Try Again for Health

If you have wasted money on doctors, and taken medicine after medicine, without relief, of course you are discouraged. But don't give up. There is one cure—certain and sure—that will make your kidneys well and strong.

Here is a letter from an old gentleman, 72 years of age, who had just your experience, but who was convinced that he owed it to himself to at least try GIN PILLS. Read what he says:—The Bole Drug Co.

Boissevaln. Man. The Bole Drug Co. Boissevain, Man. Winnipeg, Man.

Dear Sirs,

I am now 72 years of age. I have been ill
for about six or seven years, and have been
attended by different doctors, but I could get
no help. I started taking — Kidney Pills,
and I have taken several odd boxes, and I
found they helped me a little. This spring I
started to take Gin Pills, and believe they have
cured me. I cannot say too much about them,
and recommend them as a good kidney pill,
(Signed). WILLIAM CUMPSTONE (Signed) WILLIAM CUMPSTONE.

Note that Mr. Cumpstone not only found quick relief, but "believe they have cured me," Try just once more. Give GIN PILLS a fair trial. So sure are we that GIN PILLS are a positive cure for all Kidney troubles that we will let you test them

free.
Send name and address, and tell in Send name and address, and rell in what paper you saw this offer and we will send you a sample box of GIN PILLS free of charge. Gin Pills are sold by all druggists at 50c a box, or 6 boxes for \$2.50.

Eggs of Sea Gulls. Near the small town of Liegnitz, in Silesia, lies the village Knitz, which is the possessor of a small lake having a rush and reed covered island nestling in its centre. This island has been selected by a native dealer as a breeding ground for sea gulls, and thousands may now be seen there. The eggs of these birds are held in much esteem as dainties. The demand is so large and the quantity of eggs secured is so considerable that the owner is making money quickly. The birds do not seem to object to the removal of their eggs,

NOTES. NOTES.

A very cordial invitation is extended to the Chatham Curling Club to be present on the above dates. Ac-

MADE FROM NATIVE ROOTS.

That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the early settlers their uses. The Indian never liked work so he wanted his squaw to get well as soon as possible that she might do the work and let him hunt. Therefore, he dug "papoose root" for her, for that was their great remedy for female weaknesses. Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription," skillfully combined with other agents that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women. Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor ness over the lower pelvic region, with backache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous benefit in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinal roots, without a drop of alcohol in its make up, whereas all other medicines, put up, for sale through druggists for woman's peculiar ailments, contain large quantities of spirituous liquors, which are very harmful, especially to delicate women, "Favorite Prescription" contains neither atcohol nor harmful habit-forming drugs. All its ingredients are printed on each bottle wrapper. It is a powerful invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. For weak and sickly women, who are "worn-out," or debilitated, especially for women who work in store, office, or school-room, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription will prove a priceles SAFE AND RELIABLE.

rangements have been made with the different railway companies for special excursion rates to and from Winnipeg. It has been definitely decided that the Chatham Curling Club will have one risks the street. Club will have one rink at least present, and the prospects are favorable for at least a second rink. Anyone intending to go to Winnipeg on or about the first of February should correspond with the Secretary, J. W. Aitken, and arrangements can be made to include them with the curling party.

The Secretary would like to have the names of any of the club who would like to take in this trip.

In connection with the death of the Earl of lichester it may be mentioned that at Abbotsbury, the Dorsetshire home of the Earls of Ilchester, is one of the finest collections of waterfowl in the world. Over 1,200 swans are kept in the West Fleet, granted to the foun-der of the family by Henry VIII., and der of the family by Henry VIII., and an ingenious decoy attracts flocks of wild fowl, which are carefully preserved by keepers, whose whole duty is to tend the swans and other less gorgeous birds. The estate also includes some highly interesting monastic remains, including the ruins of a monastery founded by Orcus, Chief Seneschal of Canute, and Tola in the year 1026.

GRASS LINEN UTILIZED IN PRETTY FANCY WORK.

The Material Is Ordinary and Inexpensive, the Making Easy, the Results Dainty - Covers and Cases of Various Kinds.

There is no doubt that some of the prettiest articles can be made of the most inexpensive material. Such is the case, at all events, of those made of ordinary grass linen, and this material can be purchased for a small price at any dry goods store, says the New Idea Magazine, which indicates as follows some of the ways in which the material may be utilized:

Magazine covers while not new are

MAGAZINE AND LETTER PAD COVERS. made of the ecru linen, is particularly pretty. The scroll design in the corner is painted in shades of greenish gray water colors, and at intervals are sewed sparkling green jewels, such as are used by needle workers in making cushion covers and other like articles. The word "Magazine" lettered acros the bottom tells the use to which the pretty case is to be put.

A little above the magazine cover in the same illustration is a unique article used to hold a writing pad, the kind one buys for 10 or 15 cents. Inside the cover, which is oblong in shape and, like the other article, opens in book form, are stitched two covers, into one of which is slipped the cardboard back of a blank writing pad, the other pock et being smaller and containing envelopes. An elaborate scroll design in greenish gray and pale brown dec-orates the bottom of the cover, and above this is the suggestive motto "Should my friends forget me?"

The handy little case for needles and thread measures 4 by 5 inches and, being in book form, is easy to carry and sure to please a friend who is given to traveling. Inside several pockets are stitched, into which are slipped reels of black and white sewing cotton and several shades of darning cotton as well as a few pearl buttons. A piece of fiannel, pinked at the edges, is fastened in the center of the book, and on this various sizes of needles are stuck.

On the outside of the cover are painted in water colors a spool of white thread and several buttons. The top of the spool is done in red, and one of the buttons is brown, while in brown is the motto, "Be sure to mend both heel and toe 'fore out into the world we

This is pasted down after the manner of the book cover over two separate pieces of cardboard, each 3½ by 9 inches, the size of the case when finished. In this way a half inch hem is allowed on all sides for pasting. Two he size of the cover finish off the inside, and a ribbon fastens it to a convenient place on the wall. Does Your FOOD Digest Well?

When the food is imperfectly digested the full benefit is not derived from it by the body and the purpose of eating is defeated; no matter how good the food or how carefully adapted to the wants of the body it may be. Thus the dyspeptic often becomes thin, weak and debilitated, energy is lacking, brightness, snap and vim are lost, and in their place come dullness, lost appatite, depression and langour. It takes no great kno wledge to know when one has indigestion, some of the following symptoms generally exist, viz.: constipation, sour stomach, variable appetite, headache, heartburn, gas in the stomach, etc.
