

# GRAFT PERMEATES HIGH TARIFFS

### President H. E. Miles Address to Annual Meeting of Manufacturers--Tarriff Committee Report an Exposition of Deep thought and Research

The West has received from President H. E. Miles of the National Association of Agricultural Implement and Vehicle Manufacturers of the United States, a copy of his speech before the 14th annual convention which recently met at Jamestown, Va. The movement of the American manufacturers for tariff revision is of great interest to the Canadian people.

Mr. Miles in his address said in part: Meeting as we do here at Jamestown, where our forefathers first found a home upon this continent, it is well for us to remember that, old as is the country, old indeed as is civilization itself, our calling is older still. That first sweat that came to Adam's brow came, it may be presumed, from the use of an agricultural implement. The misshapen stick or stone upon which he first laid hold marked as well as anything could, the helplessness of man at that time, and no implement or tool better marks the advancement of man from that condition than do the implements made by ourselves today.

We meet here, proud of our calling, wishing for no other and only desirous by co-operative and individual effort, to advance it as in the past. We are informed by the department of agriculture that last year's crop was produced at a saving of \$685,000,000 from the cost of harvesting a like crop fifty years ago. This vast sum of money--almost equal to the national debt--was saved by the substitution for manual labor of the machines made by ourselves. Under the evidence the success of our efforts, equally with those of the farmer, determines the price of food, and the quantity. The department of agriculture assists also in its researches and experiments. Even great areas of our country which a short time ago were thought incapable of cultivation, are now among the richest of our agricultural possessions.

After dealing with the financial situation and the necessity for a revision of the terms of sale to consumers, Mr. Miles said: The great money reserves of the country are no longer in New York, nor in the other great cities. The wealth is in the country, where our customers live. It is the money from the towns--where our customers live that fills the banks of the cities when ever those banks are full. Our country banks send to the cities for investments. It is only by force of habit that they do this, instead of financing at home, our customers, our great relief. There is no one at fault for this situation but ourselves and we are greatly at fault.

This association is larger than any other to the agricultural population of 39 million people, being one-half our total population. The welfare of our country is so vitally concerned in the success of these our customers, whose success is our success, that we ought to help our country and ourselves by helping in such national and economic movements as are for the betterment of the agricultural interests.

**Tariff Committee Report**  
Mr. Miles is also chairman of the tariff committee which reported as follows: Members of the Association--

We little anticipated at our convention a year ago the extent to which the demand for tariff revision would grow during the year now ending. To a considerable extent we looked at the revision only as it concerned ourselves and our customers. It has been found, however that the old man "Graft" sat at the tariff table when the last schedules were made and was no more unfair in his handling of those schedules which immediately concern than in substantially each and every other schedule.

Our members are thorough going Protectionists and Republicans almost to a man but protection with confidence and dependence upon our strength and our capacity.

## IT'S ALL ROT SAYS WILKIE

### Imperial Bank Manager Says There is no Scarcity of Money for Grain Trade--Byron Walker of Commerce Banks Says They Will not Stand for Speculation

Toronto, Nov. 7.--Despatches from Winnipeg say that wheat cannot be sold because of the present scarcity of money and the Canadian banks are arranged because they are unable to finance the farmers' output. To unearthen this peculiar state of affairs a Toronto World man sought to prove or refute the assertion.

D. R. Wilkie, president of the Imperial Bank, an institution which has many branches in the Canadian west, and which has paid particular attention to this part of Canada, was first after. He was asked whether the Canadian banks were unable to finance the western crops.

was not available for handling the crops. "We are looking after all our customers, but we certainly don't intend to loan on wheat to men who want to carry it over for speculation." The statement that Canadian banks would not release wheat for shipment to Duluth from Fort William, was shown to Mr. Bethune of am not surprised at this," he remarked. "The state of the financial market in the United States is quite enough to account for this. The bank which held the loan for the grain was quite justified under present conditions in demanding the cash before releasing it for shipment."

**Blame the Millers**  
In Toronto grain circles the squeeze has been expected. A big speculation has been built up in Winnipeg in grain options, owing to the short crop, but the grumbling has been overstated in Winnipeg, the Toronto traders having followed the speculation very cautiously.

A Toronto grain broker in discussing the matter said: "I think the whole thing is in the hands of the two big milling concerns, the Ogilvie Milling Co., and the Lake of the Woods Milling Co. They are in control of the whole western crop. They have sold large quantities of flour by keeping up Winnipeg wheat option and now the wheat is moving from the farmers' hands, they are only taking the supplies at their own prices. There is a good European demand for our northwestern wheat, however, and unless the cheaper prices go to pieces, the Chicago quotations will not fall very much."

