LORDS OR PEOPLE?

Lord Lansdowne has intimated that on Monday he will in the House of Lords move the rejection of the Budget. This is indicative of one result, a war between the aristocratic branch of the Government and the people.

THE LIBERALS' ANNUAL.

The annual meeting of the Hamilton Liberal Association, the first under its new constitution, was held last night, and was marked by the greatest enthusiasm.

ONLY JUSTICE ASKED.

Mayor McLaren's letter was lucid and straightforward and should set the city's side of the power question clearly before the Power Commission.

city's rights and interests to the Hydro conspirators. The furious abuse of the Mayor by the local organ of the world's betrayers is a testimonial to his careflessness in behalf of the ratepayers.

THE MILK QUESTION.

Dr. J. H. Elliott, secretary of the Ontario Milk Commission, has written to Mayor Oliver, of Toronto, a letter in reference to the pasteurization of milk in which he goes out of his way to disparage efforts at securing a wholesome and pure milk supply.

Hamilton's Milk Commission has this summer demonstrated, in a small way, and with most convincing effect the advantage of a milk supply that is wholesome to begin with and that is kept clean and delivered to the consumer in its natural purity.

Whether a city may adopt pasteurization of milk or not, it should always be borne in mind that the treatment is one that is not necessary to pure milk properly handled. With impure milk to begin with, efficient pasteurization is to be desired.

At a caucus of representative physicians held in Montreal yesterday, Dr. Reddick's Dominion Medical Registration Bill of 1902 was amended so as to meet the views of the representatives from all the Provinces.

EDITORIAL NOTES.

What? Object to John Milne as Tory boss? Lese majeste! To the block with the traitors!

Talk about 60 cents a dozen for eggs. How does the hen—or the egg dealer—formed a union or merger?

The Liberals at Ottawa held their first caucus yesterday, it being marked by harmony and unanimity. It was in striking contrast with the Opposition caucus of Friday.

The American Bell Telephone Company has secured a majority of the stock of the Western Union. It is understood that the arrangement in no way affects the Canadian companies.

Step down, Mr. Milne, and accept a nicely worded address, before the storm drives you to the party cyclone cellar. How would it do to name Allan Studholme, Esquire, M. P. P., of the 'Big Voice,' as your successor in the bossship?

Mr. M. Y. McLean, M. P., South Huron, has given notice of a resolution for a committee to revise the rules of Parliament with a view to simplifying procedure, and curtailing unnecessary discussion.

Some "Sons of the American Revolution" are prosecuting Peary for putting the words "The North Pole" on the United States flag carried by the Roosevelt at the Hudson-Fulton celebration.

Mr. Tatlow, ex-Minister of Finance of the McBride Government of British Columbia, has made a statement explaining why he resigned. He condemns the railway bargain which McBride made, and refused to allow his Ministers to read and study, and declares that it promises to destroy the credit of the Province.

The fool suggestion that if Gompers and his associates be compelled to serve their sentence, a general strike all over the continent should be ordered so as to stop every wheel of industry and transportation for two weeks, was very promptly rejected by the A. F. of L. Convention the other day.

The action brought by Walter D. Beardmore to enjoin the city of Toronto from going into the business of buying and selling electric power was argued in Toronto yesterday before Chancellor Boyd.

William Hartly, once a Minister of Hon. Geo. W. Ross' Government, a prominent Roman Catholic citizen, has contributed \$100 to the jubilee fund of Queen Street Methodist Church, Kingston.

Already the question of controlling such combinations of industries as the Cement Merger has cropped up in the House of Commons. And not a day too soon. Parliament cannot afford to look on idly at great combines organizing to control the industry and commerce of the country.

The parrot Tooley Streeter of the Herald affects to be shocked by Mayor McLaren's "arrogance—we are tempted to say impudence" in writing to the Hydro-Electric Commission a letter on civic business in which he uses the word "we," meaning the people of the city.

The Railway and Municipal Board has ruled that the Street Railway Company is required to pave and keep in repair the road for two feet outside of its rails.

cheaply the company can do such work makes us wonder that it should have set up that contention.

A large number attended the lecture on the "British Navy," in St. Peter's Church, by J. H. Collinson, last night. Mr. Collinson pictured his subject in its different ways, and was able to make it interesting as well as educative.

Among the views shown was "The Death of Nelson," a very fine one indeed, and Mr. S. Siddons sang the fine song by that name. Mr. S. Walling presided at the piano.

Last evening in Ebenezer Hall Mr. Robt. McMurdo spoke to an interested audience on "The Feasts of the Lord." Pentecost was the theme, and the speaker explained in a very able manner the comparisons between this memorable event and the prophecies concerning it in the Old Testament.
