Dectors Who Were Ready.

According to the British Medical Journal, every doctor has had unpleasant experiences with the economical-minded person who takes advantage of a casual meeting at the dinner table or elsewhere to importune him for counsel as to his ailments. It is not always easy to get

rid of these pests.

Abernethy was, as we know, equal to the occasion when a wealthy alderman whom he met at a friend's house recited his catalogue of woes, ending up with the question: "What should I take?" The reply was: "Take advice."

A French doctor recently rid himself in an equally ingenious manner of a patient who sought to impose on his good nature. He was accosted one afternoon on a crowded boulevard by a lady no on a crowded boulevard by a may not torious for this practice. She at once began to tell of her pain in her hypogastric region. To which the doctor gravely replied:

"My dear madam, I must examine the manual of the pain in the pain in the control of the pain in the pain

Wall street associates of the great "bear," James R. Keene, admit almost unanimously that the financier is seldnammously that the linancier is seldon caught napping. They declare, however, that Mr. Keene is absent-minded occasionally, and tell this story on him to prove it. Keene and his fellow "bull baiter," Washington E. Connor, were at baiter," Washington E. Connor, were at the Keene country place outside of New York. It was a beautiful summer evening, and Connor proposed a stroll through the magnificent grounds. Though the guest had left all the cares of the street in the city, started on the walk, but Connor noticed that Keene was strangely uncommuni-cative. Suddenly the full moon appeared above the trees, and Connor regard ed its splendor in silence for a moment hen he turned to his companion.
"Isn't the moon beautiful, Keene?"

"Yep; but it's too high, too high!" as the preoccupied answer, with a

He came across the sea,
And soon the world began to hear
Of Andrew Carnegie.
But when in Pittsburg's murky towa.
He made his golden pile,
And sailed away to take a rest
In Britain's bonny isle,
Did he forget this land of ours,
Where dollars grew so hand?
Ah, no! and that's the reason why
Our hearts go out to Andy.

The locomotive engineers
Have cause to bless his name,
And colleges and libraries
Perpetuate his fame.
He speaks for universal peace
From mountain-top to wave,
And never fails to well reward
The gallant and the brave.
From frozen wastes of polar ice
To deserts hot and sandy.
He makes the world a better place—
Our hearts go out to Andy.

Where molten steel like water flows,
The flaming foundries write
The story of his charities
Upon the skies at night,
And pacans in his praise will fill
The capital of loke,
Till Pittsburg furls forevernore
Its bannerets of smoke,
All half the laird of Skibo, then!
He may not be a dandy,
But he's a generous gentleman—

DIFFICULT CENSUS TAKING.

Delicate Task in Egypt-Discovering Secrets of the Harem.

The country for the last few days has been going through a series of questions and answers. It is the period of the decennial census. At home the taking of the census is a comparatively easy matter. Every householder has his or her ter. Every householder has his or her sheet to fill up on a certain night and the collector fetches it on his rounds, and there the matter ends. But in Egypt there are insuperable difficulties in the wayof such simple methods

m the wayor such simple methods.

To begin with, as the illiterate class is large, it is manifestly impossible to get the forms filled in; writes a Cairo correspondent of the Pall Mall Gazette. So the Government has had to nominate ar army of inspectors, who have been going from house to house and have powers to penetrate to the inner departments in or-der to obtain full details.

Of course in a number of cases the natives, not understanding the cause, resent this intrusion, and some of the incisent this intrusion, and some of the incidents have been most awkward. Morever, very few of the fellaheen really know their ages, their idea of time being fixed by events. Thus one man's reply to the questioner was that he was a boy working in his fathers' field when Alexandria was bombarded, and another that he remembered seeing the "malika fransawiya," evidently the Empress Eugenie, at the opening of the Suez Canal.

On the other hand, the women, unlike at the opening of the Suez Canal.
On the other hand, the women, unlike their western sisters, do not consider age a thing to be ashamed of, and un-blushingly admit, in some cases, ten years more than possibly is their age. The harems have been another obstacle The harems have been another obstacle to the completeness of the census, and in many instances the inspectors have had warm quarters of an hour with the surly and unwilling eunuchs who guard those portions of the Easterner's domi-