## Badly Run Down

The life of any constant traveler is always a hard one, but those whose work compels them to take long, tire-some drives over rough roads, exposed to all conditions of weather, are in constant danger of losing their health. The extreme heat of summer and the piercing winds of winter sap their strength, the kidneys become diseased or rheumatism sets in. What is needed to withstand this rich red blood--the pure blood that Dr. Williams' Pink Pills alone can make. These pills are the travelers' never-failing friend. Concerning them Mr. George Dalpe, of St. Eloi, Que., says: "I am a grain dealer and am obliged to make frequent trips, sometimes very tiring. I returned home from one of these trips last winter very much fatigued. I was overworked and tried to cool myself by lounging on the veranda till late at night. I caught cold and the next day I did not feel at all well. I had a headache, pains in my stomach, and was very weak. I went to see a doctor, but he said I would be all right in a day or two, so I started on another trip. I had not gone far when I felt very ill and had to return home and go to bed. I had chills, headache, pains in my stomach and kidneys. The doctor came to see me and he said I was overworked. He treated me for several months, but instead of getting better I gradually grew worse. I was fed away almost to a skeleton and really thought I was going to die. One day my wife returned from the village with a supply of Dr. Williams' Pink Pills. She urged me to take them as she said they had been 'highly recommended to her. I did so and by the time I had taken four boxes I felt enough benefit to decide me to continue them and I took about a dozen boxes. They fully cured me, and today I am able to go about my work without feeling fatigued."

Fatigue, or the least exertion is a sign that the blood is poor. Replace the bad blood with pure blood and labor will be pleasure. Dr. Williams' Pink Pills make pure red blood. That is why they cure anemia, rickets, kidney, trouble, indigestion, heart palpitation and the nerve--all ills of girlhood and womanhood. Sold by all medicine dealers, or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams Co., Brockville, Ont.

## A Liberal Steal

Let us look at the Crow's Nest Pass railway deal which took millions of dollars from the treasury of the middlemen. Then there is the Drummond County railway deal, the purchase of a railway between Lewis and Montreal for a million more than it was worth. The senate rejected that motion, however, and saved the country a half million dollars, according to the acknowledgement of more than one Liberal senator. The proposal of the Liberals was just to place a million dollars in the pockets of their friends. See what they have done with the public revenues. They have not failed to build public works where public works were not required. For instance, in one place in Quebec over \$50,000 was spent in the fashion of a railway. They handed over to their camp followers hundreds of thousands of dollars.

In 1903 they brought down an order in council to the house of commons to consider the question of transportation in this country. It was an ably drawn document drawn by outside assistance and I can point to the drawer thereof. It pointed out the needs of Canada. The commission on the same deliberated at great cost for over two years and a half years. We asked for the report of that commission. Finally it came down. It contained many recommendations which should have been carried out. They have failed to carry out a

# STOREY'S GLOVES

Well Made Good Fitting

That we know how to make gloves that will pass with honors the most critical examination as regards quality of skins, pliability and strength, neatness of stitching, and all round perfection, you can prove yourself by asking for Storey's at your dealer's. That they will outwear your most sanguine expectations is our firm belief. Insist on Storey's--at all stores.

single recommendation and the question has stood today as it stood in 1904.--R. L. Borden in his speech before 5,000 people in Brandon.

Trial Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests penny's cost--the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by the Regina Pharmacy Stores.

## MEDS HOLD CONVENTION

### Medical Faculty Meets at Indian Head--Will sit Next Year in Regina

Indian Head, Sask., Nov. 8.--The medical association continued its sessions here today, commencing with a visit to the hospital, where Dr. Kemp performed an operation. Afterwards the delegates were given an automobile ride out to the experimental farm and vicinity. In the afternoon Dr. Seymour, the provincial medical health officer, who has made special study of typhoid fever during the last few years, gave a very interesting paper on typhoid, its causes and preventatives. Dr. Thomson, health officer of Regina city also contributed a paper.

In the evening a banquet was given the visitors in the Imperial hotel, at which his lordship, Bishop Grisdale, presided. Toasts were drunk to the King, the medicine and surgery of today, our guests, and the medical profession, all of which were responded to by the doctors present. Mayor Donely responded to the health of the town, proposed by the health of Songs by Messrs. Godfrey, Butterworth, Dennison and Lennox, along with an orchestra, formed the musical part of the programme. The association decided upon Regina as its place of meeting next year.

When the stomach, heart or kidney nerves get weak, then these organs always fail. Don't drug the stomach nor stimulate the heart or kidneys. That is simply a makeshift. Get a prescription known to druggists everywhere as Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative--solids or liquid--and see how quickly help will come. Free sample test sent on request to Dr. Shoop, Racine, Wis. Your health is surely worth this sample test. The Regina Pharmacy Stores.
