of contagious disease.

Nature in a Savage Mood. Floods on the northwestern coast of the United States are prognosticated. Seattle may suffer damage. Disasters under ground may be numerous. Mining has an unlucky sign, read as indicating accidents from explosions and fires. Santa Fe, El Paso, Bis- mark and Leadville have an ill omen.

High tides and floods are likely to cause losses in eastern and Atlantic seaboard States.

The eclipse of the year tend to high winds and destructive tempests. The Panama Canal may be severely damaged in the last week of January or the first week of February. The last of July, the first of August and the end of October also are unfortunate times, in which damage that is costly may be looked for.

Earthquakes may be more numerous and more widely experienced than in previous years. The middle West and Central America may be disturbed by shocks Jan. 26, 30 and 31; Canada and the central of the Atlantic States April 17 to 24, which time will also be dangerous for the West Indies and the Panama Canal. These seismic phenomena may be especially severe at sunrise and sunset. In South America and Central India these upheavals of nature may take the form of landslides and tidal waves, wind storms, tornadoes and cyclones.

Special dates read for these cataclysms are as follows: Winnipeg 10 Galveston, Vera Cruz and Guatemala, Jan. 31 and Feb. 1; Dawson to Tahiti and Manila, Feb. 3; western Pennsylvania, Charleston, island of Jamaica, the Bahamas, Ecuador and Peru, Feb. 13. In the summer the following dates are probable: Winnipeg to Galveston and Central America, the Sonora River, Lower California, western Arizona and Nevada, Helena and Butte, Mont., July 13 and 14. Floods and disasters from the air—possibly severe heat and thunderstorms are indicated for the north Atlantic coast about July 26, when Jamaica, Porto Rico, Hayti, San Domingo and the Panama Canal are apt to suffer severely. There is a tendency to fro eruption or seismic shock in the Yukon district July 29, but the influence is more likely to affect Australia.

Benign Toward the Movies. The winter solstice and the vernal equinox are not altogether encouraging for theatrical affairs, although they indicate a period of change which will be most beneficial for the future. During the next few months motion pictures will continue under the most fortunate direction of the planets. There is a lucky sign for the introduction of color into the drama of the screen, for educational pictures and for advertising through the use of the camera.

For the legitimate drama new and surprising evolution in the taste of theatregoers is presaged. Success for serious plays instead of the merely frivolous is predicted. A tragedy is foreshadowed among the big producers. A partnership of the first importance will be broken, either by death or by a quarrel. Producers who have large investments are warn-
