## What Will I Look Like in Ten Years from Now?

What woman hasn't asked herself this question? How often have you worried about it? You have heard it said that "beauty is only skin deep". Don't believe it. The key to good looks is health, and the first essential to good health is to keep the digestive organs in perfect working order. For this purpose nothing is so helpful as Chamberlain's Tablets. An occasional dose will prevent or relieve constipation, indigestion, biliousness, sick headache, and all their train of attendant evils.

## Gossard Corsets are not Expensive

Rising prices has made Gossards even greater corset value than before—because Gossards remain at standard prices and at standard quality.

People who have seen the new Fall Corsets and brassieres enthusiastically declared that the Gossard line exceeds in beauty and value anything that they have ever had the privilege of examining.

"How much have your prices raised?" The question is almost invariably asked by those who see the new Gossard merchandise. They are surprised to learn that the prices have not increased.

The reason why there will be no advance in prices of Gossard corsets and brassieres is simply this—that the raw materials were purchased at the old prices last year when every resource of the Gossard Company was utilized in accumulating merchandise that reached the Gossard standard.

Every woman who wears a lace Front Corset will get more for her money this Fall by wearing a Gossard than she did before.

For excellence of material and workmanship give the greatest durability to Gossards. They wear longer. They are rust-proof and washable. Lacing in front makes it easy to adjust the corset each morning comfortably and mould the body. The Gossard selected according to your exact figure type must outwear any less perfectly individualized corset.

Prices from \$2.50 up.
